Wood and Grain, Wanted at this Office, On Accounts six years old.

COMMITTEES OF VIGILANCE-Toe undersigned, Standing Committee, appointed by a Democratic Convention of the 8th of September, 1846, have appointed the following persons in their re-spective townships as a committee of vigilance for the spective townships as a committee of vigilance for the purpose of calling meetings of the Democratic electors of each township on Saturday the 5th day of December next, to elect two delegates from each township to the Democratic County Convention, to be held on Tuesday evening the 8th day of December, at the Court House in Towards, for the purpose of placing in nomination a candidate for Representative, to fill the vacancy occasion-ed by the death of the late John L. Webb, Esq.; and also to elect delegates to the Democratic State Conven-tion to be held on the 4th of March next, for the purpose of nominating candidates for Governor and Canal

missioner.

The Standing Committee would respectfully urge up-The Standing Committee would respectfully urge upon the Committees of Vigilance, the importance of the duties they are requested to perform. The success of the cause depends in a great measure, in a cordial and hearty support of the ticket formed at the County Convention, and to deserve and secure this support fair and timely notice should be given of the place and hour of holding the primary meetings, that every democrat who wishes may be present. And further, we would ask the committees of vigilance, that they urge upon the democrats (when met) the necessity of a free interchange of feeling and sentiment, in reference to the various matters of interest for which the meeting was callrious matters of interest for which the meeting was call-ed, in order to the obtaining that harmonious concert of action so necessary to defeat again the various combina tions opposing the sound Democracy of our county.

The meeting should be called at some convenient

place, and kept open until every one has had an oppormty or voting.

They would also urge upon the democratic citizens of the several election districts the importance of a punctual attendance upon the primary meetings, and the selec-tion of active and zealous democrats to act as delegated who will be punctual in their attendance, and indepen

dently perform the duties committed to their charge.

More Signs of Ruin!

We copy the following paragraphs for the especial benefit of those who were a short time since crying out "Ruin! Ruin!" and busily engaged in depicting the distress which was to follow the modification of the Tariff of 1842.

The Chester Democrat says that "the two large Anthracite Iron Furnaces, recently erected at Allentown, pique about rank, resigned his commission, the Presi-Pa., by Messrs. Bevan, Humphreys & Co., of Philadel- dent, mindful of public interest, and in kind considersphia, were successfully blown in week before last b Perry, and continue to work prosperously."

The Lock Haven (Clinton county) Democrat says :-"A company fully competent to the undertaking are randsville, and we are informed will do an extensive

business. "Peter Ritner & Co. are also making extensive arrangements for going into a large Coal operation on the and Coal operators in this county are driving on their business rapidly, and no fears are entertained of their success. They seem to care no more about the change of the Tariff than though no such thing had occurred."

"Saul M'Cormick, Esq. is putting up a large Rolling Mill, a short distance above Mill Hall. Although Mr. M'C. is a strong Whig, he does not appear to be particularly frightened by the Tariff of 1846."

This certainly does not look like a total suspension of business, or of rain to the iron and coal business of the

EDITOR'S CONVENTION .- The Democratic Standard, published at Hollidaysburg, Pa., proposes that an Editorial Convention be held at Harrisburg, composed of editors and publishers of country papers, to take into consideration the grievances under which they now labor.

The Standard very truly remarks that it is a source of extreme regret that many of the country publishers are so blind to their own interests as to publish long prospectures of city literary papers for less than the price of Esau's birthright; and further proposes that the convention take into consideration the gross and palpable injury done the Country press by puffing into existence and keeping alive, sheets of great pretensions, but little merit, merely for the sake of an "exchange."

We plead "not guilty" to this charge, at least; and we believe, that if country papers would adopt a higher and more independent course with regard to city literary papers, they would find it much to their interest.

We are heartily in favor of the proposed Convention, and we trust the expression will be unanimous in its

THE Troop BANKER. The first number of this paper, printed at Wellsborough, by W. C. WERR, was issued on the 26th ult., and is now before us. We congratulate the Democratic party of Tiogs, upon now having a paper conducted with ability, upon principles far above the reach of sordid and meteenary motives. They will find Mr. Webb an able and fearless exponent of the cardinal doctrines of the party, and content to lend his aid to the advancement of those expressed principles, rather than desirous to lead the Democratic party by the

General Orders-No. 6.

The following is the proclamation of the Governor alling one Regiment of Infantry from this State, into the field. The companies will be served according to the order in which they are ready to march, computing the time from the receipt of the General Orders.

HARRISEURG, Nov. 18, 1846. The Commander in chief announces to the Voluntee Soldiers of Pennsylvania, that a requisition has been nade by the President of the United States, bearing date the 16th day of November instant, for One Infantry Regiment of Volunteers of this State, to consist of ten companies, and to serve to the end of the War with Mexico, unless sooner discharged, on the conditions stated in the requisition, a copy of which is hereto annex-

ed. Pittsburg is designated as the place of rendezvous The Commander-in-chief, with great confidence, exects that those companies which patriotically tendered their services upon the request of the President of the 19th of May last, will promptly comply with the present requisition.

It will be perceived that the present requisition is susceptible of a different construction from the former one, as to the term of service It will therefore, be distinctly understood, that all offers of service now made will be in reference to the terms of the last requisition. As the services of all those who have already volunteered will not be required to fill the call now made, the annexed rule marked A, for making the selection has been adopted. It will be perceived, by reference to the present requisition, that each company is to consist of eighty privates : but if the number, on being mustered, does not fall below sixty-four effective men in a company, it will be received. The strictest attention to the requirements in regard to the age and physical ability of the men, should be observed.

Each Captain or Commanding Officer is required to report within ten days after he shall have received this order, to the Adjutant General at Harrisburg. As soon as the reports are received, the selection of ten companies will be made, and those whose services are accepted will receive immediate orders to march to the place of rendezvous, where the officers will be elected, and the Regiment inspected and mustered into the service of the United States.

By order of the Commander-in-Chief. H. PETRIKEN, Assistant Adjutant General

GEN. Scorr .- It is generally believed that Gen Scott will take command of the Army of Occupation. and in due time, command the new expedition either against Vera Cruz or Tampico. This is to be done at Gen. Taylor's request.

The Ledger in speaking of the probability of this appointment by the President, says :- "Gen. Scott is a soldier of tried abilities, and in command of a vigorous campaign against Mexico, would inspire confidence in the whole army, and the whole country. As a true patriot and a high-toned man, he must desire an opportunity of retrieving the hasty indiscretion of the "hasty plate of soup;" and the President, as another true natriot. and a man superior to low jealousies, must desire to give him an opportunity. FIGURES CAN LIE.-Col. Lusk has proved in his last Advocate, by figures, that Mr. Wilmot is virtually defeated, notwithstanding he has a majority of 747 votes over his competitor. That's an "abstraction" too fine for our comprehension. We had always thought the candidate "virtually defeated" who got the least number of votes-but Col. Lusk says otherwise, and we hope he will not fail to enlighten the world by a speedy publication of a new mathematical work to be entitled " Lauk | 1100ps ? upon Daboll," in which shall be fully demonstrated, a solusion of the problem in politics, that a candidate may be "virtually defeated" who receives a majority of 700 over all competitors.

The Col.'s figures show a falling off of the vote of this year, compared with that of 1844, of 2564-and he avers that Mr. Wilmot's "loss was greatly increased with the increase of the vote—that is, with a vote 2564 less than it was two years ago. We propose the following the rights of America; and now they have tears to Col. Lusk, or any of the coterie that surround the and sighs for the Mexicans who are at open Advocate, for solution:

In 1844, the entire vote of the district, according to the Advocate, was 13,013. In 1846 it was 10,391, of rance on the part of these whigs to attempt to which Mr. Wilmot received a majority of 747, and, as shift a title so appropriate to themselves, upon Col. Lusk says, was "virtually defeated." Now, if he their opponents, and besides it shows a great could get a majority of 747, when but 10,391 votes were deal of ingratitude, for the British newspapers, polled, suppose the full vote, 13013, had been given. what would have been his majority? Don't you think Col., in that case, he would have been "virtually elected !"

We are authorised by the Editors of the "Bradford Settler, as any that the publication of their paper will be delayed it fasteb or April next, in consequence of a disappointment it rocurring materials.

The above appears in the Montroes Advocate of las week. It was in that office that the few sickly half sheets of the famous " Bradford Settler" were printed during the late campaign. Our readers will recollect the notice we then gave of its attempt to distract and disorganize the democratic party, by opposing our regularly nominated candidates; -and its editors will recollect how disgracefully, to themselves, those efforts terminated. We are not authorized to say how long its to ent out certain prizes anchored in the river, publication will be delayed, but we venture on our own and they were all taken. nok to say, it will be far beyond March or April, if it waits for Democratic support.

THANKSOIVING .- Thursday last was the day set spart by the executive of our Commonwealth, as an approriate season for rendering thanksgiving and praise to the Giver of all good for the many blessings poured out leave, so that it is feared that most of their upon us during the past year; and we would be happy to say the occasion was duly and appropriately observed | diers. by the good citizens of our Borough. Stores, shops and public houses were closed, ecular husiness was suspended, all classes united in the religious exercises of the day-and all seemed to feel the solemnity of the occasion, and to realize the Importance of devoutly and uni tedly paying homage, at least once a year to our Heavenly father, for the countless mercies received from hi hands.

Such is the account we wished to give of "Thanks giving day." How near it approximates to the truth could be best told by the number of empty Pews in our churches on that day.

NEWSPAPERS,-It is a "fixed fact," and "a fact no ticed by all travelers, that nearly every village in this country of moderate size, has its newspaper."

And it might be added, some of them have two and three papers.

EXPLOSION AT PITTSBURG.—The Pittsburg papers of Saturday contain the particulars of the explosion at the Oregon foundry, in that

The boiler attached to the engine of the es tablishment exploded, it is supposed, from want of water, and not only tore in fragments the part of the building in which it was situated, but passed through the main building where a number of moulders were at work, and tearing a hole through the front of the house, passed across the street and a considerable distance up the adjoining hill, into which it shot like a cannon ball, to the depth of five feet, and then rolled end over end some distance further. We judged the distance from the engine house to the place where the boiler white do. 107c a 108c. Rye, no sales. Corn. old was found, to be between two and three hundred feet.

In its passage it took off the head of Mr William Holland, the foreman of the establishment and one of the partners, even with his shoulders, and carried it upon the hill about three hundred feet from the body.

Mr. Jas. McClory, a pattern maker, who i seems was in charge of the engine at the time of the accident, also had almost his entire head torn off. Nothing but the blackened skin o

four pounders. Arrived off Tobasco at 6 P. M., and anchor ed in line ahead at a distance of sixteen yards from the shore. Summoned the city to surrender. The Governor refused. We fired three shots from the Vixen; one cut the flag-staff. and as the colors fell, we thought they had surrendered. An officer then came off and requested that we would spare their hospital, which was granted.

At five o'clock, landed two hundred seamen and marines, but as it was too late to attack the fort, they were ordered on board again .-Some skirmishing ensued, but none of us were ipjured.

This was Sunday, and the Commodore was mewhat reluctant to commence the attack on that day. We had captured three schoeners before we arrived at Frontena, and another on our passage up the river, making in all one brig, five echooners, two steamers and many small crafts and lightees.

Monday, Sept. 26 .- At daylight, we sasained a sharp fire of musketry from the shore, which was returned by our great guns, whenever we heard a report. The firing continued for some time at intervals, when a white flag was displayed by some civilians on shore, (no doubt by consent of the Governor.) and a request was sent off to the Commodore, to spare the town, which he granted, adding that he

only desired to spare the inhabitants. We then got the prizes under way and made every preparation for returning. While white flags were flying all the while, Lieut. W. R. Parker got on shore with his prize vessel, and vas attacked by about eighty soldiers, whom he beat off with eighteen men. having but one killed and two wounded-this affair lasted 30 minutes.

Lieut. C. M. Morris was despatched to him with orders, and in passing the heavy fire of enemy was wounded in the neck by a musket ball. Lieut. Morris stood up in his boat and cheered the men most gallantly, until he fell into the arms of Midshipman Keever, who was with him.

The commodore then commenced cannonading in earnest from the Vixen, Bonita, Monita, and Forward, in the space of half or three such as appeared to be inhabited by peaceful citizens.

An extra from the New Orleans Picayune, received by the Southern mail of this evening, dated Thursday, the 19th inst., gives the following account of expedition against Tampico having started from Anton Lizardo.

The schr. Milas, Captain Thompson, arrived this morning from the squadron at Anton Lizardo. having made the voyage to the Pass in five days. The Commodore despatched on Wednesday, the 11th met., the frigrate Raritan, Capt. Gregory, the Potomac, Capt. Wallack, and the sloop St. Marys, Capt. Saunders, for Tempico. On the following merning the Commodore hoisted his broad pennant on the Princeton, Capt. Engle. and sailed for the same destination. The Princeton took in tow steamship Spitfire, Capt. Tatnall, and the gunboat Petrel, Lieut. Shaw. The steamship Mississippi, Com. Perry. sailed the same day, having in tow the steamship Vixen, Capt. Sands, the Bonita, Lieut. Renshaw, the Reefer, Lieut. Sterett. and the Nonate,

Lient, Hazard. Ere this they have doubtless reached their destination, and we presume that Tampice is already in our hands. The Spittire, Capt. Tantall, had previously arrived at Anton Lizardo. having touched at Tampico, and communicated with the Porpoise, which was maintaining the since the election of Mr. Polk, have furnished blockade off that port, and learned that the Mexican troops had marched out of Tampico, retiring towards San Luis Potosi, taking with them

the artillery from Tampico.
The remains of the lamented Morris were exhumed on board the Raritan, and would be conveyed to Pensacola as soon as the fight at Tam pico is over.

The New Orleans papers of the 18th have only been received. There are still two mails due.

NAVAL EXPENSES.—It is supposed that the entire expense of the Navy in the Gulf and in the pacific, and on other stations, will not exceed Ten Millions, and the war expenses, although heavy, will fall many millions below the general estimate. The financial statements in the President's Message will probably create aurprise, when the distant war and severe battles are taken into consideration.

Javne's Tonic Vermi fuge not only destroys worms, but carries off the mucus in which they are imbedded, and effects a radical and permanent cure. Every mother knows the prominent symptoms of worms, such as voracity, leanness, fetid breath, grinding of the teeth during sleep, paleness of the lips, itching of the nose, &c., but there is other indi cia not so generally recognized. A dry cough, dull eyes enlargement of the abdomen, and many other symptoms common to other diseases, frequently denote the presence of worms. If their existence is even suspected, the Vermifuge should be administered, because it can do no harm in any case, and may do incalculable good.
