SERIOUS ACCIDENT .- On Wednesday of week before last, a company of ten persons, fre ladies and five gentlemen, went from the vicinity of Lima, Lagrange co., Ia., to a ball at "Union Mills," in the same county. About fre o'clock in the morning they left for their homes, in a two horse lumber wagon, the team being driven by a young man of the company. They had proceeded about half a mile from the house, when two or three persons came up on horse-back, and made a rush to pass the loaded argon—the horsemen put spurs to their horset and the reinsman put whip to his, and when under full headway, the night being dark, the front wheels of the wagon struck a stump, and the passengers and the box of the wagon were thrown some thirty-five feet from the stomp against which the wheel first struck. One lady struck a tree distant 30 feet, and broke her neck, and died instantly. One man had his ribs broken, and was so seriously injured that he died the day following. Another of the company, a young lady, was so serious-ly injured that her life was despaired of when our informant left-a fourth one, a female, seriously, and five of the other six more or less injured .- Col water (Mich.) Sentinel.

THE DEEPEST LEAD YET .- Lieut. Bache, of the U. S. Surveying brig George Washingion, whose loss at sea has been so much deplored, succeeded, after repeated attempts, in ascertaining at one point the depth of the Gulf The length of the 'the line out was twelve hundred fathoms, or about one mile and a third. This is probably nearly three-fourths of a mile deeper than plummet ever sounded before. The soundings of Captain Scoresby, and all others, so far as we know, fall far short of this prodigious depth. Generally, the soundings for the coast survey extended to the edge of Gulf Stream, and the water as might be expected, always deepens where this Tremendous urrent rols along .- Sav. Rebublican.

HEM ORRHOIDS, OR PILES, is a disease produce ed by local irritation costiveness, purgative etimu lants, undue determination of blood to the hemorrhoids vessels by excessive riding or walking, or a congestive state of the liver, and peculiarity of the constitution itself. It is usually considered under three form, or varieties, as follows: Blind Piles, White Piles, and Bleeding Piles This disease is so common, and so very well known, that a description of its symptoms is not deemed neces-

sary.

The success that has followed the use of the Embro cation in the cure of this disease, has been truly astonishing. Physicians now advise their patients to try it, as the only Pile Medicine.

In addition to its being a positive remedy for the Piles, it never fails to cure that INTOLERABLE ITCHING,

Powsn at Last—A Sunz Cour for the Piles!

—Physicians and Chemists have long been anxious to discover a medicine thay would cure one of the most troublesome diseases, the Piles. Success has at last been the result. Dr./JACKSON'S PILE EMBROCATION not only stops all bleeding, allays pain and inflamation, subdues that into lerable itching, but effectually cures, like a charm and in a very shot time, persons whose lives have been rendered miserable for years. New York, 721 Broadway, September 8, 1815. Dr. N. Jackson—Dear Sir: Will you send me six six bottles of your Pile Embrocation; I wish them part to keep myself, and part for a legal gentleman, a friend of mine, who has found great relief in using from my bottle two or three tires. You remember, when in Philadelphia, I was suffering dreadfully from this terrible scourge. I only took one bottle from you I have not used it quite all, and am now perfectly well. As you may suppose, I proclaim the virtues of your medicine wherever I go. I tell every friend about it; and it is singular to perceive how many are suffering in this way—I believe half of my acquaintances are more or less afflicted. Let me tell you that you can sell here as fast you choose to make. The application of the oil produces no pain, but on the contrary an agreeable and pleasant sensation. The recipe for this medicine has been outsined from an Aurist of great reputation, who has found that deafness, in nineteen cases out of twenty, was produced from a want of action in the newsee of having or a draying in the agree, this object nerves of hearing, or a dryness in the sears; his object therefore was to find something which would create a healthy condition in those parts. After a long series of experiments his efforts were at last crowned with success, in the discovery of this preparation, which has re-ceived the name of SCARPA'S COMPOUND ACOUS-TIC OIL.
