FOR the cure of DEAFNESS, pains, and the discharge of matter from the ears. Also all those dis charge of matter from the ears. Also all those disagreeable sounds, like the buzzing of ir sects, falling of
water, whizzing of steam, &c., &c., which are sympsoms of approaching duafness, and also generally attendant with the disease. Many persons who have been
deaf for ten, fitteen, and even twenty years, and were
obliged to use ear trumpets, have, after using one or two
bottles, thrown aside their trumpets, heing made perfectly well. Physicians and Surgeons highly recommend
its use.

The very great number of happy results that have fol-owed the use of SCARPA'S ACOUSTIC OIL, have

lowed the use of SCARPA'S ACOUSTIC OIL, have been truly astomshing. And what is wonderful, some who were deaf from birth, have been so much improved as to hear common conversation very readily.

It would be the height of presumption to warrant a cure in all cases, but in nine cases out of ten of recent date, there is a certainty that the results will be most happy and satisfatory to the patient. The application of the oil produces no pain, but on the contrary an agreeable and pleasant sensation. The recipe for this medicine has been outsined from an Aurist of great reputation, who has found that deafness, in nineteen cases out of twenty, was produced from a want of action in the of twenty, was produced from a want of action in the nerves of hearing, or a drypess in the cars; his object therefore was to find something which would create a beathy condition in those parts. After a long scries of experiments his efforts were at last crowned with success, in the discovery of this preparation, which has received the name of SCARPA'S COMPOUND A COUSTIC A long list of certificates might be given, but such is the confidence in the medicine, and so high has been its reputation, that but one of them will be at a received the multishad.

Dr. Wood's Sarsaparilla and Wild Unerry Ditters have already, by their substantial excellence, won a degree of public favor and patronage which puts them beyond the need of recommendation. Being faithfully prepared of the most excellent materials, they can be fully confided in by all in need of a tonic, aperient or alternative remedy.

This preparation will be found on trial to be a sure and speedy remedy for the diseases enumerated above. They purify the blood; secure regular digestion, promote a healty action of the Liver and Stomach, and strengthen the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once securing health and vigor to the nerves, at once the nerves, at once the nerves, at once the nerves of the nerves, at the nerves of the nerves, at once the nerves of the nerves, at the nerves of the nerves and in the nerves, at the nerves of the nerves and the nerves of the nerves, at the nerves of

The wide-spread faire of these splendid Periodicals readers it needless to say much in their praise. They embrace the views of the three great parties in England.—Whig, Tory; and Radical.—Blackwood? and the "London Quarterly" are Tory; the Edinburg Review."Whig: and the "Westminister," Radical.—The "Foreign Quarterly" is purely literary, being devoted principally to criticisms on foreign Continental Works.

The prices of the Re-private are less than one-third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader.
