DEMOCRATIC NOMINATIONS. POR GOVERNON,

#### FRANCIS R. SHUNK. TOR CANAL COMMISSIONER, MORRIS LONGSTRETH,

OF MONTSONERT COUNTY. COMMITTEES OF VIGILANCE.—AL meeting of the Democratic Standing Committee of Bradford county, convened in the borough of Towards, on the 6th day of August, 1847, pursu ant to notice, the persons hereafter named were ap-pointed Committees of Vigilance in their respective election districts, whose duty it will be to call a meeting of the Democratic electors in each of their several boroughs and townships, on Saturday, the 4th veral boroughs and townships, on Saturday, the sin of September next, for the purpose of electing two persons to represent said electors in the Democratic County Convention, to be held in the borough of Towarda, on Tuesday, the 7th day of September, 1847, for the purpose of nominating suitable persons for candidates to be supported at the coming general election: and for such other purposes as Convention may deem conducive to the progress of Democratic principles.
It is very desirable that full attendance be given

at the primary meetings, and to secure this, timely notice of the hour and respective places of holding the Delegate elections should be given, and the polls the Delegate elections should be given, and the polls kept open a sufficient length of time to give all an opportunity of voting. This will afford a free interchange of opinion amongst the Democratic citizens of each district, and enable the delegates sent to the County convention, to correctly represent the sentiments of their constituents. sentiments of their constituents.

The approaching election is one of vast importance to the interest, integrity and prosperity of our Commonwealth. The election of Governor, is of sufficient importance to call forth all the activity and deceitful artifices of the Federal party; and for the purpose of counteracting that activity, and detecting and exposing those deceptions, it becomes every Democrat to be on the alert—to assist in the refutation of falsehood and the advancement of trath.

The Standing Committee, therefore, recommend the appointment by the democratic citizens, at their several delegate elections, of one or more persons in each school district, as a committee, to continu till the general election, and whose duties will be to form a more perfect organization, and advance the great cause of democracy.

## Election of Delegates.

We desire to say a few words to our Democratic friends, in this county, on the subject of electing their delegates to the convention to frame a county ticket, and we do not know that we say it better than to adopt the sentiment and language of the Perry county Democrat, on the same subject.-"The time is fast approaching when the Democracy will be called upon in their several districts to elect delegates to represent them in County Cenvention, we say to them, attend to your delegate elections. These elections may be considered but trifling affairs by many of you-but be not deceived or deceive yourselves with such an idea.-Much, very much of the success of the democratic party is dependent on the choice of honest and competent delegates. When the convention is composed of men who know the will of the people, and will go into the convention with the single purpose of carrying out that will, by placing in nomination, such only as are known to be acceptable to the people, a moral weight and influence is atfached to their proceedings that almost certainly ensures success. A ticket will there be formed by the selection of honest, competent, and faithful men. whom the Democracy delight to honor, and who will be seen to receive the united vote of the party. We hope then our democratic brethern will see the propriety of attending the delegate elections, and choose such men as they know will carry the will of the people into the convention, and return to STREETER Esq. of Montrose for Senator. their districts with a ticket that will meet the approbation of the people, as did the delegates to the Democratic State Convention last March, when they presented the name of Francis R. Shunk as the Democratic candidate-it meets the approbation of the people-because they know him to be honest and capable. And so it is in the formation of a county ticket, let the convention but nominate honest and capable men, and our word for it, the ticket will meet the approbation and support of the party-and bring to the polls hundreds who would otherwise remain at home.

Another thing-sectional jealousies are some times gotten up, this in our humble opinion is a great error in the formation of a ticket. We never could see any good reason why an honest, capable and worthy man should be excluded from the ticket, because he perchance does not reside in this or that part of the county. It is true we like to see the candidates distributed as much as possible over the body of the county, but to establish a rule that a particular officer must or must not come from one or another part or particular district, is suicidal to the party and often times deprive the party of the services of honest, capable and worthy men.

The party is always most prosperous when ther can look upon their ticket and say, these are all good and capable men—and success is certain to be the reward of the deliberations of the county

We hope our democratic friends will concur with us in sentiment, and at the time appointed all attend the democratic delegate elections, and elect honest men as the surest guarantee of a good ticket. Hell New York under Col. Stevenson.

The stat of justice for the new county of Sullivan has been fixed upon by the Commissioners appoint ed for that purpose. It is located at the geographical centre of the county, upon the lands of S. May-LERY, Esq. In making the selection of this scile, the best interests of the people of the county have cvidently been constitted. Where it can be done in the original location of a county seal, it should always be placed at the centre, because when once located, it cannot be changed, without injury to those who have expended their money upon the expectation of being near the county seat. No person can complain that he is not fairly dealt with because all are placed upon the same footing. The Commissioners in this instance, Hon. R. WILEE. T. W. LLOYD, and T. H. Willson, Esqs., are all mer of good sound judgment. After viewing some dozen different scites they finally agreed unanimous ly upon that established by their report.

Mr. Meylert has generously agreed to give land for the public buildings, and to contribute two thousand five hundred dollars towards their erection besides expending large sums in opening and improving the roads leading to the new county seat The work of clearing and opening roads will com mence immediately; buildings for county purposes to be used temporarily, will be erected; and with in one year we shall expect to see the wilderness "bud and blossom as the rose."

IMPORTANT DISCOVERY-Too LATE .- Our reader will recollect that Gen. Wm. F. Packer of Lycoming co. was a candidate for Representative last fall ir the district composed of Lycoming, Clinton and Potter counties, and beaten by his whig competitor 12 vote. It has recently been discovered that a mistake was made in Porter township, Clinton co., in making up the official returns, of twenty votes, against Gen. Packer, which makes the actual majority in the district, eight in his favor, instead of twelve against him. On examination of the returns of Porter township, as, filed in the Prothonotarys Office, it appears that the number of votes given to William F. Packer is stated in writing to be sixty-nine but carried out in figures 49, and it seems the return judges, went upon the principle that "figures cant lie," and so paid no attention to the words "written out at length." Of course, in all subsequent addings up the vote of Porter township was put down at 49-instead of the true number 69-and the majority appearing in favor of the whig candidate, he received his certificate of election, took his seat in the legislature and held it without opposition or enquiry during the entire

We refer our Federal cotemporary to the record of the late State Treasurer, in his annual Report on the finances of the State, page 6, as to the order of time in which the counties respectively paid their quota of state tax: and he will there find Democratc Bradford first on the list, and he can also learn that, of the twenty-four counties "that distinguished themselves by the prompt payment in July, of the taxes of 1846" seventeen are Democratic, and only seven, "old Federal counties."

He expressed hope that every American now in Mexico. would be killed or die of disease; his detestation of war in general and of the Mexican war in particular, was such that he was fool enough to let out his falings on the subject to a party of Englishmen.-One of the persons present asked him if he proan American and entertained such

hatred to his own countryman?

He said yes. Then said his interrogator, if you have not decency enough to keep such thoughts to courself in the presence of strangers, and particular-y of people who belong to and hold alliance to ther country, you are neither worthy of the name of American, nor fit to associate with Englishmen From that time forth the animal was quiet, no one would have any communication with him. PROBABLE DISCOVERY OF THE HISTORY OF A FOR-MER RACE.—The Lower Sandusky (Ohio) Democratic states that, about two miles from that village, on land known as the "Kerr tract," there is an ancient mound, circular at the base-about 39 feet in diameter, rising oval to a point which is surmounted by an oaken stump probably originally two feet in di-ameter, which is almost totally decayed from age. A few days since, some boys dug into the mound and nearly under the stump, at the depth of three feet, a skeleton was found, much decayed but portions of it in fair degree of preservation. Near the head were found two stone hatchets, an arrow head, a stone pipe, and-far more singular-a lot of plates, apparently isinglass, which are covered with lines and hieroglyphics of different and beauti ful colors. The colors and workmanship betoker a more advanced and entirely different state of the arts than has been heretofore discovered in the remains of Indian tribes. Some of the plates were destroyed, but there are fifteen preseved. They are circular, oval in shape, and about seven inches by

ten in size. A pipe-bowl beautifully finished from stone was also found, the bowl of which is nearly round, rises from a base, on the bottom of which are the figures "1461." Measures have been taken under the supervision of some intelligent citizens, farther to explore the singular mound. There is little doubt that these plates contain the history of some former race that has inhabeted this country, and farther discoveries will be awaited with impatience.

FOR FEVER AND AGUE.-That the afflicted may judge of the accuracy of our statements respecting the value of Wright's Indian Vegetable pills in Fever and ague, we give the following testimonial from a highly respectable and well known citizen of Indiana. Read it.

Russellville, Putman co., Indiana, July 17, 1847. Dr Wright-Some time since your agent left me a supply of your Indian Vegetable pills. I have found said Pills to be in great demand lately for the cure of fever and ague. Mr. James Boyd has a son who had been laid up with fever and ague and had trved various other remedies, all of which proved of no avail. He used one box, and is now sound and well. Mr. T. Spencer had a daughter, Mr. Hugh Groves son, and Mr. C. Nichols, and three of his family, were all down at the same time with fever and ague, and had also tried the various other remedies rithout effect. Your Indian vegetable Pills soon restored them all to perfect health.

I can assure you, from what I have seen, your indian Vegetable pills may be relied on for a parfect cure of Fever and Ague Yours, respectfuly, JACOB DURHAM, P. M.

Also an Acting Justice of the Peace. BEWARE OF SUBAR COATED COUNTERPRITE.-The only original and genuine Indian Vegetable Pills have the signature of William Wright written with pen on the top label of each box. None ornen is
