RULES FOR MILKING.-A writer in the Maine Farmer gives the following rules for Milking cows:-Having milked, more or less, every season since I was a "wee bit" of a boy, and having seen it done so poorly as to injure the cow, I purpose to give a few rules for it, which I have learned from my own and others' experience. They are

as follows: 1. Have a good stool to sit on.

trasses.

2. Have all your finger nails paired short and 3. Sit down and clean the bag, and wet the teats

with the first stream of milk 4. Then sit the pail under, and milk as fast as you can conveniently—the faster the better. A cow will give more milk when milked fast than when

5. Milk as though the teats were full to the last, otherwise it makes them long to "strip" in a little

6. Never scold or strike a cow for running about the yard or kicking. It generally does more harm than good.

7. If she runs about, have patience—talk kindly to her-and tie her up, as a last resort, till she is

8. If she kicks, sit forward far enough for your knee to come forward of her leg, and she cannot easily hurt you or spill the milk.

9. If she switches, you with her tail, in "fly time," fasten it by parting the hair and tying it round her leg. Use a string, if the hair is not long

If she holds up her milk, butt with your hands .-What else does a calf butt for but to make the mother give the milk down! "

TOMATOES FOR COWS.—It is not generally known that this vegetable is a superior article of food for milch cows. We have tried it two summers, and have yet tried. They add greatly to the quality, as to the richness of the milk, and give a rich golden color to the cream and butler, which is at least pleasant to the eye, even if the flavor is not improved. We do not know, however, that they impart any richer flavor to the butter.

We have known a cow refuse; them when first offered, but soon became very fond of them; others, we believe a large majority, eat them greedily from the first. Thus far we have fed them only in the raw state, but if boiled with com meal, say half and half, or two-thirds tomatoes, they will doubtless be far better.

To one who has a dairy farm, the cultivation of an acre or two in tomatoes, would be repaid by a greater profit than any vegetable we know. From an acre not less than eight bushels might be gathered daily, from July until frost. There is some trouble in picking them, but then nearly every farmer has children; his little boys-aye, and big boys too; would not be the worse of a little work We should be glad to see the experiment tried on a larger scale than ours, and to learn the result .-S. C. Temperance Advocate.

THE NETTLE.—The nettle is generally considered by farmers and gardeners as a uscless and troublesome weed: but it needs little argument to prove that the most common gifts of Providence are the most useful to mankind. The common stinging nettle is one of the best medicines which is in the vegetable kingdom, and its medicinal qualities ought to be more generally known and appreciated. In the form of a simple weak infusion, taken in the quantity of a pint a day, it acts as an alterative and deobstruent in impurities of the blood. A strong deeoction taken in the same quantity prove an admirable strengthener in general or partial relaxation.-Applied as a fomentation or poultice, it, relieves swellings and abates inflammations, and the expressed juice, taken in spoonfuls as the evigency of the case may require in internal bleedings, is the most powerful styptic known. We may add that its leaves, when boiled, are converted into a tender. healthy, and nourishing aliment, grateful to the palate. And yet there are few plants whose appearance is viewed by the farmer with more diagnit then the stinging nettle.

THE STEAMSHIP GREAT BRITAIN .- After a previons, but partially unsuccessful experiment, the preparotory operations being completed, on Thursday, the 29th nit, a second attempt was made to raise this mighty vessel. At nine o'clock the ship began to move. At ten she was up two feet, and the tide had risen to twelve feet.

We have since received a statement that the vessel was sufficiently mised to leave the keel yourpletely visible, and that workmen were busils engaged in repairing the bottom, the vessel being suspended in the air by means of the lever, the wedge, the screw, and the large boxes of sands.
Great hopes are entertained that she will be immediately got off.

In the class of linease called chironic, the Graefenberg Pills achieve their highest triumphs. Here they defy all competition. By neering within the hidden recesses of the system, they quietly but surely purify the blood, root out-disease, and give tone and vigor to the body. Cures are constantly effected by these Pitls, in cases where every other means hall completely failed. The most abundant proof of this could be given, but a trial of one box will convince the patient. They can be ordered and sent by mail, at triding expesse. The price is 25 cents a box. Where two dellars worth are price coll and the money remitted, the Company will pay the ed, and the money remitted, the Company will pay the postage on the pills. INFLAMMATORY DISEASES. -Although the Electuary was originally prepared for the cure of Piles, yet it has proved itself to be a medicine far superior to all others, in all diseases of an inflammatory character, with a determination of blood to any particular part or organ. In Inflammation and Congestions of the Liver and Spicen; Inflammation, Soreness and Ulceration of the Stomache, Bowels, Kidneys and Bladder : Inflammatory and Mercurial Rheumatism, it is the best medicine ever discovered.

IMPURITIES OF THE RUGOD For all Impurities of the Blood, arising from thei mprudent use of Mercury, or other causes; for all'diseases of the skin and scrafulous affections : in all cases where the blood is powerfully determined to the head. producing dizziness and distress, Dr. Upham's Electuary is entirely unrivalled.

TO MARRIED LADIES.

Married ladies are almost invariably subject to that painful and injurious disease, the Piles, with consequent nflaumation of the Stomach, Bowels, and Spine, weakness of the Back, flow of the blood to the head, &c .--The Electuary is perfectly safe for pregnant ladies and the most useful Cathartic that can possibly be used, and it will not only remove the Piles and all inflammafory iseasca without pain or irritation, but will ensure an easy time, a safe delivery, and a sound constitution in the offenring.

CAPT. G. W. McLEAN'S CERTIFICATE.

RARWAY, June 18, 1847. I have been afflicted for years with the Piles, and have tried, without anything like permanent benefit, almost everything assuming the NANK of a remedy. I had, as a matter of course lost all confidence in medicine. Under this feeling, I was induced--not without reluctance, I confess—to use "UPRAM'S ESECTUARY," and having used it for about three weeks according to the directions laid down, I find, to my utter surprise as well as satisfaction, that every symptom of the disease has left me. I think it due alike to Dr. Upham and myself to make this statement

G. W. NcLEAN, late of the U. S. N. PAILADELHPIA CERTIFICATE.

DR. UPHAM—DEAR SIR—About five years ago I was afflicted with what was called Chronic Dysenlery. I have suffered with it ever since, and physicians have told me that my liver was affected, and that my bowels were ulcerated, for blood and pus, attended with a pewere dicerated, low often and pus, assenced with a po-coliarly putrid smell, were the frequent discharges. A short time since I made a visite to Massachusetts, in hopes of benefit from a change of air, but suffered more severely than ever before. While there a physician of-fered to cure me for \$40, in three months. Happily, in the midst of intense pain, occasionally relieved by laudanum, I saw in the wrapper of your Electuary, a perfect description of my complaint, together with many certifidescription of my complaint, together with many certin-cates of curies. This gave me great confidence in the medicine, and I purchased a box, and nine doses of which has apparently cored me, and I am prepared to say every thing in its favor, of repuler any service I can

to humanity by subscribing to its merits.
Respectfully Yours,

JESSE TAYLOR. Towanda, Jan. 20, 1847. NATURE'S OWN REMEDY! THE INVALID BEST FRIEND! It is confidently assetted that there NEVER was a medicine which has given such uni-

form and universal satisfaction, as WRIGHT'S INDIAN VEGETABLE PILLS. They have stood the severest trials, by curing when all other remedies failed, and have established a reputtion in the face of the envious slanders which have been

raised against them, SPRING, SUMMER, PALL AND WINTER. Each produce, by their variations of temperature, per-liar effects upon the human body. The heat expands and the cold contracts it e volume of the circulating foid, and when changes take place suddenly, the effective are often serious. Wright's Indian Vegetable Pills cou teract the evil influence of audden changes, by purityin the blood, and keeping the stomach and bowels in a nate ral and healthful condition.

FOR FEVER AND AGUE.

That scourge of the West. Wright's Indian Vegetable Pills stand unrivalled. An instance has never come to our knowledge of these Pills having been taken, without effecting a complete cure. In Chills and Fever the brei and billary functions are chiefly disordered, superinduced by great physical debility. When the symptom first appear, no time should be lost before resorting to these Pills. A few doses will give such manifest relief that no persuasion will be necessary to continue the us

FOR DYSPEPSIA. Wright's Indian Vegetable Pills will be found terr superior. In this disease, the gastric juice is weat and deficient in quality. Consequently, the digestion is in-perfect and the health impaired. These Pills remove the bile from the stomach, restore its tone, and improve FOR JAUNDICE.

Wright's Indian Vegetable Pills are equally well adapt ed to the removal of this complaint. As they operate upon the one general and uniform principle, of cleaning the stomach and bowels, purifying the blood, and dice, and of all other disorders.

GREAT FEMALE MEDICINE! It would be difficult precisely to tell to which of the two sexes Wright's Indian Vegetable Pills have bee

the greatest blessing. But it is very certain that those Pills have given health, and spirits, and a good complesion, to hundreds of females, who would without them. have been in their graves. A box of Wrights loom

A few doses of Weight's Indian Vegetable Pills taken on going to bed will be certain to give relief, if the that e at all possible.
VALUABLE ANTI-BILIOUS MEDICINE The sensations accompanying liver complaint are of the most wretched description. Habitual drunkenness is frequently brought on by liver complaint. A paint suffering from this disease, should not be mocked and pretended cures; yet there are very medicines that are worth a straw in the removal of this complaint. Calo-mel has hi herto been the chief reliance, but the remedy has proved itself worse than the disease! What then shall be done? We say, give Wright's Indian Vegetable Pills a trial. If they do not exceed your expectations, we are willing to bear all the opproximated
