### The Election,

We have returns at the sine of going to prose. 2 o'clock P. M., from nearly lost the definition the county, but not in time to give the figures. All the strong holds of Federalism are heard from, and thus far Gov Shunk is about 100 ahead of his vote in the samedownships in 1944. Of course we dannot give the exact vote, but the returns received ; demonstrate with tolerable certainty an increased majority for Shunk, and the election of the whole Democratic tucket.

The Democracy of Figliord have done their whole duty in combatting the assaults of all factions and fragments of Parties waited to' deteat them --Smithfield has doubled her majority, in the very poor Yorick. Federal Littleness.

The Sun of Anahuac has a letter stating that a revolt had taken place at Puebla, and that the Ame-ricans at that place and the city of Mexico had lost 2000 men. It also states that the propositions made by Mr. Trist were rejected, or at least one portion of them, and that hostilities had recommenced on the 8th, in the afternoon, and that a battle had been fought on that evening by a few hundred men from Gen. Scott's army and four of the picked regiments of the Mexican army, viz -the 11th regiment of the line, the 3d and 4th regiments of light infantry, and one regiment of the National Guards, all commanded by Gen. Leon-that the enemy's forces

had been badly used up, and that their loss exceeded 2500. Trist's propositions were in substance that the citizens of the U.S. would not claim from Mexico

epted. Then Trist, unclothing himself of his official pow er, remarked that Mexico had better cede in full, Upper California to the United States for 15 or 20.

This probably would have been agreed to if the Mexicans had assented that the Texan boundary should be on the line of the Rio Grande from the left side to the right side of the Rio Gila.

This proposition was rejected. The Mexicans would not yield one inch of ground beyond the Vueces. Trist then asked 48 days to consider, saying that

he was not authorized to yield to any such propo-sitions. The Mexicans offered to give five days out no more. On the fifth day of the conference, Santa Anna

I forgot to mention, in speaking of the fights, that it is reported that the gallant Worth was serious ly wounded. U. S. NAVY-YARD, PENSACOLA,

Friday, Sept. 24, 1847. A merchant brig arrived here at an early hour this morning, 54 days from Vera Cruz, with despatches for the War and Navy Departments, of the atmost importance. The news brouht by this arival has cast a gloom over the countenance of our

whole community, because of its untavorable enor. The captain informs us that he was harried off so unexpectedly, and with such despatch, that he

was unable to gather the full particulars in detail .-The sum and substance of the news is this :-Mr. Trist proposed that no 'urther indemnity o

our cuzens should be demanded from the Mexican government. Agreed to, Our citizens should be allowed the privilege of establishing two factories in California for a given period. Agreed to, That the Rio Grande should be the line. 'Not agreed to.

But the Mexican commissioners, proposed the Seuces, to which Mr. Trist replied that he had no authority for making that line, and required 45 days to hear from his government upon the subject; but only 5 days were allowed him. By way of a concluding proposition, Mr. Trist proposed the amnexation of New California, for which the government of the United States was willing to pay some fifteen or more millions of dollars-not agreed to. The next followed a letter from Santa Anna to Gen.

tic to which Scott replied, accusing him of the same thing. Of course hostilities recommenced ; and on the 9th instant a portion of Worth's division met a large Mexican force at a little place near the city, and give them " beans," his cwn loss comparative-

ly triffing, while that of the Mexicans was very great. On the 10th there were other engagements, our forces proving victorious in every struggle. On the 11th, which is the latest accounts ye Hay Anna
