WISTAR'S BALSAM OF WILD CHERRY. the great remedy for

A mil the best medicine known to man for Author of every kind Liver Complaints, Bronchitis, Coughs, Colds, Bleeding of the

Lungs, Influenza, Shortness of Breath, pains and weakness in the side, breast, &c., and all other diseases of the PULMONARY ORGANS. A very important disease, over which this "Balsam" exerts

a very powerful influence, is that of a Diseased Liver.

In this complaint it has undoubtedly proved more efficacion than any remedy bitherto employed, and in numerous instances when patients had endured long and severe suffering from the disease, without receiving the least benefit from various reme dies, and when MERCURY has been resorted to in vain, the use of Balsam has restored the LIVER to a healthy action, an in many instances effected permanent cures, after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above men tioned, we also find it a very effectual remedy in ASTHMA, complaint in which it has been extensively used with decided astrocas, even in cases of years' standing.

It not only emenates from a regular physician, but has also een well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it, it nystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter my self that its surprising efficacy will enable me to furnish such proofs of its vir. tues, as will satisfy the most incredulous, that Consumption may and "CAN BE CURED," if this medicine, be resorted to

The genuine signed I. BUTTS on the wrapper; Sold by A. S. CHAMBERLIN, Towarda.

WE PRESUME IT IS NOT GENERALLY KNOWN how much more pains is taken with the preparation of what are called "Patent" medicines, than is bestowed on the pre criptions of physicians. With the latter, it is positively shock ing to witness the recklessness which is often exhibited. A few words of Latin are hastily written on paper and put into the hands of an apothecary's apprentice. He may understand what is written, or he may not, and yet with the poisons that he compounds, a single mistake either in the writing or the compounding, is fatal to the patient. Besides this, take into account the wretched quality of most of the drugs that are sold There is hardly a genuine article to be had; all are adulterated to a greater or less extent.

On the other hand, a "patent" medicine has a reputation sustain, which is the very life of it. It is for the interest of the manufacturer that his materials shall be selected, and the me dicine compounded, in the best possible manner. Though we do not speak for all-for there is good and bad everywherevet we can safely assert, that the average of "patent" medi enes is far superior to the ordinary prescriptions.

In making these remarks, we design to show that not only Bre Wright's Indian Vegetable Pills superior to any prescrip tion which is puflingether for ordinary use as a family medi cine, but that no druggist or other person, is interested to make as good an article. Their drugs, as we before said, are adulterajed to an enormous extent, and when they imitate, or at tempt to un tate, a standard preparation, they but stab then triends and customers in the dark, by selling an article which. from the very necessity of the case, must be a fraud in kind and destitute of character as to quality.

E have observed very patiently for a year past the VV fevered attempt by some of our fraternity, to force a reputation which their professional skill alone must fail to give them. And we would continue our silent observation, under the consciousness of an unbolstered merit, were it not more than probable that this species of fanfaronade may divert the public eye from a candid-examination into the merits of the multitude of professors of the Darguerrean art.

We would see merit seek an honorable publicity, and thereby win for itself golden opinions; but we despise that miserable chicanery by which mere pretence gains an ovation over genuine worth. It is to make this vault ing ambition overleap itself or withdraw its spurious claims, that we now trespass on its fancied security, by throwing the glove for an honorable test of skill.
