

Bradford Reporter. E. O. GOODRICH, EDITOR.

Towanda, Wednesday, July 12, 1848.

DEMOCRATIC NOMINATIONS. FOR PRESIDENT, Gen. LEWIS CASS, of Michigan.

FOR VICE-PRESIDENT, Gen. W. O. BUTLER, of Kentucky.

FOR CANAL COMMISSIONER, ISRAEL PAINTER, of WESTMORELAND COUNTY.

We are requested to state that a meeting of the Standing Committee for Bradford County, will be held at Messers' House, in this Borough, on Saturday, 22d day of July next, at 4 o'clock P. M.

The Bright Compromise. A proposition has been introduced into the Senate of the United States, to extend the Missouri Compromise line to the Pacific coast.

The Missouri Compromise line to the Pacific coast. We append the remarks of the editor of the Montrose Democrat, as expressing our views exactly. Another new movement for the purpose of aiding the propagandists in their darling schemes of extending the "peculiar institution" over the whole of the territory this Government has recently acquired from Mexico, and of swindling the free States of their principles and their just rights, has been made in the Senate, by Mr. Bright, of Indiana.

Mr. Van Buren's Acceptance.—The following is the announcement by the Albany Atlas of Mr. Van Buren's so called acceptance of the "Cass nomination."

"The Utica Convention nominated Mr. Van Buren as a candidate for the President, contrary to his known wishes, upon the principle that the people whom they represented had a right to make this use of his name; and did not direct the usual notice of his name to be given to him. No communication is, therefore, to be expected from him.

FROM THE SUBLIME TO THE RIDICULOUS.—Father Ritchie, using fifteen or twenty columns of the Organ in endeavoring to controvert the principles maintained by Mr. Van Buren's letter.

HOLDEN'S DOLLAR MAGAZINE.—We take pleasure in recommending to our readers this cheap and beautiful work. It is worthy of patronage, and is furnished at the unusually low price of one dollar a year.

GENERAL DOUGLASS declines the nomination of the Utica Convention, by a card published in the Union. He says the vote of his State in the Convention was given for Cass, and the nomination shall receive his support.

The Native American Candidate. The Philadelphia Sun, the organ of Nationalists, has the following remarks in substantiation of its claims to Gen. Taylor as the Native American candidate.

THE NATIVE AMERICANS WERE THE FIRST TO RESPOND AS A PARTY, to the popular demonstration in favor of Gen. Taylor, and formally recommended him as their candidate for President. This they did freely and frankly.

Communication. (For the Bradford Reporter.) Mr. Editor.—As political subjects again engage the attention of all, I shall take the liberty through the columns of your paper to give my opinion upon a subject which is deeply interesting to every lover of his country.

Oh, the beauties of whiggery!—West Chester Republican. OVA VOLUNTEERS.—More than a year ago, we bade farewell to an brave a body of men, who left our Borough for the seat of war, as ever struck a blow in defence of their country's rights.

OUTRAGE UPON A SHERIFF IN RENSSELAER COUNTY, N. Y.—The deputy Sheriff of Rensselaer County, went to East Sand Lake, on the 28th ult., for the purpose of serving declarations on some two or three individuals who had neglected to pay a promised note in the bank.

THE HIGHEST AND BROADEST SOUTHERN GROUND.—A writer in the Charleston (S. C.) News, in an article urging the South to support General Taylor, on strictly southern grounds, says:

MELANCHOLY CASE OF SUICIDE.—Intelligence has reached Boston from Nahant, that Nathaniel P. Russell, Esq., a highly esteemed citizen of Boston, at eight o'clock, on the 10th inst., was drowned.

THE NEW LOAN.—\$25,000 of the sixteen million U. S. Loan was sold yesterday in this city at 105, being 5 per cent advance on its par value.

THE NATIVES DEPRECIATED.—As we predicted, and as was natural to expect, the manner in which the Taylor nomination was received recently held in this city, has been a decided disappointment to the "good feeling" friends of the Whigs.

REMARKABLE ADVENTURE WITH A BEAR.—It was one day during the present week that two boys, sons of Seth Manes, of Bradford township, in this county, one perhaps fifteen and the other not over eight or ten years of age, discovered a very large bear in the woods near the house of the latter.

ROBBERY OF LETTERS.—A young man in the employ of the publishers of the N. E. Patriot, was arrested on Saturday last by the N. S. Marshal, in Boston, charged with having purloined several letters coming to the publishers by mail, and containing remittances of money, quite a number of such letters having been missed within the last two months.

MURDER IN SCHUYLKILL COUNTY.—We learn from the Schuylkill Patriot that on Sunday last a most disgraceful fight occurred at the Phoenix, on Monday, one and a half miles beyond Minersville, which resulted in the murder of one man, and the injury of another to such an extent that his life is considered in danger.

BOLD ATTEMPT TO ROB THE TAUNTON (MASS.) BANK.—We learn from the Taunton Daily Gazette, that two young men named John and Francis Leonard, broke into the vault of the Taunton Bank, which had entered a coal shed adjoining the Bank, through the strong brick wall of the building about three feet, and made some advancement upon the vault, which was built of granite about a foot thick, and well secured with iron bolts.

REWARD OF COUNTERFEITS.—The public are cautioned against purchasing spurious Pacific Balm, as I understand that peddlars are circulating a medicine which has been called Sovereign Balm, and which they represent to be the genuine Dr. F. C. Pickers' Balm, and which public will therefore be on their guard, as there is no other authorized agent in this county, for the sale of Doct. Louis Parvelli's Pacific Balm.

Dr. Smith's Sugar Coated Pills.—Dr. Smith's Respected Family—the supply of the Sugar Coated Pills is getting low—only one box and part of another I suppose, and I look for a few days more, that I have a full dozen more, but do not find any. They continue to sell well, and give great satisfaction.

THE AGE OF INFANTRY.—One of the most important discoveries of the age, in ameliorating the condition of this large class of suffering humanity, consumptive, is Dr. Wistar's Balsam of Wild Cherry. What time establishes and corroborates, what experience adopts and affirms, what all men in all places unite in saying is saying so, is the proof of its truth.

THE PROVISION OF FREEDOM.—A resolution in favor of the Proviso of Freedom, declaring that slavery was never to be introduced into our free territory, was introduced into the table by the Whig National Convention at Philadelphia. And yet the Whig politicians at the North, who have had so much to say in favor of the Proviso, and who now acknowledge that it is one of the most important issues involved in this Presidential contest, quietly submit to this decision against them—this southern dictation—and take up with a "residential candidate" who is not known to be in favor of a single principle of the whig party.

THE FREEDERICK EXAMINER SAYS.—The harvest is progressing rapidly and before our next issue it will be finished. The crop is good in quantity and quality. Some of the grain fields in this County present perhaps an appearance of perfection never before witnessed. The appellation of "Golden Wheat" is truly applicable to them.

THE CORN CROPS FROM THE WEST THIS YEAR WILL BE IMMENSE.—enough to feed two or three nations.—The gold mines of Mexico may be very convenient, but the world could do without them much rather than it could dispense with our golden hills of corn.

GEN. PILLOW.—We learn from Washington that the Court of Inquiry has completely exonerated Gen. Pillow of all the charges brought against him.

THE NEW CODE OF LAWS IN NEW YORK.—On Monday the new code of practice in the law, went into operation in New York. The Herald says its leading features are: the abolition of all forms of action, the old system of special pleading, and the distinction between law and equity suits.

ADVICE OF THE TRIBUNE.—The editor of the New York Tribune is still in a fog as to the peculiar state of things in the political world, though it looks now as if he were likely soon to come to a conclusion. "We shall not probably act with them, and have therefore little right to advise them—but it now seems to us that those Whigs who are determined to break with their party on the late nomination for President at Philadelphia, may better vote for Mr. Van Buren than get up another candidate.

MOVING EACH OTHER.—A couple of colored men while moving near Schuylkill, on Thursday last, got into a quarrel about the fair sex. To settle the matter they went to fighting with their scythes.—The first availed to cut nearly severed each other's legs off. One of them is not expected to survive.

REWARD OF COUNTERFEITS.—The public are cautioned against purchasing spurious Pacific Balm, as I understand that peddlars are circulating a medicine which has been called Sovereign Balm, and which they represent to be the genuine Dr. F. C. Pickers' Balm, and which public will therefore be on their guard, as there is no other authorized agent in this county, for the sale of Doct. Louis Parvelli's Pacific Balm.

Clicker's Vegetable Purgative Pills. ARE the first and only medicine ever discovered that will positively cure Headache, Giddiness, Piles, Dyspepsia, Scarcity, Swallowing, Jaundice, Fevers in the Back, Inward Wind, Constipation of the Heart, Rheumatism, Dropsy, Asthma, Fevers of all kinds in the Throat, Dropsy, Asthma, Fevers of all kinds, Female Cholera, Measles, Sial Rheum, Heart Burn, Worms, Cholera, Morbus, Coughs, Quinsy, Whooping Cough, Consumption, Pits, Liver Complaints, Erysipelas, Deafness, Itchings of the Skin, Cold, Nervous Complaints, and a variety of other Diseases arising from impurities of the Blood.

It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an aversion to medicine, that unless the case is urgent, they prefer the disease to cure, until an impaired Constitution or a fit of sickness reduces them to helplessness, and then they are obliged to take medicine, for the sake of the cure. Still they have some excuse, for the medicine in almost all its forms, was nearly as disgusting as it is beneficial. Now, however, the evil is most effectually removed; for Clicker's Vegetable Purgative Pills, being completely enveloped with a coating of pure white sugar, (which is distinct from the kernel) have no taste of medicine, and are easily swallowed by sickly children. Moreover, they do not manifest the gripes in the slightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region, (which is the great and admitted evil of all other purgatives.) Hence, they strike at the root of Disease, remove its impure humors from the blood, open the pores externally and internally, promote the insensible perspiration, obviate flatulency, Headache, &c.—separate all foreign and obnoxious particles from chyle, so that the blood, of which it is the origin, may be thoroughly pure—secure a free and healthy action to the Heart, Lungs and Liver, and thereby restore health even when all other means have failed.

For sale in Towanda, by CHAMBERLIN & PORTER, No. 1, Brick Row. N. R. Remicker, Dr. C. V. Clicker is the inventor of Sugar Coated Pills, and that nothing of the sort was ever heard of, until he introduced them in June, 1843. Purchasers should therefore ask for Clicker's Sugar Coated Pills, and take no other, or they will be the victims of a fraud. 57
