Agricultural.

Work for July.

It would be a source of undissembled gratification to us, could we, in this our monthly talk, feel ourselves justified, in giving to our agricultural friends the assurance that good prices await them—that the surplus products of his farm will find willing purchasers and remunerating rates. But surrounded as we are at home with present falling markets, a prospective, offering little, if any, improvement—and a state of things abroad so startling, so changeable, and so uncertain as to the future, we do not feel ourselves at liberty even to *guess* what may be the result of events now transpiring. Should a general war grow out of the present convulsions in Europe, American ships may become the carriers of the transatlantic world, and American Agriculturists, the suppliers of breadstuffs and provisions for the armies of the contending powers. These matters, however, lie enveloped in the future, and are covered by a veil impenetrable to the keenest sight; so that no deductions are to be drawn from the aspect of affairs, as presented to view. A few weeks or months may nevertheless furnish data from which opinions may be based,—until these shall have been developed, it is the part, perhaps, of wisdom not to venture upon speculations, at best, are among the last things to be relied upon.

With these remarks we shall note a few of the numerous things that claim attention on the Farm.

CULTIVATION OF THE CORN CROPS.—It is altogether unnecessary to prescribe the mode by which the corn is to be cultivated, it being sufficient to say that the main object should be, to kept it entirely free from grass and weeds of all kinds. This grain is one of generous habitudes, and never fails, when properly treated, to reward the culturist liberally: but it is one that requires to be well fed with nutritive and mineral manures, or to be grown in soil of great natural fertility, and to be kept clean from the time of planting until it shall be laid by, as it not only requires ample nourishment, but to be unencumbered with other plants. Indeed, he who expects to grow a large crop should make up his mind at the onset of his labors, to do it justice in the broadest sense, to render it full and entire justice, as it is only through such means, that he can reasonably calculate on seeing his anticipations realized, as the corn plant is one which is exacting in its demands, and will not, when neglected, yield in the fulness of its measure.

HARVESTING.—In many parts of the wheat growing regions of our far-reaching country, the harvest has not only begun, but is over—still there are many degress of latitude in which this important branch of rural labors has yet to be commenced.—All we can say upon the subject, is that all who have their grain yet to cradle, should provide themselves with good tools, good implements, and abundant force to do their work quickly and well—that no effort should be left unessayed to protect the grain, when cut, from casualities of weather—and that their hands, while engaged at harvesting, should be well supplied with every necessary comfort of the innerman, in order that they may go forth, each morning, to their toils, with unimpaired strength, well *nerved* arms, and the moral resolution of doing a frightful day's work. To ensure these auspicious results, nothing is more conducive than kindly treatment and good fare. And whilst substantial food is being prepared, let it not be overlooked, that the hands while in the field, engaged in their arduous employment, require to be supplied with some refreshing beverage—and that where ardent spirits are prohibited, a very excellent substiute may be found in *Cool-water*, *Molasses* and *Ginger*, well mixed together, in the proportion of 5 gallons of water ½ gallon of molasses, and 5 ounces of pulverized ginger. A drink, thus prepared, is at once healthful and invigorating without being in the least stimulating.

TIME OF CUTTING.—We are induced to believe that many suffer their wheat to get too ripe—too nearly approaching the condition of dead ripe—before they harvest it. Wheat to remain uncut thus long only loses much by the shattering of the grain while undergoing the process of being cut, but suffers also in the quality of the flour, as wheat cut at the right time—say at the period when the straw immediately under the head of the grain becomes dry, yields whiter and better flour than when cut dead ripe.

HAY HARVEST.—In cutting *Timothy*, we would advise that it cut before the stalks and heads begin to turn brown. We are aware that the analysis of timothy hay, cut at the period when first in bloom and when the seeds were ripe, showed several per centum of nutritive matter more in the former but notwithstanding such is the result of chemical anndysis, we prefer to cut timothy grass a few days after it comes *thoroughly* into bloom. When cut at that period the hay is less coarse and far more acceptable to horses—and besides, the soil is much less exhausted. We believe all hay, certainly clover, would be the better of being cured in *cocks*, after being wilted a few hours in the sun.

FALL POTATOES.—As we trust every one has, at least, four or six weeks ago, planted their fall potatoes, we will say nothing on that head, but we enjoin it upon all, to see that their potato patches are not over-run with weeds from the time of first working them until they are finally laid by.

TURNIPS.—We are advocate of thorough preparation of the soil in turnip culture, and therefore, advise you to spread one half the manure you intend to put on, and give the ground you design for turnips a deep ploughing, harrow and roll it, and let it lay until you are about to sow seed, then put on the other half of your manure, plough it in four inches deep, and harrow length-wise and crosswise, when your ground will be fit to receive the seed.

PREPARATION AND SOWING OF THE SEED.—Soak your seed in fish-oil for 12 hours, then drain off the oil, and mix a sufficiency of ashes with the seed not only to separate them, but to enable you to distribute them evenly over the ground. Sow them, then harrow them in lightly, and roll the ground with a heavy roller.

QUANTITY OF SEED PER ACRE.—From 1 to 1½ lbs. of seed, if properly sown will be enough for an acre.

TIME OF SOWING.—Most farmers delay sowing until August, but we believe the safer course is to get the seed sown by the 25th of *July*. By sowing thus early, should the fly or flea cut off your first sowing, time will be allowed you to re-sow, object which every turnip culturist should always have in view.

MANURE.—The best manure usually to be found on our farms, for turnips, is *well rotted cow dung*, though any decomposed animal manure will answer. Either, however, are greatly enhanced in value by the addition of ashes.

Silence that Dreadful Cough!

PISO'S CURE FOR CONSUMPTION

Has Relieved Thousands who have been given up and pronounced by their friends in the last stage of Consumption, and abandoned by their physicians, as incurable, that there is no mistake in it a sound of death.

Are you a Mother? Your darling child, your idol and earthly joy, is now perhaps confined to the chamber by a dangerous cold—her pale cheek, her thin shrunken fingers, tell the fatal disease has already gained upon her—the sound of her sepulchral cough pierces your soul.

Young man, whose just about to enter life, disease sheds a heart-crushing blight over the fair prospects of the future—your hectic cough and feeble limbs tell of your loss of hope, but you need not despair.—There is a balm which will heal the wounded lungs, it is

SHERMAN'S ALL-HEALING BALSAM.

Mrs. Attree, the wife of Wm. H. Attree, Esq. was given up by Dr. Sewall of Washington, Dr. Rae and McClellan of Philadelphia, Drs. Rae and Mott of New York. Her friends all thought she must die. She had every appearance of being in consumption, and was so pronounced by her physicians—Sherman's Balsam was given and it cured her.

Mrs. Garrabrants, of Bull's Ferry was also cured of consumption by this Balsam when all other remedies failed to give relief—she was reduced to a skeleton. Dr. A. C. Castle, Dentist, 281 Broadway, has witnessed its affects in several cases where no other medicine afforded relief—but the Balsam operated like a charm. Dr. C. also witnessed its wonderful effects in curing Asthma, which it never fails of doing. Spitting Blood, alarming as it may be, is effectually cured by this Balsam. It heals the ruptured or wounded blood vessels, and makes the lungs sound again.

Rev. Henry Jones, 108 Eighth avenue, was cured of cough and catarrhal affections of 50 years standing. The first dose gave him more relief than all the other medicine he had ever taken, Dr. L. J. Beals, 19 Delancy street, gave it to a sister-in-law who was laboring under consumption, and to another sorely afflicted with the asthma. In both cases its effects were immediate, soon restoring them to comfortable health.

Mrs. Lucretia Wells, 95 Christie st., suffered from Asthma 42 years. Sherman's Balsam relieved her at once, and she is comparatively well, being enabled to subdue every attack by a timely use of this medicine. This indeed is the timely remedy for Coughs, Colds, Spitting blood, Liver complaints and all affections of the throat, and even Asthma and Consumption.

TOUSEY'S UNIVERSAL OINTMENT: A complete remedy for Burns, Scalds, Cuts, Swellings, Bruises, Sprains, Salt Rheum, Piles, Fever Sores, Sore Lips, Chapped Hands, Chilblains, Scald Head, and al kinds of Inflamed sores.

Persons in all conditions of life, are at times liable to be afflicted with the above complaints. It is therefore the duty of heads of families to provide and keep on hand, ready for any emergency, a REMEDY that is capable of removing the suffering attendant on those very troublesome companions. Those who have used *TOUSEY'S UNIVERSAL OINTMENT*, need not be told that it is a complete remedy, a master of pain, and the most speedy remover of *inflammation* ever discovered. The experience of such persons is sufficient to prompt them to keep it always on hand, knowing that many valuable lives have been saved, by this *Magical Conqueror* of inflamed and other sores, burns, scalds, &c. It instantly stops all pain of the severest kind, and prevents scars. No family should be without it, as an immediate application of it in cases of burns or scalds, would do more good while waiting for the doctor than he could do when arrived, besides preventing long hours of the utmost suffering which might pass before a physician could be obtained.

It possesses control over the severest injuries by fire, over mortification, over inflammation, and by its combined virtues it acts as *anti-septic, nervine, anti-spasmodic, anodyne, emollient* and healing, and is the most *complete external remedy* in use.

Thousands have tried, and thousands praise it. It is working its way into public favor with a rapidity unknown in the history of medicines. *All who use it, recommend it.* Again we say, no family should be without it. The agents furnish the public gratis, with books describing this ointment.

☞ Each box of the genuine TOUSEY'S UNIVERSAL OINTMENT has the signature of S. Touesy *written* on the outside *label* in black ink. Never purchase a box unless this signature can be seen. Price 25 cents per box or five boxes for $1. Prepared by ELLIOTT & TOUSEY, Syracuse, N. Y. Sold in New York at 106 Nassau street, and in Towanda, by CHAMBERLIN & PORTER, *No.* 1, Brick Row 5y

Clickner's Vegetable Purgative Pills,

ARE the first and only medicine ever discovered that will *positively cure* Headache, Giddiness, Piles, Dyspepsia, Scurvy Smallpox, Jaundice, Pains in the Back, Inward Weakness, Palpitation of the Heart, Rising in the Throat, Dropsy, Asthma, Fevers of all kinds Female Complaints, Measles, Salt Rheum, Heart Burn, Worms, Cholera, Morbus, Coughs, Quinsy, Whooping cough, Consumption, Fits, Liver Complaint, Erysipelas, Deafness, Itchings of the Skin, Colds, Nervous Complaints, and a variety of other Diseases arising from impurities of indigestion.

It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse, for *heretofore*, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for *Clickener's Vegetable Purgative Pills*, being completely enveloped with A COATING OF PURE WHITE SUGAR, (which is distinct from the kernel) have no taste of medicine, but are as easily swallowed as bits of candy. Moreover they do not *nauseate or gripe* in the slightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region, (which is the great and admitted evil of every other purgative.) Hence, they *strike at the root of Disease*, remove all impure humors from the blood, open the pores externally and internally, promote the Insensible Perspiration, obviate flatulency, Headache, &c.—separate all foreign and obnoxious particles from chyle, so that the blood, of which it is the origin, must be thoroughly pure—secure a free and healthy action to the Heart, Lungs and Liver, and thereby restore health *even when all other means have failed.*

☞ All letters of inquiry or for advice must be addressed (post paid) to Dr. C. V. CLICKENER, No. 66 Vesey-st., New York, or his authorized agents throughout the country. For sale in Towanda, by

CHAMBERLIN & PORTER, No. 1, Brick Row.

N. B. Remember, Dr. C. V. Clickener is the inventor of Sugar Coated Pills, and that nothing of the sort was ever heard of, until he introduced them in June, 1843. Purchasers should therefore ask for Clickener's Sugar-Coated Pills, and take no other, or they will be made the victims of a fraud. 5y

HEMORRHOIDS, OR PILES

INTERNAL AND EXTERNAL PERMANENTLY CURED

By Dr. Upham's Vegetable Electuary

AN INTERNAL REMEDY, which, if used according to directions, a cure for life is guaranteed.

SYMPTOMS OF THE DISEASE.

A common consequence of this affection is a kind of tenesmus, or bearing down sensation, as it is familiarly called; there is also heat, irritation and throbbing in the part, varying from a moderate degree of these sensations to the most excruciating suffering;—these are caused by the great flow of blood to the parts. Sometimes the inner coat of the bowel protrudes at every evacuation, forming what is called Prolapsus or falling of the bowels; this is the effect of long continued irritation and weakness of that organ. In some instances the patient experiences nervous pains, which are indescribable, and known only to the sufferer, which commence immediately after an evacuation, and continue from thirty minutes to several hours; these sensations are very annoying and sometimes very distressing.—Thirdly, one, when of long continuance, is attended by pain and weakness in the back, irritation of the kidneys and bladder, and other organs in the vicinity, pain and numbness in the legs and feet, a sense of straightness about the chest, and unnatural fullness of the abdominal viscera, accompanied with palpitation of the heart and oppression, individuals sometimes experience previous to an attack of the Piles, symptoms denoting great derangement in the circulation; there is a sense of weight and pressure in the abdomen, with a peculiar feeling of uneasiness in the bowels, constipation of perspiration, attended with pain in the back and loins, nausea, and slight pains in the stomach, pale countenance, confused sensations in the head, weariness, and irritable and discontented state of the mind, and a sense of fullness and oppression in the region of the stomach.—The circulation on the surface is feeble, and the current of blood determined inward and downwards. FOR ALL OF THE ABOVE DISEASES AND COMPLAINTS,

Dr. Upham's Vegetable Electuary,

Cures Effectually and therefore prevents Piles.

READ THE TESTIMONY.

HUDSON, December 11, 1846.

GENTS.—I have used Dr. Upham's Vegetable Pile Electuary which I purchased of you, and find it one of the best medicines in use for the piles, and also for all billious affections, arising from an impure state of the system. Yours, &c. E. A. COLE, Marble Dealer.

UNITED STATES MARSHAL'S OFFICE, New York, Dec. 6, 1847.

MESSRS. WYATT & KETCHAM—Gentlemen:—Understanding that you are the general agents for the sale of Dr Upham's Vegetable Electuary, for the cure of Piles, I have deemed it my duty to volunteer a recommendation in behalf of that invaluable medicine. I have been afflicted for many years with piles, and have tried various remedies but with no beneficial effects—I began to consider my case utterly hopeless. But about the first of September last, I was prevailed upon by a friend to make a trial of the above named medicine. I took his advice and rejoice that I am not only relieved, but, as I believe, perfectly cured. I most earnestly recommend it to all who may have the misfortune to be afflicted with that annoying and dangerous disease.

Very respectfully, your ob't servant.

ELY MOORE.

REMARKABLE CURE OF PILES!!
THIRTY YEARS STANDING!!

MOUNT WASHINGTON,
Berkshire Co. (Mass.) Nov. 29, 1847.

MESSRS. WYATT & KETCHAM—Gents: For thirty years I have been afflicted with piles, general debility and inflamation, causing tumors and prolapsus of the bowels, and which had resisted all the medical treatment Dr. Chapman and others could give. The last three years of that time my sufferings defy description. I was confined to bed, unable to help myself, and at last given up by my phisicians and friends in despair of ever gaining my health; in fact for three days before I was entirely speechless and my burial clothes were made. But under Providence, and the use of Dr. Upham's Electuary, though an OLD MAN I have the pleasure of stating the FACT to the public that my health is now good, and hope to live many years, if it is God's will, to make known the virtues of Dr. Upham's Electuary, and to recommend it to my afflicted fellow creatures. It helped me beyond the expectations of all that knew my case, and I only say to others that it is, in my opinion, the best medicine in the world for Piles, or any other disease of the bowels; and if they will use it according to the directions, I will myself warrant a cure in every case.

Yours, with the utmost expression of thankfullness.

CORNELIUS SPUR.

EGREMONT, Berk. Co., (Mass.) Nov. 19, 1847.

The above certificate tells a simple and truthful story of suffering and relief, of which, as physician and witness in the case, I cheerfully endorse.

DR. CHAPMAN.

A SOVEREIGN BALM.

NO other medicine has ever been introduced to the public that has met with such unparalelled success, as DR. SOULE'S ORIENTAL SOVEREIGN BALM PILLS—having been but six years before the public, and the advertising small, yet they have worked their way into every state in the Union and Canadas. They have absolutely become the Standard Medicine of the day.—They are purely vegetable, and so admirably compounded that when taken in large doses they speedily cure acute disease, on the strongest constitutions, such as bilious diseases, and when they are taken in small doses they operate like a charm upon the most delicate, nervous females, and have raised numbers from their beds after all others remedies had failed. We here refer to but few of the many miraculous cures effected by the use of said Pills.

Spinal Affection.—Anna Wood, of Rutland, Jeff. co. N. Y., was cured, after she had been confined to her bed 5 years, with Spinal disease and Abcess of the Lungs. The bill of her regular physician, (Dr. Johnson, of Clay) had amounted to $600. *See circulars.*

Scrofula and Nervous Debility.—Mrs. Downs, of Clay, N. Y., was cured of Dyspepsia, Nervous Debility and Scrofulous affection of the head, after she had been confined six months, and all other medicine had failed.

Cough and Consumption cured. Wm. Bently, of Pickering, C. W., was cured of a severe cough after he had been confined to his bed for a long time, and was given up by his physicians. He had used most of the Cough Medicines of the day, and was supposed, by his friends and physicians, to be in the last stages.

Dyspepsia.—A. B. F. Ormsby, of Syracuse, N. Y., was cured of dyspepsia so severe as not to be able to work for two years.

Wm. Smith, Greenwich, Conn., was cured of a severe case of Dyspepsia, Costiveness and Nervous Debility of two years standing, after expending large sums of money to no purpose. *See Circulars.*

Severe Case of Piles.—John Bolton, of Harwick, Otsego co., N. Y., was cured of a severe case of Piles and extreme costiveness of long and painful duration. Who would not sacrifice a few shillings to be relieved from so distressing a complaint

The above are all cases in which all other remedies failed to cure or give relief. Many of the same character might be published if we had space. For particulars see Botanic Institute, which can be had of agents.

BEWARE OF COUNTERFEITS.—As there are spurious Pills in circulation called Oriental or Sovereign Balm, be sure to see before you buy that the name of "Dr. E. Soule & Co." is on the face of the boxes. None others can be genuine. We not aware that any one who is making a spurious article has yet dared to make use of our name; but some of them have had the impudence to imitate our boxes and copy our circulars, certificates, &c., Unless the public are careful when they purchase, they will be deceived.

The genuine Pills can be had wholesale and retail of Dr. E. L. SOULE & Co., Euclid, N. Y.

NEW

TAILORING ESTABLISHMENT!

G. H. & R. DAVIS, *TAILORS, (late from the City of London,)* have opened a shop, in the second story of the new Brick block, erected by Burton Kingsbury, on Main street, where they are prepared to execute all orders in their line with accuracy & despatch.

From their long and rigorous instruction in the art, and their extensive experience as Foremen, in the best shops in London, they feel perfectly competent of being able to please the most fastidious taste, and to execute their work in such substantial and finished style, as to give satisfaction to their customers.

☞ *Cutting* done to order, and warranted to fit if properly made up.

G. H. DAVIS,
Towanda, Oct. 12, 1847. y18 R. DAVIS.

PAINTING.

HENRY O. ALLEN,

RESPECTFULLY informs the citizens of Towanda, and the public generally that he is prepared to execute in the neatest style all descriptions of

House, Sign, Coach or Carriage Painting, or Trimming; and every variety of Fancy and Ornamental Painting.

From his long experience and the many specimens of his productions now in use, he entertains a flattering hope that by close application to his profession, and being prompt to order he may secure a suitable share of public patronage. He may be found at all times at the Chair Factory of Tomkins & Makinson, where he will be on hand to attend to the calls of those who may want his services. PAPER-HANGING done on short notice, in a superior manner and reasonable terms.

Towanda, July 4, 1848.

CHAIRS AND BEDSTEADS.

THE subscribers still continue to manufacture and keep on hand at their old stand, all kinds of cane and wood seat CHAIRS; also SETTEES of various kinds, and BEDSTEADS of every description, which we will sell low for cash or Produce, or White Pine lumber, White wood, Bass wood, or Cucumber, at six plank, or 4 by 4 Scantling 13 feet long—either Buttonwood, Basswood or Maple, will also be received for our work.

Turning done to order in the neatest manner.

Patent Medicine Advertisements.

AFFLICTED READ!

PHILADELPHIA MEDICAL HOUSE.—Established in the year 1818, for the benefit of the afflicted. The oldest, most and only known secret disease [illegible] DR. KINKELIN, [illegible] Union st., between Second and Front, Philadelphia. Exchange [illegible]

TAKE FAIR COLAR NOTICE.

Young men who have injured themselves by a pernicious practice frequently indulged in when alone, a practice fearfully common, and one which numbers of the youth from even respectable families are addicted to, unless they are nightly [illegible] from whom nothing, and [illegible] and body, become [illegible] and constitutional debility immediately exerted, and full vigor restored. All letters post paid.

YOUNG MEN!

If you value your life or your health, remember, that delay of a month, nay, even a week, may prove your ruin, both of body and mind. Hence let no false modesty, deter you from making known your case to one, who, from education and respectability, can alone befriend you. He who places himself under DR. KINKELIN'S treatment, may religiously confide in his honor as a gentleman, and in whose bosom will be forever sealed the secret of the patient.

Too many think they will keep the secret to their own hearts, and cure themselves. Alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

COUNTRY INVALIDS,

finding it inconvenient to make personal application, can, by stating their case explicitly, together with all their symptoms, (per letter, post-paid,) have forwarded to them a chest containing Dr. K's medicines appropriated accordingly.

Packages of Medicines forwarded to any part of the U. S. at a moment's notice. [y29

☞ POST PAID LETTERS, addressed to DR. KINKELIN, Philadelphia, will be promptly attended to.

See advertisement in the Spirit of the Times, Philadelphia.

GREAT NATIONAL WORK.

A HISTORY of the Revolution, and Lives of the Heroes of the War of Independence, by CHARLES J. PETERSON. An elegant volume, with 18 fine steel plates, and nearly 200 beautiful wood engravings.

"This is a splendid book. A valuable addition to the Historic Literature of our country. We are much mistaken if it does not take rank with the works of Irving and Prescott."—*Frankfort Herald.*

"It surpasses any similar work yet offered to the American public."—*Neal's Gazette.*

"It may be properly considered a popularized military history of the Revolution, extremely well and judiciously written."—*North American.*

"The present work on the Revolution and its heroes, is superior, both in extent and design, to any that has heretofore come under our notice."—*Inquirer.*

"A well connected history of that eventful period."—*Ledger.*

"Decidedly the most popular history of the war of the Revolution and its heroes, that has yet been given to the country."—*Evening Post.*

☞ AGENTS wanted, to canvass for the above elegant work, in every county and town in the United States, to whom the most liberal inducements will be offered. Price only $3. Address (post-paid)
