purities of Indigestion.

It has been proved that nearly every disease to which the human frame, is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for Clickener's Vegetable Purgaline Pills, being completely enveloped with "A coarting or runs white sugar (which is distinct from the kernel) have no teste of medicine, but are as easily swallowed as bits of candy. Moreover they do not nauscale or gripe in the slightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region, (which is the great and admitted evil of every other purgative.) Hence, they strike at the root of Disease, remove all impure humors from the blood. open the pores externally and internally, promote the Insensible Perspiration, obviate flatulency, Headache. dec.—separate all foreign and obnoxious particles from chyle, so that the blood, of which it is the origin, must be thoroughly pure—secure a free and healthy action to the Heart, Longs and Liver, and thereby restore health even when all other means have fuiled.
