The pretended letter of the Confereer of Tioga county, is shown up by the Tiona Banner. as a FRAUD and FORGER F. and he will receive to support other than from those whose sole object is to break down party organization.

The men who surround and control the piratica paper, openly declare they will not support the democratic candidate for Prothonotary. How many other Democratic nominations they will orpose, remains to be seen. Look out for them.

Faction and Falschood.

We understand that E. W. Baird, E.q., since his abandonment of the Democratic party, embraces every occasion to abuse and traduce some of the caudidates on the Democratic ticket. His venom is particularly directed towards the Hon. David Wilmot, but occasionally he opens his vials of indispation upon Dr. Crandal, the candidate for Prothonotary. We are at a loss to conceive what ext cuse he can render for this opposition to Dr. Crandal, but we naderstand full well why he opposes Mr. Wilmot. It is his nature to envy everything good and valuable-to malign and abuse every one above his own standing, and to, detract from the reputation and fair fame of those whom the people have elevated to places he can never reach. Personal animosity, with him, knows no bounds. His

We also refer them to an arrese in manner science here

pretended nomination of Judge Brewster is a barfaced frand upon the party, got up by a few factionists and disorganizers of Bradford and Tioga, which they are attempting to pain off upon the honest votem of the district on a regular compation - that the pretended nomination of Judge Brewster was never made, even by the conferees of Tioga, but that the whole thing is a fraud and forgery, concoc ted and carried out by a few disorganizing spirits who have been opposed to Mr. Wilmot in every campaign in which his name has been before the people,-who are opposed to the principles and sages of the Democratic party, and who have long been seeking an opportunity to accomplish its overthrow,-men who have lost the confidence of the party-who can gain nothing by its success and lose nothing by its defeat, -who have gone such length in their opposition to the urages and regular action of the party heretofore, as to have nothing left to hang a hope upon but its utter prostration. and the hope that upon its ruins they may build up another which they can dictate to and lead. Any thing is better for them than the position they now occupy, even defeat is a victory in their eyes .-They cannot descend, in the political scale, and they hope, by defeating the Democratic ticket, to extricate themselves from their present dilemma, by bring others as low as themselves.

The undersigned, Conferees of the counties of Bradford and Susquehanna, in the Democratic Congressional Conference, held at Towanda, on the 5th ult., having seen in the " Tioga Eagle " a statement in relation to a part of the alleged proceedings in that Conference, purporting to be made by the Tioga Conferees, (though we have good reason to believe it was published without the prior knowledge of those gentlemen, or at least but one of them)-which statement is so utterly at variance with the truth, that we deem it our important duty to make a plain expose of the proceedings refered to, exactly as they occurred in the Conference, that the public mind may be disabused, and the mischief intended by the misrepresentation, prevented. We proceed: Instantly after the organization, the Tioga Conferees presented the following resolution

"Resolved, That the Conferences of this meeting concede the candidate of the 12th Congressional District to Tioga County."

This resolution, and the object of it, were discus sed freely and at length, and there was a full and frank expression of our opinions upon it. We told the Tioga Conferees that we looked upon it as an stiempt to tie our hands in advance, and compelus to vote for Mr. White who was the caudidate of the Whigs and bolters at the last election for Congress in this district, and whom they were instructed to present. Because, said we, if we adopt this resplation and would act consistently, we should have to follow it up by voting for Mr. White-that me knew they were instructed to support Mr. White, and we believed they would obey those instructions. That knowing this fact we would not be en trapped by such a resolution ; and orged fhem to withdraw it until we should see what names would be presented to the conference, and then the merits of the candidates presented could be canvassed-

ion, as is usually required by our county conven tions, in nominating a whole county licket. Now, whole t offer mina nor did White us that otil **stier**. the proceedings were all through. We are, therefore, in justice to ourselves and the Democracy of prediord and Edsenehanna, compelled to say, that the Tinga Banner, proving conclusively that the the pretented statement of the Tinga Conferees that they gave us notice they should present the

other "outsiders," and may not recollect the circumstances distinctly. Mr. Bacon will not, we hink, on mflection, deny the truth of the preceding statement. It will be seen at a glance that the Tioga Conferees placed upon us the alternative of vol ing either for Mr. Wilmot or R. G. White. No sound democrat now pretends that we ought to have voted for Mr. White. He-had recently run as the candidate of the Whigs, and Bolters in direct violation of the ." sange," about which so much bluster is made by Tioga now. Where was his wonderful attachment to usage then? Some of the most violent opposers' of Mr. Wilmot now supported Mr. White then. They were against Mr. Wilmot then, and they are seeking his downfal now .--They were disorganizers then-they are at the same rame now. Under these circumstances, we could not hesitate in our choice. We embraced the alter native. We nominated David Wilmor. And now our course and the circumstances attending it is before the public. Conscious of the commission of no purposed injury to any party, we have no repinings-under like circumstances our conduct would be the same, and without apprehension or fear we await the verdict of our constituency.

The publication of this Bogus print, will remind our Democratic friends of the famous "Bradford Settler," which was published by Gen. Patton about two years ago, for the whole space of two weeks. That purported to be published at Towanday and support Democratic principles, while in fact it was published in Col. Lask's office, at Montrose, and opposed Mr. Wilmot, the regular democratic nomi nee for Congress, and run up the name of Robert G. White in its stead. Just so with Col. Boll's new paper. We caution our Democratic brethren to beware of this last desperate effort of Bull and Pation to distrac' the sparty, and break down its organization. They have no claims to the sympathies of democrats. They have long since forfeited their stand-

Gen Billy Patton, one of the leaders of the dia organizers, and a principal supporter of the new Pirate paper, approached a whig with the first num. ber in his hand and with a smile on his countenance congratulating him with the remark that "The prospects were now very lair for the election of the whig candidate for Congress, (Mr. Tracv.")

This proves conclusively, what we have all the time known : that the ulterior object of the conspirators is to defeat Mr. Wilmot at any sacrifice, even the election of an "ultra whig." They care nothting for Cass and Butler. Longstreth or Painter, or any portion of the county ticket, so they can defeat MrsWilmot. They care nothing for Judge Brewster, further than the use of his name as a pretext to defeat Mr. Wilmot. We have beard it intimate ed and believe that many of them, especially the leaders, will, on the day of the election, drop Brewster and vote directly for the Federal candidate .-Anything is victory to them so they can prevent Mr. Wilmot's election. They fraternize with the whigs fully and completely, and will resort to any thing to accomplish their purrose. But their race is a short one. They are doomed to the most disaraceful overshrow ever visited span open barefaced, and wilful treason, by an indignant people .---They are known. Lapode, fearlessly commented in Mr. Tracy's presence, on his newly adopted theory, had a deep meaning in it. If the rich, in their abundance, do not " remember the poor"-the poor will be very likely to remember them.

THE UNKINDEST COT OF ALL -One day last week several whig gentlemen were conversing upon the prospects of success for their candidate for Congress, Mr. HENNY W. TRACT, Esq. One of them re-marked that Mr. T. was a shrewd business man, paper started like the Democrat, avowedly for the and, of course, well qualified for Representative in Congress. To this another of the company, also a whig, assented, adding that should be be so forganale as to get to Washington, "be would be very likely to get a mortgage on the city before he left it." We have no comments to make.

The Susquehanna Conspirators.

We referred last week to George Fuller, who makes one of the political firm of Bull, Patton. Baird & Co., and is of the Susquehanna branch of the concern. An able correspondent of the "Montrose Democrat." serves out Mr. Fuller in a slashing article of some length. To this is appended a copy of the prospectus for Fuller's paper issued in the fall of 1832. We make the following expose of Mr. Fuller's Democracy, then, and commend it to the attention of his compeers of this county, and Tioga:

4 It probably is generally recollected that during the contest for the Presidency in 1828. I was conrend in the publication of the - Susquehanne Register," and advocated the election of Andiew Jackson, Should it be asked why I am now against him, I reply, that he has long ago abandone every principle upon which he was originally support-ed and claded, to say nothing of his flagrant and high should happen to succeed. We trust they will be handed attacks upon the independence of Congress the National Judiciary and the Constitution M opposition to Gen. Jackson is not of a recent date openly declared it immediately upon his being announced as a candidate for re-election.

> What hind of a Fish it was that Smallip-ed Jonah ! There is an amusing anecdote in the imemoirs of the Rev. Richard Barbam, which he sits was told him by Sir Walter Scott. a.A Scotch minister who resided near Dundee, was one day measining a setmen or Jonah - "Know ye my bushnes," he sail. what sort of a fish it was that swallowed Jorah !

Abblins, ye may think it was a shark; na, na, my breshren. it was nae shark : or, aiblins, ve may think it was a saumon ; na, na, my brethren it was nas saumon; or, aiblins, ye may think it was a dol phin ; na, na, my brethren, it was nae dolphin "

Here an old woman, thinking to help her paster out of a dead lift, cried out, "Aiblins, sir it was a denter"-(the voltar name of a species of whate common to the Scotch coast.)

"Aiblins, Luckie, ye're an auld witch, for tak-u he word o' the Lord out o' my month," was he reply of the disappointed the orician.

We are inclined to the opinion, that after election a new theory will be started in "these diggins," in regard to Jonah. It will be, (17 That Jonek was not scallaged at all !
