Although less than two years have elapsed since its iscovery, it has already effected over 15,000 cures The unrivalled power disease which this Syrup produces may be attributed to the fact that it is composed purely of vegetable extracts, each one having a direct reference to some internal organ; consequently the operation, it occasions neither sickness nor pain, and can be taken under all circumstances without regard to as or diet, and by the aged and the infant with rqual efficacy, is certainly a consideratum in the history Medicine. This Extract is put up in Quart Bottles. and is the most highly concentrated Syrup in use. S. F. Bannert-Dear Str-Some four weeks since I was induced to try your Yellow Dock and Sarsaparilla for Dyspensin: had been afflicted about 40 cars, mos part of the time unable to eat anything without suffer-ing intensely from its effects. I have used now only soo bottle of your invaluable medicine, and consider myself entirely cured solely by its use. Can now est a hearty meal, without the slightest inconvenience, Very truly yours, ANTHONY BEEKMAN,

THE GREATEST PEMALE MEDICINE NOW KNOWN.

The mild alterative properties of Dr. Guysott's ex-tract of Yellow Dock and Sarssparilla, render it pecu-liarly applicable to the stender and delicate constitution of the female. It is unrivalled in its effects upon such eiseases as Insipient Consumption, Burrenness, Leu-eorrhoea or Whites, Irregular Menstruction, Incontinence of Utine, and general Prostration of the system. It immediately counteracts that distressing networkness and lassitude so common to the female frame; and imparts an energy and buoyancy as surprising as they are grateful. We cannot, of course, exhibit certificates to any ex-

tent in this class of complaints, but the two following extracts of letters recently received, indicate authoriently the great virtue of the medicine as a remedy for the ineases refered to.

Fordham, August 13, 1847 Dr Townsend-Deat Sir: I have a little girl seven

FEMALE MEDICINE. Dr. Townsend's Sarasparilla is a sovereign and specdy cure for Incipient Consumption, Barrenness, Protap-aus Uteri, or Falling of the Womb, Costiveness, Piles, Leucorrhaea, or Whites, obstructed or difficult Menstru-ation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—

gripe in the slightest degree, which is occasioned by the thereof, and for the general prostration of the system-no matter whether the result of inherent cause, produced by irregularity, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all-weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately contracts the hervo-lessness of the female trame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been with fine, healthy offspring.

TO MOTHERS AND MARRIED LADIES This Extract of Sarsaparil's has been expressly prenared in reference to female complaints. No who has reason to suppose she is approaching that critical period, " The turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this and nortible diseases to which lemales are subjectly this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable for those who are approaching womanbood, as it is calculated to assist nature, by quickening the blood and invigorating the system. Indeed, this medicine is invigorating the system. Indeed, this medicine is invaluable for all the delicate diseases to which women are subject.

are subject.

It braces the whole system, renews permaner it traces the whole system, renews permanently the hatural energies, by removing the impurities of the hody, not so far stimulating as to produced subsequent relaxation, which is the case of most medicines taken for female weakness and disease. By using a few houses of this medicine, many severe and passets any color in this medicine, many severe and passets any color may be prevented.
