DYSPEPSIA, GENERAL DEBILITY, &c. WATERTOWN, Jefferson Co., Nov. 4, 1847. Mr. S. F. BEXXETT:

Dear Sir-I am at a loss to express with words what has been said in pointe of your Compound Extract of Yellow Dock and Sarsaparills; all who have had the pleasure of using it speak of its marvellous effects in removing diseases, with so much feeling and heartful satisfaction, that I am confident now that no medicine in use can boast of its superior qualities. Many who have been complaining for years with pain in the burning and pain in the chest, dyspepsia, general debility, loss of appetite, chills, night sweate, selt rheum, scrofula, in fact all the diseases that we in this climate are heir to, find in the Yellow Duck and Sarsaparilla, all that is requisite to make them what they were in their days of health &c.

We have had twelve dozen bottles in three months, and find we are nearly out. Please send an equal amount, and O lige yours, HOYT & GREGORY.

8. F. Benner-Dear Sir-Some four weeks since

I was induced to try your Yellow Dock and Samaparilla for Dyspepsia; had been afflicted about 40 cars, most part of the time unable to cat anything without suffer-ing intensely from its effects. I have used now only one butified your invaluable assisting, and consider myself entirely cured solely by its use. Can now cat a hearty meat, without the slightest inconvenience, Very truly yours, ANTHONY BEEKMAN,

THE GREATEST PEMALE MEDICINE NOW

KNOWN.

The mild alterative properties of Dr. Gayson's extract of Yellow Dock and Saraparilla, render it peculiarly applicable to the stender and delicate constitution of the lemale. It is purisalled in its effects upon such diseases as Insipient Consumption, Barrenness, Leu-corrhoes or Whites, Irregular Menstrustion, Incontinence of Urine, and general Prostration of the system. It immediately countererts that distressing nervous and lassitude so common to the female frame, and imparts an energy and buoyancy as surprising as they are grateful. e cannot, of course, exhibit certificates to any ex-

tent in this class of complaints, but the two following extracts of letters recently received, indicate sufficiently the great virtue of the medicine as a remedy for the diseases refered to.

It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs, and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an avertion to medicine, that, unless the case is urgent, they prefer the discase to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse, for heretofure, medicine in almost all its forms, was nearly as disgusting sail was beneficial. Now, however, the evil is most effectually removed; for Clickener's Vegetable Purgutor Pills, being completely enveloped with a COATING OF PUBL WHITE SUGAR. (which is distinct from the kernel) have no taste of medicine, but are as easily awallows as hits of candy.
