Towanda, Wednesday, Novem. 8, 1848.

The Election.

We publish, below, all the returns which have reached us, up to the hour of going to press. We can hardly form an estimate from what we have but should judge that Gen. Taylor has majority over Gen. Cass, of nearly 1000 in the County. The vote for Mr. Van Buren will probably reach 1500,-the strong Van Baren townships yet remaining to be heard from. We give the returns, and the vote for President in 1841:

The Way-bill from Owego, brings intelligence that Sweet (whig) is elected to the Assembly, by 80 majority. Tioga County, N. Y., gives Taylor 100 majority,

The telegraphic report at Owego, says that the indications are that Taylor has carried Pennsylvania, and that Cass has carried Ohio,

New York city gives Taylor 5000 majority.

NORTH BRANCH CANAL .- The Wilkes-Barre Acvocate says of this work, "If the next Legislature can devise means by which the State may finish the North Branch Canal, no time should be lost in accomplishing it. It is an important link in the chain of State Improvemements. Finished, it would yield more revenue than any other section of Canal in the State of same extent. Hence its completion is of great moment to the State: of very great moment to Northern Pennsylvanin. The State has expended much money already on this work, and by finishing it, would realize a full equivalent back into the Treasury. No effort should be spared to devise means to do it. It is to be hoped that the Legislature will make the consideration of this subject a prominent item of business."

Concert.-Messrs. Littlewood & Co's. Harp Band, announce a Concert of Sacred and Secular Music, both Vocal and Instrumental on Friday night 10th inst. We have before us, in the newspapers of different places where they have performed, the having been himself raised to honor by the Repub highest recommendations of these Concerts. That they are in every way worthy of patronage, we have no reason to doubt, and we bespeak for them the patronage of all lovers of good music.

FRESH OVSTERS.—We are indebted to Capt. Gillson, for a can of superior Owlers. The Captain. who never does business by halves, is receiving almost daily by express fresh and superior Oysters, which are disposed of to the public, in his accommodating manner. We recommend the lovers of this popular bivalve to give him a call

Our readers must excuse the barrenness of our editorial columns this week. We hope to make amends, hereafter. The election held yesterday is just now exciting the earnest attention of all, and we shall endeavor to give our readers early and anthentic information.

INCREASE OF VOTES.—The popular vote since 1828 for President, has been as follows:

Years.	Voters.
1828,	1,162,418
1832,	1.252,298
1836,	1,501,298
1810,	2,102 658
1811,	2,702,549

THETY-FIRST CONGRESS .- Ten States have elected their members of Congress, and the account stands thirty-one Whigs in the next Congress, to thirty-three in the present; and forty-six Democrats to forty-four in the present Congress. Democratic gain, two.

Omo.-The Ohio State Journal furnishes the Official vote for Governor, from all the counties in the State, save three, and in these three the vote is authentically known and given. From these returns there is a majority of 336 for Ford, and he is the Governor elect of the State of Ohio,

THE HOMSTEAD EXEMPTION .- In the Vermon Legislature, a bill exempting homesteads not ex ceeding \$500 in value, from attachment, was ordered to a third reading in the House, on Friday by a vote of 109 to 91.

South Carolina, it is said, will not vote at all on the presidential question. The Legislature, it is thought, will not form a quorum on the 7th November, and there is no provision of law for the subsequent action of the body.

THANKSGIVING .- Maine, New Hampshire, and Vermont. Nov. 16; New York Pennsylvania, New Jersey Maryland, and Ohio Nov. 23; Missouri, Nov. 21; Massachuetts and Connecticut, Nov. 30.

"THE MATAMOROS FLAG," which was the first and last American paper published in Mexico, has been removed across the Rio Grande, in Cameron county Texas, where it will be hereafter published.

RHEUMATISM .- This disease is more common and distressing especially in this country than almost any other; and at the same time it may safely be asserted that it is as little understood and as insuccessfully treated. Physicians are unable to and most of them had their hands and feet swolle cure it, even in their own persons. Yet such are the unparalled virtues of Merchant's celebrated Gargling Oil, or Family Embrocation, that the most obstinute cases at once yield to its application, See for water was most pitiful On Monday night we advertizement in this paper. A pamphlet of description may be had guarts, of the agent.

Seven days later from Euripe.—No decision in regard to Smith O Brien.—The trials progressing.

—Progress of the Chelera.—The grisis in France.

—Affairs in Vicana.—The Copied Surrounded.

Bosrom Nov. 3

The steamship Hibernia, with Liverpool dates to the 21st ult, has arrived, and the following is an abstract of the intelligence brought;
Liveneous, Oct 21.—The weather during the

week has been very unsettled. During the early part a good deal of rain had fallen but a variation in the wind has brought about a complete change in the atmosphere, and a bracing cold has succee ded the previous damp weather. The harvest is completely got in, and during the next formight the remperely green, and the inext corneges are preparations for autumn sowing will be general. In Scotland the points crop is still reported as good whilst that of Ireland is immensely short. The crop of outs is, however, good, and the markets generally partake of the same want of spirit prevail ing in England In fact, speculation is at an end and the large supplies which are flowing in from the Baltic and other parts, tend effectually to keep down prices,

THE CHOLERA.-The alarm which was at first rreated by the appearance of the cholera bas sensi bly abated. The Register General of London has reported 30 additional cases up to last Saturday but on the other hand the general health is bette this year than in ordinary years, there being only 991 within the bills of mortality against 1154 upon

an average of the three last years. There is only one case reported at Birmingham and at Manchester not a single case has yet occur red. Linerpool has so far escaped the pestilence in the city of Edinburgh the ravages of death seen to have been rather more extensive than any other place, whilst the port of Leith has comparatively escaped. Its appearance, however, at the little fishing village of New Haven, establishes, without a doubt, the fact of its malignant presence in that

The government has already become satisfied that the precautionary measures of quarantine are altogether unnecessary, and have determined to do away entirely with the regulations which enforce the observance of quarantine, even in the cases where deaths have occurred from Asiatic Cholera on board vessels coming from C minental ports.

IRELAND-SMITH O'BRIEN.-The Lord Lienten ant, in reply to a deputation of the inhabitants of Dublin an lits vicinity, declines giving any direct answer to the memorial, beyond the assurance tha tall weight will be given so the recommendation of the highly respectable jury which tried him The formalities for bringing the writ of error have all been complied with by the legal advisers of O'Brien, but the official privilege of refusing the certificate, with which the Attorney General is invested, will not be exercised by that officer until after his return to Dublin.

Mr. O'Donoghue, after some hours deliberation by the jury, has been found guilty, and a recommendation to mercy accorded in consequence of his having withdrawn and disconnected himselfrom his a cociates previous to any overt attack. The trial of Thomas Meagher commenced on Monday, and the interest which had subsided at Clonmel during the trials of McManus and O'Don-

oghue has now revived.

The Catholic prelates at Dablin have come to certain resolutions which are highly important in one point of view as a collective body. They implore the Government to employ for the immediate relief of the poor all the funds at its disposal, and use all its influence to effect such an equilable adjustment of the relations between landlord and tenant, as shall stimulate an outlay of capital, and ensure the employment of the able-bodied, and increase the produce of the soil.

FRANCE.-The partial change in the administration of Gen. Cavaignac is either the prelude to his own retirement from office, or more probably to some convulsion brought about by the Red Re publicans and the Republicane de la Vielle-they who were republicans before the 24th of Febuary -being so early deprived of the sweets of sover eign authority. Gen. Cavaignac had no alternative

He perceived that the majority in the Assembly was formed of Loyalists, Legitimists and modern Republicans. They who had become Republicans after the 24th of February possessed the power of excluding him from office at any moment, and, licans de la Vielle and the party of the National, he had no other recourse but to attempt the policy of

The result has been that Ducroux, the Prefect of Paris, has written a letter, resigning his office, and in plain terms says he disapproves of Cavaignac's adroit policy, and in presence of the dangers which menace liberty in France, while it triumphs in Germany, he shall resume his place amongst the adversaties of royalty, which he will combat under all disguises. He concludes significantly : " All soldiers of the Democracy must be at their post; mine has ceased to be where my political sympa thy exist no longer.'

Another pregnant proof of the critical position of Cavaignac is found in the wavering of the National. The Orleans family was overthrown by subdicts of the National.

Louis Napoleon keeps quiet. Cheap Socialists bauquets continue to be held. One is to take place on Saturday under the anspices of Le itu Rollin, and creates no little alarm.

The funds, which rallied when the moderate party were admitted to the cabinet, have again delined. On Thursday the 3 per cents were 41f. 40c. and the 5 per cents 68f, 55c

VIENNA.-The stupendous events which are pas sing in the neighborhood of Vienna and the Ans trian empire, has kept all Europe in alarm and amazement during the week.

Last week we announced the breaking out of an nsurrection at Vienna, on the 1st On the 8th ult the Ban of Crotia. Jelachich, at the head of a nu merous army was advancing towards Pesth, with the view of supporting the insurrectionary proceedings in Hungary, but when the intelligence of the revolution in Vienna reached him, he instantly turned his columns in the direction of Vienna, and advanced with rapid strides towards the capital.

FRIGHTFUL DESTITUTION -The New Orleans Rec has a letter from a friend on board the U.S. store ship El ectra, which describes the condition of the crew ct the Ocean Bride, wrecked in the late gale It rays:

We are abreast of Havana, after being seven days out; last Saturday, as we were enjoying a glass of wine after dinner, the man on th out reported a wreck eight miles off. The captain immediately ordered the ship about, and to steer for it, and in about an hour we came up to it, when what a pitiful sight presented itself—there five human beings, all of whom had nearly lost their reason from hunger and exposure, and were drinking salt wåter.

The captain ordered out the life boat, and in less than no time the men assisted the sufferers on board, when it was found, by asking the only one that could speak, that their vessel was the Ocean Bride, from Laguna, Honduias, (Yucatan) bound to London, with logwood and mahogany. Having on Monday night encountered a gale, she was dismasted, and the captain and tive more of the crew were swept overboard by a sea breaking over her. which also swept all their water and everything or deck away. There were six men still left on board with no food or water, as in a short time the sea broke over so furiously that the hold was filled

On Wednesday they lost the first mate, one o the six that were not washed away, and so great was their hunger, (horror to narrate,) that on Thursday they cut his arm off and ate it.

I believe now I have given you a full description, as it was told me by the second mate of the Ocean Bride. Now for the survivors. The captain had them put to:bed and their wounds dreamed as they had a great many severe cuts about them. to an immense size : he then had them some none ishment cooked. The first night three of them lost them-the others are all recovering fast, and I hope will soon be out of danger.

The Battle Half Well.

Whatever may be the result of the approaching providential contest, one thing may be considered positively certain; that no act can pain the popu-ar branch of the newly elected National Legislature, which may coulemplate the spread of negro western America. It is now removed beyond loubs that a decided majority of the next House of depresentatives will sunction the constitutionality, the justice, the humanity, and the expediency of of excluding the curse of slavery from what is now free soil, of engrafting the wholesome principle on any bill which may offer a territorial government to

the country above named.

Thus much has been gained, thanks to the providence of God, and the activity and decision of the masses. That humbug of political sore-heads, that new hobby-house of wom-out demogagne that nursery pet of superannuated sepirants—the Wilmot Proviso—has finally achieved a victory as signal as it is useful, and as glorious as it is hu-

Three hundred and sixty-millions of acres an aved from slave colonization, and the "goods and hattels" of Louisiana and the Carolinas are not to be exported, amid the carnest prostestations, the deep regicts and the sincere tears of the philanthropic and the good.

pic and the good.

So much for the principle of the femous Proviso; we have all said, and we still say," that we hold free soil assearred as free men, and that we would as soon submit to have the chains fastened upon the free limbs of our people, as to surrender their rightful inheritance to the demands of the lave power."

Our safety is now in the Honse of Representaives, fresh from the people, and they cannot adourn the great question of human rights whatev therefore, may be the sequel to this November ale, we must all admit that a most signal moral triumph has been effected; that in the face of a perlect hurricane of southe n opposition, and the very teeth of the bitter denunciations of northern men who love their party more than their principles. and whose alter of adoration is built in the audience-room of Tanmany Hall—the desired end has peen accomplished, the institution of slavery has been checked in its deadly march of propagation. -"Hear it, ye heavens, and give ear to it ye

Let us then trust implicitely to the future. We have done much, but the battle is only half-fought. The organization of the free soil party is still in embryo-four years will advance it to maturity, and ender it so formidable, that both the old parties will hope to fraternize with it .- N. Y. Duily Globe.

DEATH OF BRIGADIER GENERAL STEPHEN W. KEARNEY.—Gen. Stephen W. Kearney, the conquemr of New Mexico and California, is now no more. His disease has had a fatal termination, as was fear ed, and he died yesterday, as is announced through the telegraph from St. Louis. Of all the officers in the army, none has rendered more service to his country. He entered it in 1812, was at the fa-mous battle of Queenstown, and from the rank of of Lieutenant rose to that of a Brigadier General. But the most remarkable service that he performed was that in New Mexico and California, the former of which, by the celerity of his movements and the excellence of his plans, he entered, and received the complete submission of the inhabitants without a single battle, and the latter, joined with the naval forces ander Stockton, he conquered after several hard fought and sucressful battles. His march from Santa Fe to California was one of the most daring acts that heroism could undertake. With only a lew followers, between twenty and thirty, he had several engagements with an enemy greatly superior in force, through all of whom he cut his way successfull, though severely wounded in one of the encounters. He was a brave and chivalric officer, was prudent as heroic, and the army and his country lose one of its most gallant spirits in his death. Congress, notwithstanding the opposition made in a high quarter in the Senate, did an act of justice when it confirmed his nomination to his present rank. Gen. Kearney was born in Newark, New Jersey, about the year 1793, and was thus in his 55th year at the ime of his death.

SINGULAR CASE OF AMALGAMATION .- About three xeeks ago, a package containing ₹3700 was stolen from on board one of the boats playing between this city and Norwich, Counecticut, and thus far no satisfactory clue has been obtained likely to lead to well known to the police as Bob Moore, and of one New England's fair daughters, a young women who gave her name as Maria Hutchinson, were arrested at a house in Mulberry street on suspicion of having committed the robbery. On questioning he latter respecting her acquaintance with Moore she stated that she was the daughter of a respectable and influential citizen of Vermont, and that about six weeks ago, in consequence of an altercation with her father, she ran away from home, and n Boston, got acquainted with a colored sailor, named Hutchinson, whom she married and avowed her intention of returning home with him, in order to mortify her parents as much as possible, on account of the course of conduct which they had pursued towards her. After being married to Hutchnson a fortnight, he shipped on board a vessel at Boston, rather precipitately, having previously become acquainted with Moore, and introduced him o his wife. No sooner had Hutchinson got out of Boston harbor than Moore commenced making love to his friend's wife, and finally sucreeded in pursuading her to come to this city with him. On neir arrival here, they engaged apartments at a ouse in Mulberry street, where they have been living as man and wife. The latter appears to have eceived a liberal education, and converses freely especing her situation, but refuses to give her mai len name, having, in some measure, changed her mind on the subject of disgracing her parents. At present she and her colored paramour rison for further examination -N. Y. Stor.

Dr. V. P. Coolinge.—This unhappy man is now onfined in a cell of the prison in Augusta, Me., of which the ground dimensions do not exceed eight feet by four. A part of this narrow room is occu-pied by his bed. The cell has no window, the light and air being admitted through an aperture in the door. His friends say he cannot survive the winter. Governor Dana called the attention of the Legislature to the case last summer, and requested that body to say whether they wished to have the convict executed or not at the end of the year-The warden of the prison also requested that some en argement or change of treatment might be ordered; but the Legislature declined to take action in the matter. A brother of Coolidge has lately been from Ohio to see him. A sister, whose home is in Mississippi, is now in Maine, and will there spend the winter.

Man Burnt to Death .- On Thursday evening ast, a most melancholy accident occurred near Kennet Square, Chester county, Pa. An old gen-tléman, named James Holland, between 70 and 80 years of age, during the absence of the family, as he was in the habit of doing, had entered his barn as is supposed, with a light, for the purpose of procuring feed for his hogs, and by some means unknown, the hay or straw cannot fire from the candle, and in a few minutes the building was in a blaze. The barn, together with about one hundred bushels of grain was totally destroyed, and sad to relate, the old gentleman was consumed in Nothing but a portion of his body was found, all his limbs being entirely burnt up.

HUNTING TO SOME PURPOSE .- We clip the following from the St. Louis Republican of the 23d -Three or four gentlemen from this city returned net evening on the steamer Lucy Bertram, from a hunting excursion on the apper Mississippi. They prought down two large bucks and some seventy or eighty brace of ducks, geeze, and other large water fowl, besides equirrels, quaits, and other varmints in great abundance.

Woon.-The Pittsburg Journal of the 26th ult, says there is a good demand for wool, and prices have advanced to 20 a 28 cents per lb. for common to full blood.

Melanchely Suicide.

Under the head of obsteary, we publish the death of Mrs. Desire Shedbolt, wite of John Shedbolt, of Bennington, in Wyoming county, N. Y. The cir-cumstances attending the love, marriage, and death are of a most melancholy mattie. She had been married but a little over a week at the time of he death. The particulars, as far as we can gather them, are authentically as follows: It appears tha the diseased, after her marriage, went with her husband, to live at his father's in the cown of Ben nington. On Thursday evening last, about 6 o'clock young Shadbolt left the house, expressing his inten-tion to go to a neighbor's; at or near the same time she left the house, and not returning within a reasonable time, search was made for some time with out success. The bushand was sent for, and company with his brother, was despatched to her father's some eight or ten miles, to see if she had been there; the two returned, with two of her brothers, some time in the night; in the meanwhile the search had been continued at Shadbok's, and the body of the deceased was at length found in an old well some 20 or 24 rods from the house she was found with her head downward, and he feet above the water which was some eight feet in depth-from the top of the well to the water in some two feet, and the well is not curbed. The coroner's jury rendered a ventict of suicide—These are the bare incidents of the case. The funeral took place at the Methodist chapel, in this village. on Sunday last, and was attended by a large concourse of people from this and the neighboring towns. From the known despicable and desper ate character of Shadbolt, the husband of the de ceased, there was a strong conviction upon the minds of nearly all the citizens of this town and Sheldon, that the death of Mrs. Shadbolt never look place at her own hands. In this village on Monday, such was the excitement against him that there was rerious talk of "lynching;" cooler counsels, however, prevailed, and while a warrant for his arrest was being issued here, Shadbolt passed through here under the charge of constable Glad-ding, of Sheldon, who had arrested him for the crime of murder. His examination was to take place yesterday before Esq. Fillmore. Without expressing any opinion as to the guilt or innocence of Shadbolt, of the murder of his wife, we cannot withhold our condemnation of the crimes of which he has been guilty. He has been one of a numer ous gang who have committed every crime in the calender, with the exception of murder, and on this he is now arraigned. Bennington, for this last ten years, has harbored a gang of ruffiaus—chief Rinong whom has been Shadholt—who have reen dered themselves notorious for their depredations on society, in the destruction of property, and other Outropes not necessary to enumerate. There has never been any conviction of the rascals, of these crimes for want of actual proof, although no doubt could be entertained of their guilt; therefore man-slaughter, arson, tresspass and assault have been committed with impunity. Whatever the result of the present examination may be the means of breaking up a gang of land pirates, whose depre-dations would not have continued to this time, had they not been winked at by some who pass for respectable citizens—and even friends and relatives of the crew. We should have stated that a young man named John Burley, was arrested with Shad bolt, as an accomplice. He is also a member of the gang.—Spirit of the Old eight.

THE VENEZUELEAN TROUBLES.—The brig Elizabeth Felon, Capt Eldridge, arrived on Saturday morning from Porto Cabello, whence she sailed o the 4th instant.

Capt. Eldridge states, that on the 1st of October there was a buttle tought at Coro, between the Go vernment and the Paez party, in which the Government troops were victorious, having killed and taken prisoners about 600 of the Paez party. The Government flee consisting of five brigs and six schooners, was at Porto Cabello on the 4th, taking in provisions and water, and making the necessary signees, and the kinduess of the Governor, we ob tained a permit to pass the blockade. Gen. Paez, it was said, was at Curacoa, and his fleet at last ecounts was at Maracaibo.

was sold to the Venezulenn Government. The ded between them, and protected her in the man steamer Augusta of New Orleans, arrived at Porto ner described. The presence of the keeper, Mr. Cabello on the 2d inst. from Curacoa, and was Pierce, soon reduced the savage groups to subject thattered by the Government to proceed to Laguay. ra to take a load of troops to Maracaibo. She sail ed on the 3d inst. All kinds of business was very dull, and the markets were well supplied with American produce. No freights to be had. Cof. fee scarce, and none in market

A NOBLE DEED NOBLY REWARDED.-The New York Journal of Commerce says :- In the latter part of last summer, a young and only daughter's Mr. Corcoran, (of the firm of Corcoran & Riggs) of Washington city, was playing with some friend on a wnarf, in the rear of the grounds of Capt Charles Williams, at Stonington, Coun., and step ped into a boat, which, by some accident, was loosened and drifted from the shore. The child frightened at the danger, jumped overboard. Mr. Gurdon Smith, a boat builder, who was near by, swam in and rescued her at the last moment struggling, Mr. Corcoran was in Europe at that time, engaged in business, as is widely known,-He has since returned, and we saw last week letter from him to Mr. Smith, expressing his gratitude, and enclosing one thousand dollars as a test mony of it. This is a reward at once unexpected to the receiver and noble in the giver, doing honor to the heart of the father. Mr. Smith is, we are glad to be informed, a worthy recipient, highly esteemed by all who know him.

THE AMERICAN TRACT SOCIETY.—The receipts of the Society, for the six months ending Oct. 1st. were \$105,097, and the issue from the General Depository amounted to \$110,000. The amount of gratuitous circulation already sanctioned, exceeds 11,000,000 page. Nine double medium power presses, with several hand presses, fail to do all the printing required. More than 200 colporters have been commissioned during the six months previous, including a number of theological students for their vacations. The number of colporters in regnlar service, exclusive of students, exceeds 200, o whom about one-fourth are for the Ge man, French Irish or Norwegian population. The society is indebted for printing paper to the amount of nearly

FORGING AND SWINDLING IN LOWELL -- A case of wholesale swindling and forging, we understand, has just come to light in this city. Tue operator is well known as an old resident, and long respected as a pions, moral, good and useful citizen. It seems. however, that his integrity was not sound; and he has disappeared, after swindling, forging and borrowing to a very large amount. The sums already known, reach the aggregate of ten or fifteen thou sand in this city, and may exceed that. Romor also names some twenty thousand, as being in the hands of the banks and shavers in Boston. The name of the guilty party we suppress for the present .-- Lowell Courier.

REMARKABLE Escape -- During the session of the Indiana Conference, at New Albany, a son of Rev R. S. Robinson, about four years of age, fell into well sixty-five feet deep The attention of the mother was called by the cries of a younger child, about two years of age, and by the assistance of Mr. Shumaie, who heard the cry, and was immedistely let down into the well, the little boy was rescued. He was found struggling in the water, which was three feet deep; and, though senseles when drawn up, he was speedily restored. He received a wound upon the head, but was able the next day to be with his father in the conferen

YEARLY MEETING IN INDIANA.—The Quakers swarm in Indiana. At the late yearly meeting, held at Richmond, there were 2500 persons. They were of the orthodox party.

Progress of the Cholera.

Logues.-The number of fatal cases of Cholers last week is stated to have been thirteen, of which two are heritatingly alleged to be Asiatic cholera and one is described as a disease of the bowels similating to Asiatic Cholera; the remainder, therefore, without doubt, must be regarded as cases of English cholers. Each case of cholers must be certified to by the medical attendant previous to its being registered. The whole tendency of this document is to show that the health of the metropolis, generally speaking, is in a much better condi-tion than ordinary, and that there is no ground for serious apprehen on as to the prevalence of cholera at the present time.

In the London Gazette of Friday, there appears

an important notification from the General Board of Health respecting this dreadful epidemic The Board declare it as their conviction that the disease is non-contagious; and they state that the preventive measures founded on the theory of contagion, viz: internal quarantine regulations, sanitary cor-dons, and the isolation of the sick, on which formerly the strongest reliance was placed, have been recently abundoned in all countries where cholera has appeared, from the general experience of their mefficiency.

Hannong.—Authentic accounts state that the dis case is still on the increase at Humburg. From the 1st of September, when it broke out, to the 36th there were 1339 cases, of which 650 died, 302 recovered, and 389 were under treatment. There is a great deal of sickness on board the English

ships lying at Hamburg.

BERLIN.—Up to the 30th ult., there have been 1704 cases of cholera in Berlin, 1012 of which terminated fatally, 302 reported as cured, and 390 still doubtful.

St. Peterssurg.—The last accounts from St. Peeraburg give about nineteen new cases, and seven or eight deaths daily. ALEPTO AND DAMASCUE.—The ravages of the

pestilence at Aleppo and Damascus are stated to have been frightful, particularly at Damascus where not fewer than 10,000 persons are supposed to have died within the twenty days preceding the 26th of August.

THRULING INCIDENT AT THE MENAGERIE -- Noble Gallantry of the Lion .- On Thursday of last week, during the heavy storm of wind and rain, while the extensive collection of wild beasts in the menagerie of Messis. Raymond & Waring were in the village of Norwalk, a feature was introduced in the exhibition not previously announced in the bills.-About four in the afternoon a violent gust of wind blew down the canvass which forms the large pavilion, completely enveloping the spectators cages of animals in one common mass of confusion. The accident happened at the time when Miss Adelina, the Lion Queen as she is styled, was performing in the den of wild beauts, and as the fright of the animals rendered them seemingly uncontrolable, great fears were entertained for the safety of that interesting young lady. At this moment a scene of indescribable terror and confusion presented itself. The roaring of the terrified beasts, the acreams of women and children, and the " pel tings of the pitile-s storm" without rendering the scene truly appalling. The panic, however, was but momentary, as the prompt and energetic measures taken by the managers soon cleared the wreck, no person having received the slightest in

But the most intensely interesting incident remains to be told. The uproar among the lions, ti gers and leopards in the performing cage, gave rise o a report that they were devouring Miss Adelina. In the next instant the canvass was stripped from the cage, when a tableaux presented itself such as would defy-either poet, painter, or aculptor to por-tray with accuracy. In the centre of the den a young and beautiful lion, (the same recently pre-sented to Gen. Cass. by the Emperor of Morocco.). in a rampant position, formed the strong feature of in provisions and water, and making the necessary the picture; benea hone of his hind feet lay stretch-preparations for an attack on the fort and City of ed the dead body of a leopard, and struggling with the sub-off of Ordeless. On the superior of the s Maracaibo. They were to sail for that place on the 8th of October. On the morning of the 4th, an embargo was laid on the port, but through my continue to the cage, transfixed as a statue of marble, with dauntless eye and majestic, attitude, the same as when she commands the wild heasts to crouch at her feet, stood the lion Queen, Miss Adelina. The Porto Cabello on the 30th ult., with troops, and young lady states that the two leopards and the tifrom a farther participation in this extra perform-

A Physician's Testimony. The following letters are presented with a view of more ful showing the opinious of Physicians in relation to the Medi al value of DR. SWAYNE'S COMPOUND, SYRUP OF

Dr. SWAYSE - Dear Sir; Having used your Composi-Syrup of Wild Cherry extrancely in my practice. I was re quested by your Agent Dr. Crutcher, to express my opinion is rriting of its properties as a remedial agent, and I mos cheerfully comply as I feel by so doing, I will discharge a de! owe the community at large and Physicians in particular As much as I destest Queck Remedies and Patent Nostrum I was induced from a failure of the most potent expectorus ecommended in our majoria medicas in some cases of Di-Elsen Lancs, to try your proparation of Prenus Virginia of With CHEERT. It is sufficient to say that I was so much please, with the result of that and subsequent trials, that I now pres-cribe it in preference, to all other remedies where an expectprunt it indicated. In the much dreaded Procure Disease of the lungs in the alarming form in which it appears n Kentucky, I regard it in an invaluable Remedy in the trem ment of that disease. To all who know me I have said enough sat as this may be seen by persons out of the vicinity of Frankford I will briefly add, that I have been engaged in an active practice of my profession of 12 years and am a Regular Grad-uate of Transylvania, and this is the first Patent Medicine I over thought enough of to express an opinion in writing
