

The Most successful Medicine in the World!

TTHIS CHEMICAL COMPOUND, containing as it does, Yellow Dock, so highly esteemed by the faculty - with other v. getable productions, is of the most important discoveries of the age, and far superior to all simple sarsaparilla preparations in use Although less than two years have elapsed since it-discovery, it has already effected over 15,000 cures. The unrivalled power disease which this Syrup produces may be attributed to the fact that it is co purely of vegetable extracts, each one having a direct reference to some internal organ; consequently the whole evotein is benefitted; and the fact that, in its operation, it occasions neither sickness nor pain, and can be taken under all circumstances without regard to business or diet, and by the age! and the infant with equal efficacy, is certainly a consideratum in the bistory of Medicine. This Extract is put up in Quart Bottles. and is the most highly concentrated Syrup in use. It is offered at the low price of one dollar per Bottle, the object of being to give the patient an opportunity by the purchase of one bottle, to test its valuable medical

roperties and its power over discase.
This compound Extract of Yellow Dock and Sarraparilla is a positive, sperdy, and permanent cure for Consumption, Scrofula or King's Evil, Evysipelas, Salt Rireum, Pimples on the face, Rheumatism, Gout, General Debility, Dyspopsia, Liver Complaints, Spinal Affections, Female Complaints, Uters, Syphils in its worst form, Affections of the Bladder and Kidneys, Bilious Colic and serous Looseness, Biles, Costiveness Colds, corrupt Humors, Asthma, Dropsy, enlargement of the Bones, Pever and Ague, Giddiness, Gravel, Headaches, of every kind, Impure blood, Janulice, Loss of Appetite, Leprosy, Mercurial Diseases, Night Sweats. ous Complaints of all kinds, Neuralgia, Organic Affections, Palpitation of the Heart, Painter's Colic. Piles, rush of Blood to the Head, Scurvy, Swellings, Sick Headache, Stiffness of the joints, Exposure and Imprudence of Life.

It extracts nervous disease, purifies and enriches the Blood, and invigorates the body more effectually than any medicine hitherto offered to the public.

In the Vegetable Kingdom, an All wise Being has deposited such plants and herbs as are concepial to our constitutions, and adapted to the cure of all curable diseases to which human nature is incident. All this Compound Symp is composed of all those valuable which have lately been discovered and used, and found to be certain specifics in thousands of discusses that before defied the best of medical skill.

OPINIONS OF PHYSICIANS.

This is to certify that we, the undersigned Physicome of the city of New York, have in a very great many cases prescribed. Doctor Guyanti's Extract of Vellow Dock and Sarsaparilla, and are fully assured that it has no equal among the varied Syrups and Sar -aparilla preparations that have over been sold. Octo

WATERTOWN, Jefferson Co., Nov. 4, 1847. Mr S. F. BENNETT: he or Sir-I am at a loss to express with words what has seen said in praise of your Compound Extract of Vollow Duck and Sarsaparilla; all who have had the

pleasure of using it speak of its marvellous effects in noving diseases, with so much feeling and heartfelt satisfaction, that I am confident now that no medicine in use can boast of its superior qualities. Many who have been complaining for years with pain in the side, g and nain in the chest dre tyl loss of appetite, chills, night sweats, salt rheum, scrofuls, in fart all the diseases that we in this climate are beir to, find in the Yellow Dock and Sarsaparilla, and that is requisite to make them what they were in their days of health &c. The mild alterative properties of Dr. Guysott's extract of Yellow Dock and Sarsaparilla, render it pecuharly applicable to the slender and delicate constitution of the female. It is unrivalled in its effects upon such diseases as Insipient Consumption, Barrenness, Leucorrhoca or Whites, Irregular Menstruation, Incontinence of Urine, and general Prostration of the system It immediately counteracts that distressing nervousness and lassitude so common to the female frame, and imports an energy and buoyancy as surprising as they

STEPPONS OF THE DISEASE. A common consequence of this affection is a kind tencemen, or bearing down sensation, as it is familiarly called; there is also heat, sension and throbbing in the part, varying from a moderate of these sensations to the most exerucisting suffering: these are caused by the great flow of blood to the parts. Sometimes the inner coat of the bowel protrudes at every evacuation, forming what is called Prolapsus or falling of the bowels; this is the effect of long continued irri tation and weakness of that organ. In some instances the patient experiences nervous pains, which are indiscribule, and known only to the sufferer, which comnence immediately after an evacuation, and continu from thirty minutes to several hours; these sensation are very annoying and sometimes very distressing,-This disease, when of long continuance, is attended pain and weakness in the back, irritation of the kidnews and bladder, and other organs in the vicinity, pain and numbness in the legs and feet, a sense of straightness about the chest, and unnatural fullness of the abdominal viscera, accompanied with paintistion of the heart and oppression, individuals sometimes experience, previous to an attack of the Piles, symptons denoting great derangement in the circulation; there is a sense of weight and pressure in the abdomen. with a peculiar feeling of uneasiness in the bowels, constitution of perinseum, attended with pain in the back and loins, nausea, and slight pains in the stomach, pale countenance, confused sensations in the head, weariness, and initable and discontented state of the mind, and a sense of fullness and oppression in the region of the stomach.— The circulation on the surface is feeble, and the curren feeble, and the current of blood determined inward and downwards. It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is or restore the blood to its natural value, a tim tact is universally known, but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse, for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for Clickener's Vegetable Purgative Pells, being completely enveloped with a coaring of pune white Sugan (which is distinct from the kernel) have no taste of medicine, but are as easily awallowed as bits of candy. Moreover they do not nauscite or gripe in the slightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system. instead of confining themselves to, and racking any par ticular region, (which is the great and admitted evil of every other purgative.) Hence, they strike at the root of Disease, remove all impure humors from the blood open the pores externally and internally, promote the Insensible Perspiration, obviate flatulency, Headinghe, &c .- separate all foreign and obnoxious particles from chyle, so that the blood, of which it is the origin, must be thoroughly pure-eccure a free and healthy action to the Heart, Lungs and Liver, and thereby restore health
