This fact. u universally known, but people have such an aversion to medicine, that unless the case is urgent they profer the disease to the cure; until in impaired Constitution or aft of sickness rebukes them for the folly of their conluct. Still they had some exchan, for herelofore, med scine in almost all its forms, was nearly as disgusting Bu it was beneficial. Now, however, the evil is most fectually removed; for Clickener's Vegetuble Purpality Pille, being completely onesloped with a course by rune waters sucen (which is distinct from the kernel) have no tasks of medicine, but are as easily swallowed as hits of early. Moreover they do not nauscafe or a lits of early. Moreover they do not nauscafe or arine in the slightest degree, which is occasioned by the fact that are compounded on accentific principles, and operate equally on all the discased parts of the system, instead of contining themselves to, and racking any particular region, (which is the great and admitted evil of every other purgative.) Hence, they strike at the rod of Diseme; remove all impure humors from the Blood, open the porce externally and internally, promote the nsensible Perspiration, obviate flatuleury, Headache dec-separate all foreign and obnoxious particles from chyle, so that the blood, of which it is the origin, must be thoroughly pure secure a free and healthy action to the Heart, Lunga and Liver, and thereby restore health even when all other means have failed.

Berkshire Co. (Mass.) Nov. 29, 1847. \
MESSES. WYATT & KETCHAN—Gents: For thirty years I have been afflicted with piles, general debility and inflamation, causing tumors and probapses of the bowels, and which had resisted all the medical tresment Dr. Chapman and others could give. The last three years of that time my sufferings defy description. I was confined to hed, unable to help myself, and at last given up by my phisicians and friends in despair of er-er gaining my health; in fact for three days before I. was entirely speechless and my burial clothes were made. But under Providence, and the use of Dr. Upham's Electuary, though an oun wan I have the pleasure of stating the FACT to the public that my health is now goo, and hope to live many years, if it is field's will, to make known the virtues of Dr. Upham's Electuary, and to recommend it to my afflicted fellow creatures. It belood me beyond the expectations of all that snew my case, and I only say to others that it is, in my opinion, the best medicine in the world for Piles, orang other disease of the bowels; and if they will use it according to the directions, I will myself warrant a cure
