A common consequence of this affection is a kind o tenesmins, or beating down sensation, as it is familiarly called ; there is also heat, 'ension and throbbing in the part, varying from a moderate degree of these stass-tions to the most excruciating suffering :-- these are caused by the great flow of blood to the parts. Sometimes the inner cost of the bowel, protruces at every evacuation, forming what is called Prolapsus or falling of the bowels; this is the effect of long continued irritation and weakness of thit organ. In some instances the patient experiences nervous pains, which are indis-eribable, and known only to the sufferer, which commence immediately after an evacuation, and continue from thirty minutes to several hours ; these sensations are very annoving and sometimes very distressing .-This disease, when of long continuance, is attended by pain and weakness in the back, irritation of the kidneys and bladder, and other organs in the vicinity, pain and numbress in the legs and feet, a sense of straightness about the chest, and unnatural fullness of the abdominal viscers, accompanied with pelpitation of the heart and opprosion, individuals sometimes experience, previous to an attack of the Piles, symptoms denoting great derangement in the circulation : there is a menu I weight and pressure in the abdomen. with a peculiar feeling of incasiness in the bowels, constipution of pe-ringum, stiended with pain in the back and loins, nausea, and slight pains in the stomach, pale countenance, confused sensations in the head, weariness, and initable and discontented state of the mind, and a sense of fullness and oppression in the region of the stomach. ST. JOHNSVILLE, Monigomery Co. Jan. 3, '48 S. P. BENNETT-Dear Sir-Some four weeks since I was induced to try your Yellow Dock and Sarsaparilla for Dyspepsis; had been afflicted about 40 ears, most part of the time unable to est snything without suffering intensely from its effects. I have used now only one bottle of your invaluable medicine, and consider

myself entirely cured solely by its use. Can now eat hearty meal, without the slightest inconvenies Very truly yours, ANTHONY BEEKMAN,

THE GREATEST FEMALE MEDICINE NOW KNOWN.

The mild alterative properties of Dr. Guysott's extract of Yellow Dock and Sarasparilla, render it peculiarly applicable to the slender and delicate constitution of the female. It is unrivalled in its effects upon such diseases as Insipient Consumption, B treenness, Leu corrhoea or White-, fregular Menstrustion, Incontinence of Utine, and general Prostration of the system. it immediately counteracts that distressing nervousnes and lassitude so common to'the female frame, and imparts an energy and buoyancy as surprising as they are prateful.

We cannot, of course, exhibit certificates to any extent in this class of complaints, but the two following extracts of letters recently received, indicate sufficient ly the great virtue of the medicine as a remedy for the liseases referred to.

She had not had her regular menstroal discharges for a long time ; but by the use of Dr. Guysrit's Yellow Dock and Sarsaparilla was radically cured. Had used Townsend's and others', without receiving the slightest benefit. He had one daughter die from the same cause. Pleas send us an additional supply. Very respectfully yours J. E. TRIPPE & CO.
