It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an aversion o medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse, for heretofore, med icine in almost all its forms, was nearly as disgusting fectually removed : for Clickener's Vegetable Purgative Pills, being completely enveloped with A COATING OF PURK WHITE SUGAR (which is distinct from the kernel) have no taste of medicine, but are as easily swallowed as bits of candy. Moreover they do not nauscate or gripe in the slightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system, nstead of confining themselves to, and racking any particular region, (which is the great and admitted evil of every other purgative.) Hence , they strike at the root of Disease, remove all impure humors from the blood, pen the pores externally and internally, promote the insensible Perspiration, obviate flatuleury, Headache, &c.-separate all foreign and obnoxious particles from chyle, so that the blood, of which it is the wigin, must o thoroughly pure-secure a free and healthy action to the Heart, Lungs and Liver, and thereby restore health eren when all other means have failed.

HEMORRHOIDS OR PILES INTERNAL AND EXTERNAL PREMAMENTAL CURED By Dr. Upham's Vegetable Electuary. AN INTERNAL REMEDY, which, if used an cording to directions, a-cure for life is guaranteed.

A common consequence of this affection is a kind a tenesmus, or bearing down sensation, as it is familiarly called; there is also heat, 'ension and throbbing in the part, varying from a moderate degree of these sensetions to the most exeruciating suffering :- these are caused by the great flow of blood to the parts. Sometimes the inner cost of the bowel protrudes at every evacuation, forming what is called Prolapses or falling of the bowels; this is the effect of long continued into sation and weakness of that organ. In some instances the patient experiences nervous pains, which are indiscribable, and known only to the sufferer, which commence immediately after an evacuation, and continue from thirty minutes to several hours; these sensations are very annoying and sometimes very distressing.— This disease, when of long continuance, is attended by pain and weakness in the back, irritation of the kidneys and bladder, and other organs in the vicinity, pain and numbness in the legs and feet, a sense of straight ness about the chest, and unnatural fullness of the abdominal viscers, accompanied with palpitation of the heart and oppression, individuals sometimes experience. previous to an attack of the Piles, symptons denoting great derangement in the circulation; there is a sense of weight and pressure in the abdomen, with a peculiar feeling of uneasiness in the bowels, constipation of perinsum, attended with pain in the back and louis, nauses, and slight pains in the stomach, pale countrance, confused sensations in the head, weariness, and initable and discontented state of the mind, and a sense of fullness and oppression in the region of the stomach. The circulation on the surface is feeble, and the current blood determined inward and downwards. FOR ALL OF THE ABOVE DIBRASES AND COMPLAINTS.

But under Providence, and the use of Dr. Upbam's Electuary, though an oun MAN I have the pleasure of stating the FACT to the public that my health is now good, and hope to live many years, if it is God's will, to make known the virtues of Dr. Upham's Electuary, and to recommend it to my afflicted fellow crestures.
