AUTHENTIC ACCOUNTS FROM CALIFORNIA-THE EXAGGERATIONS OF FORMER REPORTS.-After the exaggerations of first reports marine and the trnth. Capt. Phéps, whose arrival recently from California was telegraphed from the South, with the addition that his accounts could med the inost glowing descriptions of the gold country which had been received, is now in Boston, and has commu nicated his knowledge to the public. From the Boston Traveller's version of Mr. Phelps's experience in California, many of the stories that have been published are pure coinages of the brain. Capt P. says letters have appeared in the papers from persons who have no existence in California. and vessels are named loading with gold that have never been there. The amount of gold that he brought is much less than the lowest reported quan-tity." He brings one lump weighing an ounce and a half, and says that the largest piece he had seen

did not exceed six ounces. In many instances, where it was reported that lumps of a pound and more weight had been found, investigation proved that the statement was an exaggeration. Capt. P. worked personally at the washings, and he says the oiggers do not make \$150 per day Those who have done the best have not obtained more than \$3000 during the entire digging season. Cap. P.'s opinion as to the success of expeditions

daily starting to the country is, that it will depend upon the manner of their organization. There are considerable quantities of gold in California, but the amount does not equal the exaggerated reports. The inhabitants are anxious to maintain order, bu are obliged to resort to Lynch law to do so, in the absence of regular authority. The reported disor-ders in the country are also exaggerated. There was but one case occurred before he left, a negro, who was whipped for insulting a Mormon woman. When Col. Mason's companies deserted, a file of men were sent after them ; they deserted also, and he called upon the miners to assist him in recovering the men if they wished the protection of the United States. They replied that they were willing to assist him in arresting fugitives from justice but their time was too precious to be running afte deserters .- Ledger, Murch 1.

OYSTER WAR-BLOODSHED.-The Philadelphia oystermen and the authorities of the Eastern Shore of Virgin a have came in open collision, and blood has been shed. A fleet of twenty boats from Philadelphia recently entered the Bay, near Drummond town and commenced dredging for oysters, in violation of the laws of the State, whereupon five small boats were manned and armed with two pieces o cannon, and thus prepared, a conflict ensued, in which one oysterman was killed, the mast of one of their boats was shot away. Ninety persons were subsequently captured and lodged in jail, but re-leased on account of some informality. In the skirmish that took place, one of the Virginians was shot, the ball entering the mouth and coming out at the side of the head, carrying away one of his ears.

DARRING ATTEMPT AT ROBBERY .--- Yesterday between 12 and 1 o'clock a most daring robbery was attempted in front of the U.S. Mint. A dray man in charge of several bags of gold an 1 silve coin, had stopped at the mint with the view of depositing the same in that establishment, and while carrying one of the bags up the steps an individual took from the dray a carpet bag containing \$7,100 n British coin. He started up Chestnut-st. toward Broad-st. with it, and when about half way between the mint and that street he threw the bag down and hastily pursued his course into Broad-st. A gentleman observing the darring act of the fellow, pur sued him a short distance and secured him. was taken to the Mayor's office and committed for a further hearing .- Philad. N. Am.

GEORGIA GOLD.-The Dahlonega Widchman, the 8th inst. says : " A rich gold vein has recently been discovered on a lot belonging to Dr. McAfee and others. This mine is about one mile southwest from Auraria on the Etowah River. We were at this mine a few days since; little ore had then been taken out, but what we saw gave external specimeus of the wealth within. Col N. W. Riley made 95 dwis. of gold on a deposit with eight hands during last week. Messrs. Moore & Keimon have just opened a new vein on the Ezard lot, which they suppose will yield two dwts. of gold to the
