It has been proved that nearly every disease to which the human frame is subject, originates from imporities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is iniversally known, but people have such an aversion o medicine, that, unless the case is argent, they prefer the disease to the cure, until an impaired Constitut or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse. for herelofore madicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most ef fectually removed ; for Clickener's Vegetable Purguties Pills, being completely enveloped with A COATING OF PURE WRITE SUGAR. Moreover they do not nausente or gripe in the alightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system, instead of confining themselves to; and racking any par licular region, (which is the great and admitted evil of every other purgative.) Hence, they strike at the root of Disease remove all impure humors from the blood. open the porce extensily and internally, promote the insensible Perspiration, obviate flatulency, Headsche, dcc.--reparate all foreign and obsoxious particles from chyle, so that the blood, of which it is the origin, must be thoroughly pure-secure a free and healthy action to the Heart, Longs and Liver, and thereby restore health even mken all other means have failed.
