THE GREATEST FEMALE MEDICINE NOW

KNOWN. The mild alterative properties of Dr. Guysott's extract of Yellow Dock and Sarsaparilla, render it pecu liarly applicable to the slender and delicate constitution of the female. It is unrivalled in its effects upon such seases as Insipient Consumption, Barrenness, Leucorrhoea or Whites, Irregular Menstruation, Incontience of Urine, and general Prostration of the system. It immediately counteracts that distressing nervousness and lassitude so common to the female frame, and im-

TAKE PARTICULAR NOTICE. There is a habit which boys teach eachother the Academy or College.—a habite indulged in when by himself, in solitude, growing up with the boy to manhood; few of those who indulge in this pernicious practice are aware of the consequences, until those find the nervous system shattered, feel strange and unaccountable feelings, vague fears in the mind. The individual becomes feeble, he is unable to labor with accustomed vigor or to apply his mind to study; his step is tardy and weak, he is dull, irresolute. IF THE SOLITARY VICE.

Is continued, the procreative power is destroyed, and marriage rendered impossible, a long train of nervous affections follow, the countenance is downcast, the eyes 4 00 without natural fuetre, shamefacedness is apparent THESE ARE SYMPTOMS WHICH SHOULD AWAREN the attention of those similarly afflicted.

IF THE VICTIM

Be conscious of the cause of his decay, and quit it, be 10 00 suffers under those terrible nocturnal and involuntary emissions, which waken and shame him producing mental and physical prostration. If he emancipates him-self before the practice has done its worst, and enters matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early tollies.

Let no false modesty deter you from making your

case known to one who, from education and respecta-bility, can alone befriend you. He who places him-self under DR KINKELIN'S treatment, may religiously confide in his honor as a gentleman, and in whose osom will be forever locked the secret of the patient.
