Clickner's Vegetable Purgative Pills. A RE the first and only medicine ever discovered that will positively cure Headache, Giddiness, Piles, Dyspepsia, Scorvy Smallpox, Jaundice, Pains in the Back, Inward Weakness, Palpitation of the Heart, Rising in the Throat, Dropsy, Asthma, Fevers of all kinds Female Complaints, Measles, Salt Rheum, Heart Burn, Worms, Cholera, Morbus, Goughs, Quinty, Whomping cough, Consumption, Pita, Liver Complaint, Frysipelas, Deafness, Itchings of the Skin, Colds, Nervous Complaints, and a variety of other Diseases arising from its

purities of Indigestion.

It has been proved that nearly every disease to which the limited frame is subject, originates from importities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution of a fit of siekness rebukes them for the folly of their conduct. Still they had some excuse, for herelofore, med icine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most el fectually removed; for Clickener's Vegetable Purgative Pills, being completely enveloped with a coartso or erns warries stoam (which is distinct from the kernel) have no taste of medicine, but are as easily swallowed as bits of candy. Moreover they do not natiscale or gripe in the slightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system, nateral of confining themselves to, and racking any par ticular region, (which is the great and admitted evil o every other purgative.) Hence, they strike at the run of Disease, remove all impure humors from the blood, open the pores externally and internally, promote the aseasible Persolvation, obviate flatolency, Headache dec-esparate all foreign and observious particles from the chart and the dood, of which it is the wigin, must be thoroughly pure-secure a free and healthy action to the Heart, Lungs and Liver, and thereby restore boulth ven when all other means have failed.
