OLD DR. JACOB TOWNSEND. THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and has long been, known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARIL. A.t.? Reing pass, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales of remuscribed to those only who had preved its worth, and knowe its water. It had reached the enre of many, nevertheless, as those persons who had been besied of sore discusses, and saved from death, principled its excellence and wonderful HEALING POWER.

HEALING POWER.

Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time has come,

nished to brieg it into universal notice, when its inestimable virious would be known and appreciated. This time has come, tho means are upplied; this manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deternoration.

Unlike young S. P. Townsend's, it improves with age, and sever changes, but for the better because it is prepared on scientific graciples by a scientific men. The highest knowledge of Cherister, and the latest discoveries of the art, have all been scought not requisition in the manufacture of the Udd Dr's Sarasporalla. The Sarasporilla rout, it is well known to modical men, crintains many medicinal properties, and some properties which are mert or useless, and others, which if retuned is preparing it for use, produce formeration and acid, which is invited in the system. Some of the properties of Sarasparilla are so volatile, that they entirely evaporate as a re lost the preparation, if they are not preserved by sensitife process, known only to thuse experienced in its manufacture. Moreover these volatile processife, which is you fit a vapor, or as an exhalation, under heat, are the very executed medical properties of the new which even to it all its velone.

Any person can holl or stew the root till they get a dark colored liquid, sweeten with sour molasses, and then call it "SAR BAPARILLA EXTRACT or SYNUP." But such is not the GENUINE OLD DR. JACOB TOWNSEND'S

article howen as the GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentations, is extracted and rejected; then every particle of modical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of loning any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the Cure of innumerable diseases.

Heace the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of wonders in the cars of CONSUMPTION, DISPEPSIS, and LIVER SOM-PLAINT, and in RHEUMATISM, SCROFULA, PILES, COSTIVENESS, all CUTANKOUS ERUPTIONS, PILE-PLES, BLOCTHES, and his affections artising from IMPURITY OF THE BLOOD.

Improved to The Hardon, it possesses a marvelous efficacy in all compaints arising from Indigestion, from the older of the Stemach, from the qual circulation, determination of blood to the head, palpitation of the heart, cold foot and hands, cold child and hot flashes over the body. It has not its equal in Cede and Cegats; and promotes easy expectration and gentle perspiration, relaxing stricture of the large, throat and every other part.

But is nothing is its excellence more manifestly seen and achemical department of the large throat of than in all kinds and stages of FEMALE COMPLAINTS.

It works wonders in cases of Fuer Albus or Whites, Pulling of the Words, Obstructed, Suppressed, or Painful Menses, Irregularity of the meantrial periods, and the like; and is as affected in curing all the forms of Kidney Diseases.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility. and this prevents or releves a great variety of other maladies, as Spinal irritation, Neurolpia, St. Filtar Dance, Successing, Epiteptic Fitz. Covantions. Acc. It cleaness the blond, excites the liver to healthy action, tonce the strinach, and given good direction, releves the bowels of toppor and constipation, allays inflammation, purifies the skin, equalises the circulation of the blood, producing gentle warming equally all over the body, and the incombine perspiration; relaves all strictures and tightness, removes all obstructions, and invigouses the entire nervous system. It has been proved that nearly every disease to which

the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Const or a fit of sickness rebukes them for the folly of their conluct. Still they had some excuse, for heretofore, madicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most of feetnally removed : for Clickener's Vegetable Purgative Pills, being completely enveloped with A COATING OF FURE WHITE SUGAR, (which is distinct from the kernel) have no taste of medicine, but are as easily swallowed as bits of candy. Moreover they do not namente or gripe in the slightest degree, which is occasioned by the fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system. instead of confining themselves to, and racking any par-ticular region, (which is the great and admitted evil of every other purgative.) Hence, they strike at the root of Disease, remove all impure humors from the blood, open the pores externally and internally, promote the Insensible Perspiration, obviate flatulency, Headache, dec.—separate all foreign and obnoxious particles from chyle, so that the blood, of which it is the origin, must be thoroughly pure—secure a free and healthy action to the Heart, Lungs and Liver, and thereby restore health even when all other means have failed.
