The Most successful Medicine in the World!

THIS CHEMICAL COMPOUND, containing L it does, Vellow Dock, so highly estoemed by the faculty-with other vegetable productions, is one of the most important discoveries of the age, and far superior to all simple surseparilla preparations in use. Although less than two years have elapsed since its discovery, it has shready effected over 15,000 cures. The univalled power discass which this Syrup produ-

cos may be attributed to the fact that it is purely of vegetable extracts, each one having a direct reference to some internal organ; consequently the whole system is benefitted; and the fact that, in its constation, it occasions neither sickness nor pain, and can be taken under all circumstances without regard to usiness or diet, and by the aged and the infant with equal efficacy, is certainly a consideratum in the history of Medicine. This Extract is put up in Quart Bottles, and is the most highly concentrated Syrup in use. It offered at the low price of one dollar per Bottle, the object of being to give the parient an opportunity by the purchase of one bottle, to test its valuable medical

roperties and its power over discase, The compound Extract of Yellow Dock and Sara-

THE GREATEST FEMALE MEDICINE NOW KNOWN.

The mild alterative properties of Dr. Guysott's ex-tract of Yellow Dock and Barsaparilla, render it peculiarly applicable to the stender and delicate constitution Henry Gibbs; Rome, D. M. Wattles; Ulster, Perk ham & Co.; Milan, G. Tracey; Athons, C.H.Herrick; of the female. It is unrivalled in its effects upon such distances as Insipient Consumption, Barrenness, Leu-corrhoea or Whites, Irregular Menstruation, Inconti-Smithfield, E. S. Tracey ; Burlington, Coryell & Gee; nence of Urine, and general Prostration of the system. It immediately counteracts that distressing nervo and lassitude so common to the female frame, and imparts an energy and buoyancy as surprising as they are grateful.

We cannot, of course, exhibit certificates to any extent in this class of complaints, but the two following extracts of letters recently received, indicate sufficiently the great virtue of the medicine as a femedy for th
