### The North Branch Canal.

The importance of this canal connecting as it will when completed, our public works with those of New York and the great chain of northern fakes, New rork and the great chain or normern takes, cannot be fully appreciated even by its warmest friends. This canal is now completed and in op-eration to the mouth of the Lackawanna, a distance of about nine miles above Wilkesbarre, and the coal trade on it, coming in this direction is increascoal trade on it, conting in this offection is increas-ing every year. Last year the toils taken at Bér-wick amounted to \$83,607 21, and this year, we understand they will be cousiderably more. From the mouth of the Lackawanna, this canal

extends to the New York state line a distance about 94 miles. Here it will connect with a short canal to be constructed by the state of New York, or a company already anthorized which will connect with the Chemung canal and thence by the Seneca lake &c., it will connect with the great Erie canal at Montezuma, from which boats can procced to Buffalo on lake Erie, or to Oswego, on lake Ontario. Thus it will be perceived that the completion of this line of communication would open market for the inexaustible beds of anthracite coal in the Wyoming and Lackawanna valleys into one of the most wealthy, populous, and growing regions in the United States-Western New York Let any cuizen, who is incredulous as to the extent of the goal trade which must pass upon this work cast his eye upon the map, and view the exten-of country to be supplied—its cities village and population and then take a view of the regular progress or increase of the coal trade upon the Schuylkill navigation, the Philadelphia and Pottsville railroad, the Lehigh navigation, the Delaware and Hudson canal and the finished part of the North Branch tiself, and determine whether he can disbelieve any longer.

But in addition to the coal trade there will be an immense interchange of iron, salt, plaster and lumber with other productions and merchandize which will be more than sufficient to defray the expenses of superintendence and keeping the canal in repair leaving the tolls to be derived from the coal a net fund applicable to the interest on the investment. In round numbers there has been expended on the line between the Lackawanna, and the state line two millions five hundred thousand dol-The embankment and walls are in good condition. Being constructed out of reach of the highest floods, they have not been injured. This

we say from personal observation. When the work was suspended it required, ac-cording to the estimate of Wm. B Foster Esq, the engineer, at the contract prices then allowed, betcording to the contract prices then allowed, Det-engineer, at the contract prices then allowed, Det-ween twelve and thirteen hundred dollars to com-plete it. By a subsequent estimate, made for a company in 1847, by changing the character of some mechicanical structures, he stated that it it is the between eleven and twelve taken the work for the estimate. We believe that the difference in price for which work can be done at this time and that, at which it was originally let, will more than compensate for any deterioration the work has sustained, and that it can now be completed for the original estimate. The money already expended, on which the state has to pay the interest semi-annually must remain an entire loss unless the work is finished. In fact it must be finished by the state or given to a company, and in the latter event, the state would as in the case of the Erie canal, lose all she thas expended. No man, in our opinion, who would make himself acquainted with the subject can hesitate as to the course the state ought to pursue.

The people however, are opposed to an increase of the state debt, and they are right. The debt ought not be increased. If borrowing is again commenced there is no knowing to what abuses it will We shall, therefore, in our nex' endeavor to show that in the present prosperons condition of the country, the consequent natural increase of the existing revenues, and the proper legislation in regard to retailers and tavern licenses, this work can be completed to the satisfaction of the people directly interested, without increasing the debt one cent. If we can do this we hope to satisfy every reasonable, man who will investigate the subject that it ought to be finished as soon as practicable .-Harrisburg Keystone.

SULLIVAN COUNTY -A correspondent of the Muncy Luminary gives the following account of affairs in Sullivan county upon the subject of removal He saya :

It is well known that a bill passed at the last ses-

COMMITTEES OF VIGILANCE.-The Democratic Standing Committee of Bradford county, hereby call a Conveilifon to the comin said County, to be holden at Towands, on Tues-

day evening, September 6th, 1849, for the purpose day evening, September 6th, 1849, for the purpose of placing in nomination candidates to bis support-ed by the Democratic party of the county, at the approaching election, and have appointed the fol-lowing Committees of Vigilance for the several listricts of said county. The Committees will call meetings on Saturday,

September 1st., between the hours of 3 and 8, P. M. or the election of Delegates.

We would enjoin upon the Committee the responsibility which rests upon them, and the necessity of discharging their duty faithfully and fully. The primary meeting should be called on the day named, at the usual place for holding said meetings-or at some place most convenient to the democrats of district. Great care should be taken that every democrat has notice of the Delegate meeting, that all may have a chance of attending.

a chance of allending.

STRONG BEER.

G ROCERS & Landlorle supplied with Strong Beer by the 144. TIFFANY & KINGSBERY.

# NEW ARRIVAL AT THE

sion of the Legislature, appointing Commissioners to review and relocate the Seat of Justice of Sulli van county. The 3d Section of said bill provides as follows

"It the said commissioners shall deem it expe dient to change the location of the Seat of Justice of said county of Sullivan, they are hereby required to appraise the lamages that be alleged to have been sustained by S. Mylert and his assigns in consequence of said removal and the amount or amount so tound due, if any, to be certified by the said Commissioners, or a majority of them, to the Prothonotary of the Court of Common Pleas of Sulli van county, who shall enter the same on record e rights, remedies and effects of a Judgwith all th ment against the said county of Sullivan."

Under this act, the Commissioners, Messrs, Jessup, Broadhead and Irish, met at Millerstown on the 20th of June received the oath, and proceeded to view the country and hear the arguments in favor of or against the different proposed locations-Michael Meylert, then filed a claim for damages viz :--- \$13.739 61, and made oath to the same, but did not give any of the items. The agent for the people asked for a Bill of Items that they; might know how this enormous sum was made up. Mr Mevlert plead want of time, &c., that he could no do it then. Therefore, the Commissioners'adjourned to meet at Wilkes Barre on the 24th of July, at which time and place they met, and this bill was laid before the people, with intimations from a certain quarter that the law forced its allowance.

The party favorable to remove, petitioned for an adjournment, in order to give time and opportunity to rebut and examine the said claim, which was <sup>strongly</sup> opposed by the anti-removal party, viz: Mr. Meylert and the Ex-Hon John Richter Jones The adjournment was however granted to the 2nd of October, to meet at Cambra on the Tumpike near Columbus.

TERRIBLE ACCIDENT IN CANDEN .- A terrible accident happened at Camden, N. J., Saturday after-noon. While a number of workmen were plasturing a new three storied brick honse, in Stevens street, near Fourth, the whole tenement, owing to the defective nature of the foundation and walls, without the least warning, tumbled down, carrying with it the gable wall of an adjoining house ; thus forming a mass of complete ruins, and overwhelming in destruction all who were about the premises. Some of the workmen were buried so deep that it required several hours of superhuman exertions to extricate them. Levi North, colored, a laborer was taken out dead, he having been instantly killed. He leaves a large family. Richard Cheeseman, plasterer, was seriously injured Alexander Griscom and John Lucas, plasterers, were severely injured internally. They were both doing well yesterday The demolished building was the propeny of T. Newell. The verdict of the coroner's jury that sat upon the body of Cook, we are inform ed, attributed the accident to the culpable neglect in not building the foundation wall of proper strength, and strongly censured the contractor. Philadelphia American.

KEEP IT ON HAND .- A gentleman said not long mace that his boys carelessly allowed a young horse to run away with a drag or harrow which was several times thrown upon the horse, lacerating his flesh in the most cruel manner, so that hardly any Part of his body escaped unhart. He applied Merchants Gargling Oil taithfully for one week, and the horse was well."

Many farmers have been so successful in the use of this Oil they will not be without it in their stable a day. Much valuable information may be obtained respecting this Oil by consulting a pamphlet to be oblained of the agent free of charge See also and the heirs of Solomon Forest, dec'd. Contain-Wrentiscinent in this paper.

You certainly can't help but find The thing to suit your eye. There's Suits to suit all sorts of men. For Welding Church, or Shop There's Pants, Vests, there's Cloaks Of Costs a thunderin lot Hurra for John A. Kane, Hurra for J. A. Kane. lionce you buy a suit of him You're sure to call again.
