## BR. TOWNSEND'S SARSAPARILLA.

The most extraordinary Medicine is the World! Extract is put up in Quart Bottles: it is aix tracs cheaper, pleasanter, and morranted superior to any sold. It cares without vaniting, purging, sickening or debili-tating the Patient.

The great beauty and superiority of this Sarsaparille or all, other medicines is, that while it eradicates the sease, it invigorates the body. It is one of the very best disease, it invigorates the body. It is one of the very best SPRING AND SUMMER MEDICINES ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possensed by ne other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last two years more than 100,000 ourse of severe cases of disease; at least 13,000 were considered incurable. It has saved the lives of more than 10,000 citidiren the past two seasons in the City of New Tech alone:

16,460 cases of General Debility and want of Nervense Energy.

Dr. Townson's Narapparilla invigorates the whole system permanently. To these who have inset the whole system permanently. To these who have further moscular energy by the effects of inclicine or indiscretion committed in youth or the excessive indulgence of the possipus, and hought on by physical prestration of the nervous system, hastinds, want of ambition, fainting somations, premature sheap and decline hastening towards that fairl disruss Consumption, can be entirely restored by this plegant remedy. This Sarasparilla is far superior to any

New York, April 28, 1817.

Du. Townsend.—I verily believe your Sarasparilla has been the means, through Providence, of saving my ide. I have for several years had a bad Gough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarasparilla a short time, and there has a wonderful change been wrought in me. I am now shie to walk all over the city. I raise no blood and my cough has left me. You can well imagine that I with thankful for these results. Your obsilient sorvant.

Being poor, he was compelled to limit its monutarture, by which means it has been kept out of market, and the sales cir trumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons, who had been healed of once diseases, and saved from death, proclaimed its excellence and wonderful HEA LING POWER.

Knowing, many pears ups, that he had, by his skill, science and experience, devised an article which would be of incalcrable advantage to mankind when the means would be furnished to bring it into universal motics, when its inestimable virtues would be known and appreciated. It has been proved that nearly every disease to which the human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organs; and to secure Health, we must remove those obstruction or restore the blood to its natural state. This fact is niversally known, but people have such an aversito medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their con luct. Still they had some excuse, for hereinfure, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most efctually removed; for Clickener's Vegetable Purgutive Pills, being completely enveloped with A COATING OF PURE WHITE SUGAR (which is distinct from the kernel) have no taste of medicine, but are as easily awallowed as bits of candy. Moreover they do not nauseate or gripe in the slightest degree, which is occasioned b fact that are compounded on scientific principles, and operate equally on all the diseased parts of the system, natead of confining themselves to, and racking any particular region, (which is the great and admitted evil of very other purgative.) Hence, they strike at the real of Disease, remove all impure humors from the blood, open the pores externally and internally, promote the nsensible Perspiration, obviate flatulency, Headache. &c.—separate all foreign and obnoxious particles from hyle, so that the blood, of which it is the origin, must be thoroughly pure—secure a free and healthy action to the Heart, Lungs and Liver, and thereby restore health
