It has been proved that nearly every disease to which he human frame is subject, originates from impurities of the Blood or Derangements of the Digestive Organand to secure Health, we must remove those obstructions or restore the blood to its natural state. This fact is niversally known, but people have such an aversion o medicine, that, unless the case is urgent, they prefer he disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conubt. Still they had some excuse, for heretofore, medcine in almost all its forms, was nearly as disqueling as it was beneficial. Now, however, the rvil is most of ctually removed; for Chelener's Vigetable Purgative Pills, being completely enveloped with A COATING OF PURE WHITE SUGAR (which is distinct from the kernel' have no taste of medicine, but are as easily swallowed as bits of candy.
