BRANT'S INDIAN PURIFYING EXTRACT

is such a Mediciae, in every respect; and there is abundant proof, in gress curse effected, that ONE BOTTLE of it contains more purifying, healing virtue and medical poort, than there is contained in Powr Bottles of any sursepartities or my other medicine that has ever been offered for sale. There is undoubted proof to our pemphlets, that by the use of this great Indian Purifer, they that were Druno yet Live—they that were Lang and Carprigo can now Walk—they that were Sick, Schorolous, and otherwise discused, live been linking and Curro.

Hundreds—Thousands—

who have used BRART'S PUBLIFIER, after having used and tested ALL the surasperillas and other medicines recommended to cure blood diseases, have decided that—

Brant's is the Cheapest, because One Bettle of it has more modical, curative matter in it and, in consequence, cures more disease in much less time, thin one bottle of any other medicipe.

If, then, ONE Bottle of BRAST's PUBLIFIER will care FOUR TIMES more disease than one bottle of parametring a linear publication of the control TIMES mort discuse that due bottle of surseparities. Beauty is Publicate will care follow the surseparities. Beauty is Publicate would be as chap at four delicars bottle, as surseparities it one dollar. But BRANT'S PURIFIER is sold for only ONE DOLLAR a bottle; and as a bottle of it has curred, and is capable of curing. Four Times as much disease as one bottle of carsaparities, therefore surface public in consequence of its less power and less medical efficacy, should be still at no more than Theority-Five Cents per bottle, to be as chesp as the Publical at One Dollar.

One Dollar's Worth! How much Cancer—how much Syrentis—how much Scho-trua—will One Dollar's worth of Brant's PURIFIER cure? Read the following statement, which is a specimen of its power

CANCEROUS SCROFULA! This is the case of a Dying man who yet lives. He was ever! of a worse case of Scruteis, by only Twelce Bottles of Brout s Purifier, than ever was cured by the use of Twelve Gellow of the best serropaville that was ever made. He had the best medical advise—had used all of the head surreposition to be in a Dirig. Subprantification and had not be treatly four soldered to be in a Dirig. Subprantification on the treatly four house longer, when he comparenced using BRANT'S PURIFIEST. His neck was eastern early of, from are to car—a kole was estimate through his swindpipe, under his china so that he breasthed through the hole—his car was so cates around that it could be lifted up out of its pince, it only holding by a small place—the use of one arm, was destroyed by two Ulcers—an Ulcar under the arm, as large as a man's kand, had nearly each after guide his side into his holy. Thus he was sufficted with nearly such partial, offerent Ulcar, on various parts of his version. For further and tull particulars, see our Pamphles.

Doet. Thromas Williams, one of the most skilful physicians of Rome, was called to see Haskin the day before he commenced using Brants Parifier. Doet. W. examined him, and then told him that all the medicines in the world could not care him—that his case was

Worse than Hopeless!

Now hear Mr. HASKIN'S statement of cure. He said: Mv wife procured one bottle of BRANT'S PURIFFING EXTRACT—THAT BOTTLE enabled me to get off my bed—the second bottle enabled me to get out of the house—the THEM CHABLED me to said two miles, and when I had fluidted using Nine Battles. BRY-ENTRE OUT of treenty Ulcers had keeled up, and three bottle nurse sflucted a PERFECT CURE and restored me to good keels.

it has been proved that nearly every disease to which the human frame is subject; originates from impurities of the Blood or Derangements of the Digenive Organs; and to secure Health, we coust remove those obstructions or restore the blood to its natural state. This fact is universally known, but people have such an exercising to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired Constitution or a fit of sickness rebukes them for the folly of their conduct. Still they had some excuse, for heretofore, med icine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most of tually removed; for Clickener's Vegetable Purgative Pills, being completely enveloped with A COATING OF CRE WRITE SUGAR, (which is distinct from the kernel) have no taste of medicine, but are as easily swallowed as bits of candy. Moreover they do not mousement of gripe in the slightest degree, which is occasioned by the act that are compounded on scientific principles, and instead of confining themselves to, and racking any par-ticular region, (which is the great and admitted evil of every other purgative.) Hence, they strike at the root of Disease, remove all impure humors from the blood, open the pores externally and internally, promote the Insensible Perspiration, obviate flatulency, Headache, &c.—separate all foreign and obnaxious particles from chyle, so that the blood, of which it is the origin, must be thoroughly pure secure a free and healthy action to the Heart, Lungs and Liver, and thereby restore health
