TEXADLE TRACEDY IN THE BERKE COUNTY ALMS-House.—The Receing Pres of the 25th inet. says:
"The hospital of the Berks Co. poor-House has been the scene of a bloody tragedy, which is almost unparalleled in the history of human actions involving the destruction of a family, consisting of the condition of the father and his says. a wife and daughter, by the father, and his death by suicide, after he had inflicted dreadful wounds the head and throat of his wife with a razor and hammer, and sevening the throat of the daugh tet, a gitl some 18 years old with, the same instintet, a gitt announced the chambers of the hospital. occapied by the unfortunate victims for the last ten months, on Saturday evening last, between 7 and 8 o clock. Hisname is Fredrick Stahl, a native Germany, and his conduct has always been marked with propriety; but he may have been Jed to the act by the hopeless condition of his wife, who was insane, and that of his daughter, long confined to her bed by lameness and unable to utter a word. The wife made her escape from the chamber with her neck dreadfully lacerate! by the razor &: her head battered with the hammer, the handle of which broke in his hands.—When the overseer enfered he found Stahl reeling to the floor, where he instantly expired: the daughter lay in her gore on the bed, with her throat cut from ear to ear. Coroner, Dr. Witman, held an inquest on the bodies, and the Jury reported in favor of the facts as above rela-

THE ROUND ISLANDERS .- A correspondent of the Mobile Herald, just returned from a visit to Round Island (Sept. 13) says:

There are at present about three hundred and sixty persons on the Island. They are the healthlest and roughest looking set of men that I ever saw. They are all contented and waiting patiently for their departure. When I arrived they were nearly out of provisions, but on Monday night a schooner arrived with eight days' rations on board. It has been reported that they have all been starved or, at least, that they had no provision. Who could ever imagine that they would suffer with hunger as long as there are plenty of cattle running on the island? They all have good places to sleen. the island being entirely dry, and containing an abundance of grass. They obtain the best of water at any place on the island by digging a hole about four feet deep, and those that are fond of fishand have plenty of fish and crabs. I was on the island four days and messed with the officers all the time, and am confident that not more than three men know where they are going. They say that they will leave next Saturday for some place where they will receive their equipments The Government vessels do not interfere with them at all .-The Water-Witch and Flirt have been lying off near Horn Island un'il yesterday, when the Water-Witch raised steam and ran up to Pascagoula. But for what purpose we know not. The Flut is at the same place, but I do not think she has any men on board of her.

TROUBLE AMONG THE INDIANS .- We learn from the Frontier Guardian, of the 5th inst. that Mr Reed, a gentlemean connected with the Missionary station at Bellvue, has returned to Keanesville. om a Journey into the north western country, some 200 or 400 miles, with the Omnha Indians, who were out on their Summer hunt. At this distance asy were in the neighborhood of the Pankas In dians. They were very successful in their hunt, killing and packing away about sixteen or twenty tons of buffalo meat. While there the Pankas surproced and killed three of Omaha young men, who had separated from their party. This was regarded as a declaration of war. The Omakas prepared themselves for the fight. They formed a circular breastwork of their skin-bags of dried meat, and intrenched themselves as well as they could. Just at surrise, on the 14th of August, the battle commenced and lasted until 8 o'clock. The Pankas then retired, having killed four Omahas and wounded eight or nine, but not mortally, and lost about a fourth of their dried meat and 45 of their best horses. It is supposed that 15 or 20 of the Pankas were killed - among them their head chief - altho' only two scalps were taken, the bodies of the others having been removed by the friends. This attack was made to punish the Omahas for stealing four horses two years ago. The Cholera is represented to have been very fatal among the Pawnees and to add to their calamities the Sac and Fox Indians were about to make war opon the remnant of them

Philadelphia North American, the Court of Common Pleas of this County, on Saturday last, made mon Pleas of this County, on Saturday last, made a final and absolute decree, divorcing the parties from the bonds of matrimony. The decree granting the divorce is in the following language:

"And new, the 9th day of August, in the year of our Lord 1846, the return of Thomas Dunlap, Esq. examiner of the depositions of the witnesses, taken ekire him on the part of the libellant, was presen and filed. Sep. 3d, 1849, on motion of George M. Dallas, Esq. rule to show cause why divorce should not be decreed-whereupon the Court, on the 22d day of September, 1849, after mature and solumn deliberation being duly made for the resposident to come forth, and she not appearing, they do order, adjudge and decree, that the said Pierce Builer, the libellant, be divorced and separated from the bond of matrimony contracted with the said parties by reason of the said marriage, shall henceorth cease and determine—and the said parties be severally at liberty to marry again, in like manner as if they never had been married."

FATAL AFFRAY IN MILTON, CANADA.-On the 17th inst. some cattle, the property of the mother of Mr. Watson, were tresspassing on the farm of a neighbor named Ingram, who took them to put in the pound, Some young men assembled to consider whether they should not rescue the cattle It supposed that Ingram believed that he had reas fear violence. He left his house in Granby. taking his son with him and went to watch his farm in Milton. . On the road he came near to two of the persons who had proposed to seize the cattle but they hid themselves behind a fence. Ingram's son discovered them. Wright ran away, but Ingram's son exclaimed, "here's another, shoot him!" lugram raised his gun, fired, and shot Watson dead. He is now in jail here.—Montreal Herald.

A COURT IN TEARS.—At Dedham yesterday, three Creeks were placed on trial for stealing a horse in Medway. From the inability of prisoners to speak English, Dr Howe of this city was called upon to act as interpreter. Une of the number on conviction, addressed the Court in extension of their offense, detailing the events of their lives, and the wrongs and sufferings they had endured in their own land. After they were recommended to go to California, to obtain means to do so, they stole the horses upon which the charge was brought The address being interpreted, threw the whole courinto tears.—Boston Traveller 22d.

There or skably has never been no popular a restory, or putern well into a program originally, and continues to be manufactured in this city, at first by the Doctor himself, and afterbards for evenary year, and to the present time by Clapp & Townsed, the present proprietors. Since the partnership was formed, the Doctor has resided in New York, where he keeps a store, and attende to the business that accumulates at that point. The manufactury is in this city, and is conducted by the junior partner, My Clapp—here all the medicine is manufactured.

Few of our citizens have now idea of the amount of this medicine that is manufactured as I sold. Solides the sales in the country, it is shipped to the Cannelas, West India Islands. South America, and even to Europe, in considerable quantities. At the manufactured as I sold. Solides the sales in the country, for whimself, over all of the preparation of the medicine, making boxes, printing, &c. &c., and turn out, ready for whimself, over 60 dozen par day or nearly 5000 hottles. This is an enermous quantity.

On. Townsexty's extraordinary afterthoment, which acceptes an entire page of the Sux, will not escape society. Its. S. P. Townsend, who is the original proprietor of Dr. Townsend's Saranparilla. and whose office is uset door to ours, where he has been for several years, is driving an immense business. He receives no less than four hundred densely of Saranparilla per day, and even this enormets quantity does not supply the denand. No medicine ever suised so great a popularity as his preparation of the Saranparilla. Ble adition of Almanaes for 1838 coat \$22,000, and he has paid the New York Sun for advertising, in the last four years, ever \$10,000, and he ack towleters that it is the changest advertising he has is a done. This medicine is exported to the Canulas, West Indies South America and Europe in considerable quantities, and is coming into general me in those countries, as well as here;

OH. D. JACOB TOWNBEND.

Some people who are not well informed, and have not read
the papers, and not seen our advertisements, have been lad
to suppose, that because these men advertise their and
of suppose, that because these men advertise their and
of one of their medicine. Ours has been in the market aver ten years.

Many think the above language is the plain, or severe. It's
is the treat; and we would leave it to the judgment of any
fair-minded men, if they do not deserve it. We have labored
for years, and expended hundreds of thosenach of deliars we
establish the reputation of our medicine. These men are endeavoring to appropriate the profits to themselves.

THES OLD JACOB TOWNBEND.

They are endeavering to palm off on the public as an obt'

never attempted to manufacture a medicine, until these men
hired him for the use of his name. They are not ensured the second the people to believe that their Saraparilla is corn or the
sime—but the better to decrive the public, they at the same
line assert that their's is the Old Dr. Townsend's, said the
original; and endeavor to make the people believe that the

THE LIFE, THE BLOOD,

The seat of all disease must be kept pure. A man with clear, well blood, coursing in his veins, may lough at the Cholora, or at disease. The system must not be reduced, sheeted or disturbed by physic, but quietly cleaned.

DR. S. P. TOWNBEND'S SARSAPARILLA

DR. S. P. TOWNSEND'S SARSAPARILLA will do this effectually. It not only cleaness and strongthes the system, but creates yith and pure blood,—the Lequer of Life. We do not say that this Sarsaparilla will cure the Cholera, but prevent it. This medicine his, by its extraorditury and wonderful effects upon disease, gained a reputation ever startly one-half of the globe, that is unprecedented. It is always and such beneficial to the sick and well, and is one pectally measured at this particular time, to prevent the Cholera.
