DR. TOWNSEN DIS SARSA FARTILLA.

There probably has hever been so popular a remedy, or petent medicine, as Dr. Townsend's Saranparilla, which was originally, and continues to be manufactured in this city, an sire by the Dector biaself, and afterwards for several years, and to the present time by Clapy. Townsend. the present proprietors. Since the partnarship was formed, the Dector has resided in New York, where he keeps a store, and attended to the besideness that accumulaters at that point. The smanfactored.

Free of our cirizens have any then of the amount of this medicine that is smanufactured at I sold. Besides the sales in this country, it is shipped to the Canadas, West India Islands, South America, and even to Europe, in considerable quantities. At the manufactory they employ a steam enjage, besides a large number of men, women and girts, in the preparation of the medicine, making better, printing, &c. ec., and turn out, ready for shipment, crost 400 dozen pw. day or nearly 5000 bottles. This is an enormous quantity.

The great sale the medicine has acquired, has indeped a sumber of men to ret up installons and there is at the present time, other medicines for sale, that era called "Dr. Townsend's Saranparilla," and apparently with a view, by dut of advertions up on New York, is caller "out Or. Tewassend, who is the original proprietor of Dr. Toe need's Sarsaparilla, and whose office is next door to sura where he has been for severally sura, is driving as immense business. He receives no less than four hundred dogses of Sarsaparilla per day, and even this obserned squantity does not supply the demand. No medicate ever gined so great a popularity as his preparation of the Farsaparilla. His edition of Almanacs for 1840 cost. 820 000, and he has paid the New York Sun for addertising, in the last four years, over \$10,000, and he sets towhedre that it is tochapest advertising he has had done. This medicine is exported to the Casaving West Indus South America and Europe in considerable quantities, and is coming into general use in those counters, as well as hors.

From the Golden Rule

The Odd Fellows paper publishes the following:

SARSAFARILLA—Among the numerous extracts of this highly menicinal root, for her Two wood's bears the palm of superiority. It is indeed an excellent family medicine, and having used it in our own family with decided advantage, we can recommend at with parfact success.

BRUGGISTS.

Is our opinion, any Druggist or shop-keeper who would sell the spurrous Sarsaparilla, because they can make a greater profit by it than they can by selling the genuius, and sell it for the original and genuine Dr. Townsond's Sarsaparilla, and decrive their customers, would commit any fraud few sensey. Such men have no bonor and should not be treated.

SWINDLESS.

Druggists or others that sell Sarsaparilla; that is not signed by S. P. Townsond, commits a fraud, and swindles the customers. Each that would be guilty of such as cat could conmit any other fraud—and no Druggist of camena intelligence but knows that ours in the only genuine.

S.D. J. A.COB. TO WINERED.

Some people who are not well informed, and have not read the papers, and of seem our advertisements, have been led

is suppose, that because these men advertise their steff so sold Jacob. Townsend's, that it must, of course, be the sergical. It is less that one year since they commenced to make their medicine. Ours has been in the market over ten years. Many think the above innungs is too plain, or severa, It is the truth; and we would leave it to the judgment of lay fair-missled men, if they do not despree it. We have labured for years, and expended hundreds of thousands of dellars as establish the reputation of our medicine. These men are endeavoring is appropriate the profits to themselves,

THIS OI, D JACOB TOWNSERD.

They are endeavoring to pulm off on the public as an old Physician. Ac. He is not a regular educated Physician and never attempted to manufacture a specicies, smill these mee hired him fer the use of his naine. They may they d. sot wish the people to believe that their Barsaparilla is ours, or the same—but the better to decrive the public, they at the same—into assert that this first is the Oil Dr. Townsend's, and the serignal; and andeavor to make the people believe that the stuff they manufacture, is the Dr. Townsend's Sarsaparilla, that has performed so many wonderful caree for the peat ten years, and which has guised a reputation which no other modificate ever impose—which is a bans, Wilstirous, apprincipled falsehood. We have commenced suits against these men for damages. We wish it to be understood, that the off must is no relation of Dr. Townsend, which we will not netice.

PALSE REPORTS.

FALSE REPORTS.

Our opposents have published in the papers, that Dr. S.

Townsend was dead. This they send to their agents about the centry, who report that we have given up biddiese, &c. &c. The public should be on their guard, and not be decrived by these upprincipled men. THE CHOLERA.

THE CHOLERA.

This disease, at the present, is regarded with intense injurest, as it is acknowledged to be in our immediate vicinity. Here, as in Europe, almost every physician has an infallable remedy for the diseased yet all are different in their effects said results. And it will prove here as in Europe, that at feast two thirds of all confirmed cases disc-and that it is a fact that cannot be controvisted, that there is no known remedy for this fatal accurge. One physician cays that it is quiet that cannot be controvisted, that there is no known remedy for this fatal accurge. One physician cays that it requires powerful catherica; one, that bleeding to faintness, is the only remedy; there mentates include letting is certain to kill, some physicians avoid all sentialans; and others say that Brandy is sertian to cure; wiffat the Quacks delare their Pilks to effer the Cholers in any of its stapes—which would, if taken as prescribed, be certain to hill any man or beast. The Cholers seems to be sent by Providence to force the people of the earth to be cleaned, and extraous. These are the only great PREVENTIVES.

It is acknowledged by all, that our streets, yards, collared and sinks shall be cleaned, and that personal cleanliness it is dispensable—but to rasers softy, the interpal system, the most wonderful, beautiful and delicate machine, and especially

the most wonderful, beautiful and delicate mechine, and especially

THE LIFE, THE BLOOD,

The sent of all disease must be kept pure. A man with clean, well blood, coursing in his veins, may laugh at the Chelera, or at disease. The system must not be reduced, snacked or disturbed by physic, but quietly cleansed.

DR. S. P. TOWNSEND'S SARBAPARILLA will detail this effectually. It mot only cleansed and strengthess the system, but creates rich and pure blood,—the Liegtor of Life. We do not say that this Saraparilla will care the Cholera but prevent it. This medicine has by its extraordinary and wenderful effects upon disease, gained a reputation store manify one-half of the globe, that is unprecedented. It m always are and beneficial to the suck and well, and is espectably accessery at this particular time, to prevent the Cholera.
