

OLD DR. JACOB TOWNSEND, THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla. Genuine Townsend Sarsaparilla.

Old Pr. Townsend is now about 70 years of age, and has long them known as the AUTHOR and DISCOVERIAR of the GENUINE OLIGINAL. TOKKNEND SARS APARIL L.A. Boing poor, he was compelled to limit its in india ture, by which means it has been kept out of murket, and the sales cir emiscribed to those only who had preved its worth, and known its value. It had renched the ears of many, nevertheless, as its value, it had renched the ears of many, nevertheless, as its value, it had renched the ears of many, nevertheless, as its value. It had renched the ears of many, nevertheless, as its value, it had renched the following these persons who had been headed of sorb divenses, and saved from death, proclaimed its excellence and wonderful HEALING FOWER.

Knowing, many years ago, that he had, by his skill, science and experience, devised an article which would be of incalruible advantage to in civil on the total when the means would be furnished to bring it into universal notice, when its inestinable virues would be known and appreciated. This time has come, the means are supplied this

minde in traing it into universal notice, when its inestifiable witness would be known and appreciated. This time has come, the means are supplied: this GRIND AVD UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for through sut the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Tom usend's, it improves with age, and sever chances, but for the better: because it is prepared on accomplice principles by a recentific mean. The highest knowledge of Unmustry, and the latest discoveries of the art, have all been forough. Into requisition in the manufacture of the Old Br's Sarasparila. The Sarasparila roll, it is well known to medical seen, contains many medicinal properties, and some properties which reconstitute on the content of useless, and others, which if retuned in preparing it for ne, produce formactition and soid, which is injurious to the ayelem. Some of the properties of Sarasparila are so well-tile, that they of tirely evaporate and are lost jo the preparation, if they are, not preserved by a recentific process, known only to those experienced in its manufacture. Morrower these volatile principles, which fly off in vapid, or as an exist houn, under heal, are the very exercited medical properties of the soil which here to it all its value.

This is so prepared, that all the mert properties of the Sar
saparilla root are dirst removed, every thing capable of becoming
acid or of fermentation, is extracted and rejected, then every
particle of medical virtue is secured in a pure and concentrated
form; and thus it is rendered measuable of losing any of its value
able and heating properties. Prepared in this way, it is made the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its fivor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DISEASE, and LIVER (ON-PLAINT, and in RHEUMATISM, SCROFULA, PILER, COSTIFENESS, all CUTI-NEOUS ERUPTICAS, PIM-PLES, BLOTHES, and all affections evising from IMPURITY OF THE BLOOD.

IMPURITY OF THE BLOOD.

It possesses marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from Inequal circula toon, determination of blood to the head, palpitation of the head, cold feel and hands, cold chills and hot flashes over the body it has not its equal in Colds and Congle; and promotes easy expectoration and gentle perspiration, relaxing structure of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged that in all kinds and stages of FEMALE COMPLAINTS.

It works wonder in cases of Fuor Albus or Whites. Falling of the Womb. Obstructed. Suppressed, or Painful Menses, Irregular its of the mensional periods, and the like; and is as effectual in curing all the forms of Kidney Discusses.

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cares all forms of

Nervous diseases and debility, thus prevents or followers a great variety of other includies spinal arritation. Neuralgia, 8t. Vitus' Dance, Swooning optic Fits. Convulsions, &c.

It cleanses the blood, excites the liver to healthy action, tones

haves all structures and tightness, removes all obstructions, and
invigorates the entire nervous system. Is not this then

The medicine you pre-eminently need?
But can any of these things be said of S. P. Townsend's infenor article? This young man's liquid is not in beCOMPARED WITH THE OLD DR'S,

system strendy diseased with acid! What causes Dysipsish but
acid? Ho we not all know that when food sours in our stora
achs, what mischiefs it produces? fintuence, heartburn, palpli

it acts? So of nervous diseases, of impurity of the blood of

Now is it not, norrible to make and sell, and disfinitely correto use this.

As S. P. But whatele should be expected from one who knows noth

READ THE OPINION OF HON. JOHN C. SPENGER.
After what I have stated, you will not be surprised
at the declaration of my opinion and firm conviction, that the liquid prepared by you is ONE OF THE MOST INTALUABLE DISCOVERIES IN MEDICAL ART, OF MOD-ERR TIMES ;-and that it will prove a most effectual remedy for all nervous affections, and a cure for inflammations, acute end chronic, when seasonably and properly applied. Further observation and experiment will be necessary to determine the best mode of its application, whether internally or externally, and the quantity to be administered.

Your ob't servant, Jour C. Serrera.
