HON. S. W. INGE,

Lashe House of Representatives. February 12, 1950 Admonished by the history of this Government. which is a narrative of aggressions by the North upon the South of faith broken and compromises disregarded in the onward career of power-I do not feel that it is incumbent upon a Southern Representative to offer any measure for the adjustment of existing difficulties. I have no mare percent ferings to lay at the feet of power, to be indignantly spurned. It a returning sense of justice should cat any time actuate the majoray to propose a settleent consistent with our rights and honor, they cannot doublits ready acceptance. Until that time. the appropriate discharge of my duty will lead in to expose the devices of fraud, to tesist the assaults

question. It supersel s an oil is on and pressuts a new one. The "Wilmot Proviso" is no locater the question of the div; it has given place to the * California Proviso," which is presented to this House and the country with the unqualitied on dorsement of the Executive. It is important that the people interested should be advised of that change and the in aives which prompted it. The open-defiance of the South to the 'W limit Provise.' and the sternly expressed determination to resist a at all hazards and to the last extremity," have awakened the Union-loving propensities of the Administration and its Northern supporters. The representatives of the North, with the exception of a few "distinctive free-soilers," are willing to aban-don—nay, have already abandoned—the "Wilmon to the support of the Executive recommendation; believing the South will resist the Wilmot Provide. with characteristic discretion t'ey recode. On the Wilmot plovisor, and that your objects can the acother hand, the South are not committed against the present admission of California as a State, and it is believed that, with the whole power of this Administration exerted in its fevor, and by an invocation to the party projudices of our people, the Administration party everywhere will support that union for southern mon-opposition to the declarat the Constitution and the South.

these two measures. The second of the spents, the ciuzens of the South, with their property, from and according assured resistance. propriates the common property of the several sevcreignties composing the Union to the exclusive u.e. and occupation of the people of the non-slaveholding States, and is enacted by Congress primarily. The California Proviso is the same thing, herrally and in substance, incorporated into a so-called constitution, and Congress is recommended, by the present admission of California, to exact it secondar The message clearly assumes that the people of the slaveholding States have to tradity in these Territories, and recommends the latter measure I trust that the remarks I have felt constrained

policy of the Administration, will in no degree be attributed to partizan opposition. My object is to discuss the question of the rights of the South in the Territories of California and New Mexico, in its present aspect-to show that the "Wilmot Proviso" has been superseded by the Executive recommendation which the South may and will defeat, if they meet it with firm, united, and determined resistance Regarding this as a practical question, I shall insist not only upon the abstract right, but the actual usufruct of the South in this common property; and Packnowledge no party obligations which can restrain me in demanding both. No dangers which threaten the dissolution of parties or the Union are terrible enough to justify a further sacrifice on ou part. I appeal to the Constitution, and demand f my section the right to carry negro-slaves upon the land upon which they are joint tenants. To those who are disposed to resist my views, I commend a more attentive reading of that instrument. They will find that it notonic guaranties slavery where it exists, but provides for its extension. In the apportionment and taxation, thereby contributing fleeted humanity than "Myers' Isiquid Cure." We two of the great elements necessary to republican know that this is saying a great deal, but if we were

roice, and money for its support. To extend the institution indefinitely, it prohibgittres who escape to ron-slavillelding States Notwithstanding these plain stipulations between the slaveholding and non-slaveholding States, constituting the essential, vital provisorus of the Constitution, without which all admit the Confederation could not have been formed, we are cantingly told that" slavery is a sin, and the North is opposed to us extension," "We, the philanthic press of this day, are better than the sages and heroes, purified by the trials of the Revolution and covered with its glories, who assembled in the old hall of the Confederation in 1797." I have no reply to make to make to these pharisaical pretensions; they are beneath contempt: I am content with the religion of of the Bible, and the Constitution of our fathers, incorrupted by the comments of the pseudo moral ists and statesmen who now shed their coruscations upon us. I shall certainly not condescend to reply to the puling sophistry upon this subject so often neard in this House. Were I disposed to argue the question of slavery, without reference to the Conentation, in all its relations, religious, moral, social, and political, no fear of its successful vindication would restrain me. It would seem to le profanation to call an institution of society irreligious or immoral, which is expressly and repeatedly sauctioned by the word of God; which existed in the tent of the patriarchs, and in the households of His own chosen people; and a perversion of the truth of history to denounce that institution as a social or political evil, which has existed in all the free states of antiquity, and is inseparably connected with the arts and arms, the science and literature, the painting and statuary of Greece and Rome—upon which was erected a civilization which lit up the ancient world, and now illumines our own! Bir 12 our country we have the most striking and brilliant illustrations of the benefits of slavery, in the vast areas redeemel from the wilderness, where malaria forbade the emigration of whites, and which now teem with the production of southern stapies; in the targe assumed of valuable exports, the products of slave labor

which freight the keels of commerce to every harbor of the world, and bring in return imports of corresponding value; in the individual prosperity and happiness of our people, without example in any ther social organization; in our political stability where no armed police is necessary for the suppression of mobs, and the mace of the civil magis

trate is omnipotent. Upon all these points, however, northern representative- pretend to differ with us, and insist upor the right to exclude the south from the common property. It remains to be seen whether the South will meet the "Cahfornia proviso" with resistance "at every hazard and to the last extremity," as she did the "William proviso." I am unwilling to tive under the Union without the Constitution; the North cannot the and doursh without the Calon. Much to they hate Siavery, they live the Union more, and are willing to go no further in their aggressions than is consistent with its duration. This is serikingly illustrated in the history of the," Wrimot pro-

Upon the first introduction of that measure in the 29 a Congress, it received the sanction of this House of power, and to defend the South, by whomsover as it did at every succeeding session until the prethe table by the votes of those known to be pledged the exclusion of slavery from every foot of the ourmon domain. With the representatives of the North attempt, by the power of numbers, to entrage the Constitution and degrale the South by the admission of this To more as a State without the offer of some equivdent! I suggest to them to remember that we are swern to support the Constration, and could scarcea silve temp accomescence, and witness its comed shanetal violation. The attempted consum is tion of such an act would be the overthrow of the Co stration which the people we represent round resist into the fast extremity? from obvious reasons of political experiency, as mere as the representatives of the people, but are the preferable mode of exclusion. In the opinion, our obligations to the Constitution, and the South of the Administration, the question now is, not less than those of other individual cuizens, who, in whether the South shall be excluded, but in what the azzrezate are the people? We assume addition-manner it shall be done. I must be permuted to all obligations when we come as representatives: decline the discussion of a false issue; to insist up 1 but are we relieved from those which rested upon on my right to be heard upon the meriss of this as as a private crizen? Ny individual opinion is question; and to protest, in the name of the south- that if the southern people ought to resist a measern people, against this prejudgment of their the of aggression, and its consumeration, we here are under the same or frigher obligation to resist its con-unimation. Pills become an Alterative Medicine, of great searching effleacy, for the cure of Sores of all kinds, Tetter, ore, Joundice, Lowness of Spirite, Neuralgia Rash, Pains in the Bones, &c.

These Pills also thoroughly break up Influenza, in which complaint they are extremely valuable. In Bilous Complaints, these Pills exercise a complete nastery. Hence Pever and Ague is speedily cured by the use of them. In the Western and Southern States where this disease mostly prevails, these Pills go like an avalanche. While they are cheaper than the fever and ague remedies in general, Wrights Indian Vegetable Pills have been pronounced superior to all of them. Indeed, it would appear that if there is one complaint over which these Pills have more power than another, it is Fever and Ague.

For destroying and expelling Worms, no Vermifuge o these Pills. Although we have not taken pains to make this fact public, the merit of the medicine itself has acquired for it an extensive reputation and sale for the removal of Worms. Administered to adults or children, the effect of the Pills is equally radical and decisive. All who suffer from Worms should, by all means, use Wright's Indian Vegetable Pills.

In fact, no one can go amiss in the use of this medi cine. They are natural to the body as food is. A tria will convince the skep ical that Wright's Indian Vegetable Pills, far from being a "quack nostrum," are decidedly the most valuable medicine ever offered to

There is a Spraparilla for sele in the different town called ald Dr. Jacob Townsend's flaraparilla. It is advertised at the original, &c. This is a notorious flatehood. Dr. Townsend has expended over \$200,000 the last sight years, is all serting his Sarsaparilla, which has obtained a character and reputation throughout the United States, and a greater part of the world—the sale being entormous.

This excited the copidity of cyrtain unprincipled mea, and an old man, who has been engaged in pedding cheap publications for a number of years. This man's name is Jacob Townsend. He applied to a number of men to syst engloyment or to selt the the of his same to put up Dr. Townsend's Sarsaparilla, stating the large sales and sums we had expended in advertising, as an indensenent to embark in the business. Among others, he applied to Charles Watrous, pended in advertising, as an indensenent to embark in the business. One of their Tricks.

They say that Dr. Townsend's Saraspariils sours and to mention-this is falso; as we have kept it through the whole year in New Orleans, Texas, Mexico, and South America, and the West Indica,—in fact, the older it grows, the better is becomes. We made a few bottles by mistake, last Spridg, that speided. Thus we regretted, and exchanged as soon, as possible, such an accident will never occur again. This tiey attempted to make a great story of and say that the whole of our Sarasparills sours, &c., when they are aware that tury are publishing falsehoods.

Since the partnership was formed the Doctor has resided in Newsfork, where he steeps a steen, and attends to the lusioness that accumulates at that point. The manufactory is in this city, and is conducted by two junior partner, Mr Coppe—here all the medicine is manufactured.

Few of our cickness have any idea of the amount of the medicine that is manufactured and sold. Bostiles the sales in this country, it is shipped to the Canadas. West India Islands. South America, and even to Europe, in considerable quentions. At the medicine, making bowe, priming, &c defined and twen out, ready for shipment, over 400 dozan per day or marly 5000 hottles. This is an enormous quantity.

The great sale the medicine has sequired, has induced a number of men to zet up instations and there is at the present time other medicines for sale, that are called Dr. Townsend's Saranparilla."
