

Agricultural.

Hymn to Farmers.

Plough on ye vigorous sons of toil—
G'd noblemen who feed mankind;
Your calling is to till the soil—
The noble works of hand and mind.

Agricultural Investigations.

Exercises of the mind, in following up the
course of nature, and the processes of cultivation,
are of vast benefit. When the various crops in the
field are made matters of study, they possess a value
and interest distinct from the amount of money
they bring in. They become one's teachers; they
give in lessons to be treasured up and used; and
it is those who seek to learn and benefit by
those lessons, who really are intelligent and ex-
emplary farmers. A few, by dint of unwaried
toil, from year to year, and by a strict punctilious
economy, may get money and be too without ob-
serving any lessons, excepting a few brief ones
which were inculcated by others while they were
young. But those who seek to till the old way, thin
and thin, and far from other means than that
because it is the old way, are not good farmers; they
are like more than common laborers, who by dint
of perseverance get some money, but little else
worth having. We are not inculcating the old way,
but only saying they should be compared with
others. That the old way in many cases, the best
is undoubtedly true. It is only by comparing them,
that one can satisfy himself fully and properly
which path will lead him most directly to the desired
object.

In your corn field, when plants lie deep in the soil
or when put in the surface? Does the cornfield
yield a better crop, when you spread all the manure
in a row, or whether you put a wholly or in part to
the hill? Is it best to make large hills or small? How
many hills upon the acre, give the largest crop?
Is it best to plant in hills or in drills?
For potatoes, is it best to spread all the manure?
Or will you put it in the hill? If in the hill, will you
have it below or above the seed? Are hills or
drills best? Do you put the seed deep in the earth
or do you keep it near the surface?
Is grass-seed best sowed with grain the spring?
Or will you sow it in August or in September? Or
will you sow down to grass with your wheat,
whether in spring or fall? Will you simply turn
your bound-up grass-land, or plow and put on
grass seed? Which, of all these, is the safest or
most profitable?

Should your manure be plowed under the soil, or
will you, after plowing, put it on the top, and harrow
it in? Do you find the most benefit from it
when you use it from the barn, or when you let it
ferment and pulverize before it goes upon the land?

These and a thousand other questions are dis-
putable, and correct answers to most of them, you
must learn, by observations upon your own land
and the lands of your neighbors. If we will but
use our experience, and our common sense, in
connection with books, we shall find the books to be
valuable aids.—*Mass. Farmer.*

To DISTRIBUTE CUCUMBERS—I take other papers
because they instruct and amuse me; but I take
the Agricultural because it teaches me how I am
to pry for all. But to the point.

I was quite successful in my first essay in
spring in forcing tomatoes, Cabbages, &c. In May
I commenced transplanting them into my garden.
Beautiful plants they were, and as I grew them
myself, I felt quite proud of them. A day or
two after this upon going to my garden, I found
the tomato that had destroyed them, smashed their
heads, and a plague! But of them that were again.
I could kill the rot worms, but that did not replace
my plants. A new idea then struck me. I pulled
a low handful of clover, and by a small quantity
at the base of each plant, put the clover a chip—
By this simple contrivance, I trapped the whole
brood of rascals, and saved my plants.

The philosophy of the thing is this: the cut
worm prefers the green clover, which will keep
so for about a week, under the chip, and every day
or two you can hand the worms which collect
there, over the tender meries of the old hen and
chickens. The trouble of doing this is much less
than replanting.

Creepers—We advise those who are desirous
of obtaining this excellent fruit in perfection, to try
the following plan, which is highly recommended
by many, and which is said, by some, who have
tested its efficiency, to be attended almost invari-
ably with flattering success:—

As soon as the temperature is sufficiently mild,
cut out a few loads of old well rotted chip manure,
and spread it evenly on a patch of green sward—
say one or two inches deep—and plant the seed
the same as in garden soil. The hills may be four
feet apart, and if you have a sufficiency of manure
completely to cover the entire surface, drop one
or two bushels in a place where the hills are to be,
and leave the spaces intervening uncovered. The
vines will grow with surprising vigor and luxu-
riance, and the fruit, resting on the clean grass, is
easily plucked, and never defiled by the dirt. As
soon as the plants make their appearance, spread
over them a thin coat of cotton wadding, and prevent
its being removed by the wind, confine it in its
proper place by wooden pins. The tightness of
the article enables the plants to grow without hind-
rance from its close contact, and to derive the neces-
sary principles from the atmosphere will the same
facility as though they were exposed to it without
protection. We request our agricultural friends,
one and all, to make the trial of this method,
and establish the results.

To TRAIN A HORSE TO THE HARNESS—You must
be very gentle with him. You may commence by
throwing a rope over the back and letting it hang
loose on both sides; then lead him about, carees-
ing him, until he becomes satisfied that it will not
hurt him; then put on the harness.

and all diseases of Throat,
Breast and Lungs, the
most effectual and

any of the
above diseases.

Dr. Swayne's Compound Syrup of Wild Cherry,

RELIABLE TESTIMONY.
Jan. Milton Early, editor of the Worcester Spy,
Mass., was attacked with a severe inflammation of the
lungs, accompanied with a distressing cough; after
using all other remedies with little or no benefit
by the use of one bottle of Dr. Swayne's Compound
Syrup of Wild Cherry, he was restored to perfect
health.

Wm. Moulton, a respectable merchant of St. Clair,
Schuykill county, writes, January 30, 1845.—Burred
I send you a certificate of Wm. Moulton, a citizen
of this county. His case of consumption is well
known here, and of long standing; he attributes his
cure entirely to your Compound Syrup of Wild
Cherry.

IMPORTANT CAUTION—READ! READ!

There is but one genuine preparation of Wild Cherry,
and that is Dr. Swayne's. The first one offered to the
public, which has been largely throughout the U. S.,
and in some parts of Europe; and all prepara-
tions since called by the name of Wild Cherry have
been put out since this, under cover of some circumstances,
in order to give currency to their sales. Each bottle
of the genuine is enveloped with a beautiful seal en-
graving with the likeness of William W. Swayne, the
author, and his signature, and as a further security,
the portrait of Dr. Swayne will be added hereto, so
as to distinguish his preparations from all others.

G. SWAYNE'S CELEBRATED VERMIFUGE.

A safe and effectual remedy for Worms, Dyspepsia,
Cholera Morbus, sickly or Dyspeptic Children, or adults,
and the most useful Family Medicine ever offered to
the public.

This Vermifuge is one which has proved successful for
a long time, and it is universally acknowledged by all
who have tried it to be superior (being so very
pleasant to the taste) at the same time effectual to any
other medicine ever employed in diseases for which it
is recommended. It not only destroys worms, but it
invigorates the whole system. It is harmless to the
stomach, and the health of the patient is always improved
by its use, even when no worms are discovered.

More Good News for THE SICK.—Anderson,
Indiana.—Dr. Swayne.—Dear Sir: All your medicine
will sell, and give good satisfaction. Your valuable
Compound Syrup of Wild Cherry has been the means
of restoring some hopeless cases in this section.

Your Pills are most effectual. I want you to send a
quantity of them. A man purchased a bottle of
your Vermifuge the other day for his child, and by its
use it discharged 60 of the largest worms he had ever
seen. It is somewhat difficult to get the people to try
it, as they have so often been gullied by nauseous and
worthless worm medicines. Your pills are the best I
know of to take, at the same time effectual, I shall be
able to dispose of a large quantity. Respectfully,
yours, &c. TOWNSEND T. SHAW, P. M.

To Dr. Swayne, N. W. corner of Eighth and
Race sts., Philadelphia.

Remember! the genuine is now put up in square
bottles.

Dr. Swayne's Sore Throat, Sore Throat, Sore Throat,

can be appreciated only by those who have used them;
they are adapted to assist nature in carrying off morbid
matter, obstructions, impurities of the blood, &c., &c.—

tropical affections, they are very valuable, and should
be in every family. They have an outside coating of
pure White Sugar, whereby everything disagreeable
to the taste or smell is entirely removed, without the
least affecting the excellent qualities of the medicine.

Remember! they are now put up in boxes, turned out
of the solid wood, covered with a red label, bearing the
signature of Dr. Swayne. None other is genuine.

The above valuable medicines are prepared only by
