## the miller's maid.

There is a lonely mill, close beside the little hanlet of Udorf, near the Rhine shore, between the villages of Hersel and Ursel, on the left bank below Bonn. This mill is said to have been the scene of the following flory :

h was on a Sunday morning, "ages long ago," that it e miller of this mill, and his whole family, went forth to hear the boly mass at the nearest church in the village of Hersel. The mill, which was also his residence, was left in charge of a servant girl named Hannehen, or Jenny, a stout hearted lass, who had long lived with him in that capacity. An infant child, of an age unfit for church was left in her charge likewise.

The girl was busily employed in preparing dinser for the return of her master and family, when

ing sofily along the passages, she specifily gained the door of the chamber unseen by him and likewise unheard. It was but the work of a moment for her to turn the key in the wards and lock him in. This done, she rashed forth to the outer door

of the mill and gave the alarm. "Fiv! fly!" she shricked to the child, her

She sat down on the stone bench by the mill doosto ease her over excited spirit: and she wept, as she sat, at the thoughts of her happy deliverance.

"Thank God! she ejacolated, "thank God for this escape. Oh! the deadly villain! and I so fond of him, too !!

A stuil whistle from the grated window of the chamber in which she had shut up the roffian Heinrich, caught her ear, and made her start at once to her febt.
