Hymn to Farmers.

Plough on ! ye vigorous sons of toil-Tot's noblemen who feed mankind: Your calling is to till the soil-The noblest works of hands and mind.

Commissioned by the seal of God, Turn ye the stubbern glebe with pride; For at your will shall forests not. And earth to thee its fruits confide.

Heaven's chosen almoners offearth, Your moistened brow shall bless mankind: And as ye send your hunters forth. To each shall his own blessing find.

Toil on and raise your standard higher, And let the cry be. " Higher still?" Tis emulation fans the fire, And keeps alive the stundy well.

The mace of power, let others wield Your taler's spread upon the soil; And God (ball give a bountions yield, And well reward your faithful and

BUCKWHEAT.

In the United States, buckwheat is sown imme diately after the crops of wheat, is e and oats and taken off, the stubble being turned under. The plants are very tender, and sofer from the leas frost, and also hom the scorehog rays of the sun The growth is very lapid, and even on poor sandy soils tolerable crops are often obtained in little more than two months after sowing. The soils best adapted are the loose, mellow sandy and dry. In the state of New York buckwheat is frequently sown about the first of August, along with winter jurday. wheat, affording a tipe clop in the fall, and taken oil wahout material mjury to the wheat that succeeds it. When broadcast, about one bushel is Boat CORNING, Capt. E. H. CALEB, sufficient for an acre ; half of this quantity will answer when drilled. In harvesting, it is either pulled up by the roots, which saves much loss of seed or mown with a scythe. In either case it is bound up in sheaves, and left a considerable time in the field, to secure its drying and prevent heating, to which it is very liable, especially if put into large stacks and closely housed. From thirty to forty bushels per acre is considered a good crop. But this amount is, under lavorable circumstances, sometimes doubled. The buck wheat flour of Pennsylvania and New Jersey is in high repute, especially in the middle and southern States. That from New Jersey is much the lighter color- a quality de , GLORIOUS NEWS TO THE PEOPLE ! rived from an admixture of corn ground with it, in the proportion of a tilth or sixth part. This corn is raised for the especial purpose, being very soft and extremely white.

In some parts of Italy they mix buck wheat with a certain portion of barley and grind it into flour, the bread made from which retains its moisture! and freshness much longer than the common bread made from wheat flour. Though dark colored, this bread is much relished by the natives. In Germany a coarse grained meal, or grits, is made of buck wheat, much used in thickening soups, mak. duals wanting a superior article of ing puddings &c. The Germans also mix it with malt, and brew a kind of beer or ale from it. By distillation a very excellent spirit is obtained, which | England is from this gram.

Buckwheat is excellent for cows, pigs and poultry. When led to pigs, it is best to mix with pot. toes, or some other kind of food, otherwise they are apt to be affected with cruptione. Cows yields berys an abundant supply of matk, when fed on buck wheat has, provided this has been cut during the tender and succulent state of the plant, and proper ly cured. Some farmers have thought it even superior to tanothy hay, for milch cows. Sheep, when fel on buck wheat in blassoms, becom

my

and for the benefit of my afflicted fellow beings, I de-sire to make known a short description of my disrase, and the onexpected ruw I obtained from 8CHENCKS

afflicted wit 1 a violent cold, which settled on my breast

and side, and every few days would raise considera-

ble blood ; my calugh was tight and distressing. Every day I had violent fever creeping chills, and profuse sweats at night, with great difficulty of breathing and

gneat loss of appetite; my system was entirely pros-trated, being confined to my bed most of the time.--

Two of the most emment physicians of this city at-

tended me, and after exhausting all their skill, pro-

lungs were almost gone, and I could not possibly re-

cover. At this stage of my disease, I was prevailed

upon to try Dr. Schenck's Pulmonic Syrup, and before I had taken half a dozen bottles, was so far recovered

us to be to go about the house. It seemed to strength-

en my whole system-it loosened the cough and stop-

pod the bleeding-my bowels became regular, and

overy thing I ate, seemed to digest easily and nourish my whole system. Indeed, such was the rapid pro-

gress of my health and so sudden the change, that I

became too sanguine of a speedy cure, and abandon-

ed the use of the medicine before the disease was thoroughly eradicated, which resulted in another attack

of bleeding at the lungs last fall, accompanied by a dis-

tressing cough. I again commenced taking the Pul-monic Syrup, and sent for Dr. Schenck who, upon a

careful examination, advised me to continue using it. Before I had taken four bottles, an abscess formed in

my side, which gathered and broke, discharging, as near

as I can judge, a pint of very disagreeable yellow mat-ter. This seemed to cleanse and purify my whole sys-

tem, Prom this time I began to get better, and am happy to say entirely recovered. I am sure at this tume I enjoy better health than I have for the last ten

up, I have never failed to recommend it wherever I

went, that others, as well as myself, might be saved saved from that awful disease; for I feel it a duty f

owe to the afflicted to publish it to the world. Permi

me to mention a few cases which have come under my immediate observation. Being on a visit to Camden,

N. J., last summer, I saw & child, evidently in the last

stage of howel consumption. The mother informed me that the physicians had given the child up as in-curable. I told her what benefit I had received from

the use of Schenck's Pulmonic Syrup, and induced

her to procure a bottle. I heard nothing more from

the little sufferer, nntil about three month after; being

in the market, my attention was drawn to a lady who observed me very attentively. She finally approached

me, and saked if I was not the lady who recommend-ed Schenck's Pulmonic Syrup to her dying child last

that her child had entirely recovered, and was uncom-monly healthy. Her name is Mrs. Wilson, and now

resides in Bridesburg. Another faily I would mention in particular, who had a scrofulous affection. Her face

and neck presented one continued sore, and one of her

eves was seriously affected with it. She had become

greatly emaciated, and to all appearances past recovery.

induced her to fry Schenck's Pulmonre Syrup, which

she did, and is now perfectly cured. Another lady,

I prevailed upon her to try the Pulmonic Syrup. In a

very short time she was entirely recovered, and now en-

joys excellent health, having become exceedingly fieshy

These are three cases within my knowledge, which I

know were cured by Schenck's Pulmonic Syrup, All

who doubt this statement, and will take the trouble to

call on me at my residence Parrish street five doors

above tenth north side, I think I will be able to satis-

knowing a great many that have taken it, and have

been greatly benefitted thereby, and I think if persons

afflicted with Consumption or Liver Complaint, would

end for Dr. Schenck, and let him carefully examine their lungs, and if he says he can cure them, follow the

directions, and prevent taking cold, they will rapidly

A mild and effective purgative, great purifyer of the blood, they correct all the functions of the liver, and

as an alterative in Dropsical affections they are very valuable. Giddiness of the head, dimness of sight, depression of spirits, headache, &c., are cured by these purifying Pills. Remember always to inquire particularly for Dr. Swayne's Sarsaparilla and Estract of Tar Pills. See that the signature of Dr. Swayne is on each Box. The above valuable medicipes are prepared only by Dr. H. Swayne, corner of 8th and Race streets, Philadslphia, to whom all orders should be addressed.

I shall be glad to communicate with any person or

toxicated, so as to tumble and tumble about.

Buckwheat is often sown or exhausted land, for the plowing under of a green manuse. . We can- he may be favored. not," the editor of the Thestic of Agriculture, " too much recommended, after our old and constant (pactice, the employment of this precious plant as a manure. It is certainly the most economical and convenient the larmer can employ. A small quantily of seed, costing a mere trifle, sows a large surface and gives a great crop. When in flowers, first toil, then plow in, and it is soon converted in to manure."

Another purpose to which this plant has been applied, is in the act of dying wool, etc. An in the from the succulent stems and blos-. . s with the addition of preparation of bismuth of and all local inflamation, curing all sores, burns, bruian, is made to produce a beautiful brown colo .--From the dried thowers' different shades of green are obtained. The Scherian of buckwheat viells a tine yellow, which upon boiling the wool still longer in the dye the figes into a golden tint, and at leng h becomes a beautiful vellow - Mudd Courser.

Woon Houses .- There is no convenience attached to a farm'establishment of more importance than the workf-house. It need not be an expensive saugure, although both convenience and economy squire that its size, and the materials of which it is "med, should be adapted to the size of the family. As a general thing, it should be a good-lesise and Willey Franklin. having less nor more. No tools or farming immements should be housed there, for these require a separate place ; nor should the hog have his quarters in one end. The fuel required for the use of the tamily, of whatever kind or description, should always be found here in ample abundance, and at no time should there be a deficiency either as regards the quantity or quality of the same. Dry wood-where coal is not used-should be kept constantly on hand the year round, and in order to secure this convenience, a wood-shed of ample dimensions is utterly indispensable .- Germanteurs Telegraph.

EARLY THRESHING .- Farmers who thresh their wheat and other grain early, can take advantage of the market at any time. They are always ready for a good price. Not so with the dilatory man, His success, if he have any, is of course accidental. Therefore, the shrewd farmer will thresh his grain at the earliest period, and he will be prejared to sell whenever the price is the best .- Germ atown Lilegroph. .

TOMATO CATSUP-Use one pint of good sall to one peck of sound, ripe tomatoes. Bruiss them, curing that article will and shall be satisfied. A good and let them stand two days :shon strain them dry, and boil the liquor until the scum stops rising, wo ounces of black pepper, the same quantiby of spice, one cance of gauger, one of cloves and the ownee of mace. A LTOUGH many preparations in th form of " Popu-lar Medicines," have been before the public, claiming to give relief, and even cure the most inveterate es, yet none have so well answered the purpose as Dr. Sherman's Medicated Lozenges. They are agreesble to the taste, easily administered, and from the unprecedented success which they have met with, and the remarkable cures which they have performed, may justly lay claim to the title of *Conqueror* over the di-seases for which they have been recommended. Dr. Sherman's

"COUGH LOZENGES"

Cure the most obstinate cases of Cough in a few hours. They have cured a large number of persons who have been given up by their physicians and friends, and many who have been reduced to the verge of the grave by spitting blood, Consumption and Hectis Fever, by their use have had rose of health restored to the haggard cheek and now live to speak forth the praise of this invaluable medicine. Dr. Sherman's

"WORM LOZENGES"

Have been proved in more than 400,000 cases to be in-falliable, in fact the only certain Worm Destroying Medicine ever discovered. Children will eat them Then they cannot be forced to take any other medicine, and the benefit derived from the administration of medicine to them in this form is great beyond conception. When the breath of the child becomes offensive, and there is picking of the nose, grinding of the nose, grinding of the teeth during sleep, paleness about the lips with flushed cheeks, bleeding at the nose, headache, drowsiness, starting during sleep, disturbed dreams, awaking with frightning screams, troublesome cough, awaring with regulating electric, industriate cough, feverishness thirst, voracious appetite, sickness at the stomach and bloated stomach-these are among the many prominent symptoms of worms, and can be relieved by these incomparable Lozenges. They have never been known to fail. Dr. Sherman's "CAMPHOR LOZENGES"

Relieving headache, nervou s sick headache, palpitation of the heart and sickness in a few minutes. They cure lowness of spirits, despondency, faitiness, conic, spasme, cramps of the stomach, summer or bowel complaintsthey keep up the spirits, dispel all the distressing of a dissipation, and enable a person to undergo great men-tal or bodly toil. Dr. Sherman's

"POOR MANS PLASTER"

"POUR MAINS FLAGIER Is acknowledged by all who have ever used it to be the best strengthing Plaster in the world and a sovereign remedy for pains and weakness in the back, loins, side breast, neck, limbs, loints, rheumatism, lumbago, &c. One million a year will not supply the demand .-
