more forage to carry them well through till May. than they will if properly housed and fed. In addition to this their manure can be all saved and turned to a valuable account next season. By all means keep your dung heaps ünder sheller, that they may lose nothing by leaching. Cattle, horses, hogs and sheep are most profitable, when one is sure that he saves from the impossibility of loss all the matter voided by them in the course of the

fall and winter. The excretions formed by the consumption of one hundred pounds of corn, oats or hay, will add one hundred and fifty to two hundred pounds to the com, out or hay crop of the next year, if skillfully managed. The first thing is to save and make all the manure one reasonably can, and then study to obtain the largest practical gain from this raw material applied to the soil. Not a year passes in which tertilizers worth seven millions are not wasted in the United States. Think of the immense losses. and set a better example to your brother farmers. Demonstrate to them that you save every pound of dung and urine that falls in your stables, yards, and fields -

While preparing for winter forget not to add few choice books to your agricultural library, for the whole family to read and improve in useful knowledge.-Hudson Democrat.

Treatment of Hay.

Hay, in England, is scarcely ever put in barns. It keeps well in stacks, made up as they are, in the neatest manner, and carefully thatched with straw. Nothing can be more beautiful and workmanlike than the manner in which these are made up; and for hay the long stacks are decidedly preterable to those of a round form, as it is cut down for use, in such case, with more advantage. The Buffato formation of a stack, which is often done by women, is a work of much skill, which is the fruit of practice; the thatching of a stack in the best manner. requires art and experience, and there are men who make it a profession.

When well executed, the hay for years is impervious to wet. During the formation of the stack -which, when intended to be large must sometimes wait for several days the progress of the haymaking-the most careful farmers have a large tarpaulin or canvass covering, to suspend upon poles over the stack, in order to protect if from the rain, I refer to these minute circumstances, to illustrate the extreme carefulness with which many of the operations of husbandry are here conducted. When the hay is to be used, the whole stack is never temoved to the stable at once, but is carefully cut down as a loaf of bread might be cut, and always done up and bound in trusses, intended to be of 56 pounds each, and in that way carried to be distributed to the animals. This requires some extra labor, but the farmers find their account in it. How different is this from the careless, wasteful manner have often seen horses and oxen Manding kneedsep in the litter of the very best hay, which has bery. The Towarda, June 4, 1850. consequence of this extraordinary painstaking is the most economical management of their products. The animals have a regular allowance, and not at TTHE SUBSCRIBER, having now completed his one time surfeited and another time starved; and not a handful of hay is wasted. I have not understand the folly of wasting that which is the product of severe toil and expense, and the immorality of throwing away that which the bounty of Heaven bestowed for the comfort and sustenance of man and beast. I once heard a minister say, in his sermon, that some persons were charitable in spots. I think, in a similar sense, it may be said that some persons are economical in spots, and that many persons who will chaffer and higgle half a

GLORIOUS NEWS TO THE PEOPLE

WILLIAM HAYDEN, grateful for the liberal pa-W transge he has received since his commence-men: in business, would inform the people of Bradford county that he has just received direct from New York a la ge supply of

Dry Goods, Groceties, Liquors, Ready made Clothing, Bools and Shoes, Cigars, Sc.,

all of which he offers for sale at an exceedingly los price for cash. Having extraordinary facilities of pur-chasing, and such as few in country towns can acquire he flatters himself that he can and will make it the interest of those wishing to purchase to give him a cal efore purchasing elsewhere. Landlords and Individuals wanting a superior article of

we would call your special attention to those old Otard Cogniac, Champaigne and American Brandy; pure Holland and American Gin; old Jamaica and St.Croix Rum; fine Port, Sherry, Clarct, Maleira, Malaga, Gia-ger and Raspherry Wines; a few baskets Champsigne, superior article, still on hand. We are determined to put our Liquors down to the lowest figure, being de-sirous to quit the luquor business. Our terms are in which things are managed with us, where I all cases, Cashor Ready Pay-and no second price.-Bridge sts., in the store formerly occupied by J. Kiugs-bery. W.M. HAYDEN. LACEYVILLE HOTTEL ?

the popular ones, but this stands un-rivalled for the cure of the following discases, viz: Influenza, Cougha, Colds, Consumpion, Spitting of blood, Palpitation of the Hear Whooping Cough, Tickling or rising sensation in the Throat, Bronchitis, Asthma or weakness of the Nervons System, or impaired constitution from any cause,

and to prevent persons from falling into a Decline, &c. &c., this medicine has not its equal.

ANOTHER HOME CERTIFICATE. Great cure of Euwann Havson, Engineer, at Mr. Petits' Factory, corner of Ninth and Wallace sta, Spring Garden. More substantial evidence of the wonderful currative properties of Dr. Swarsk's Com-pound Syrup of Wild Cherry.

PHILADELPRIA, April 16, 1850. Dr. Swayne-Dear Sir-Being severely afflicted with a violent Cold and Cough, which settled upon my lungs, attended with great difficulty, soreness in my side, that I could scarcely breathe, spitting of blood nn appetite, could get no rest at night, owing to the severity of my cough, would spit as much as a pint of blood at a time. This mournful state of things continued until I almost despaired of being cured, having tried physicians and numerous things without relief; but having heard of the great virtues of your Com-pound Syrup of Wild Cherry, and its being approved of by physicians of the first eminence, I concluded to make a trial of it, and am happy to state that three bottles performed a perfect cure; my sleep is now un-disturbed and sweet, and I firmly believe that to your medicing I am indebted for this great cure. I shall be glad to communicate with any person on

the subject who may be pleased to call on me, and cor-roborate what I have said in the above certificate, at

T Be very particular to get the original and only aine preparation of Wild Cherry, as prepared by Dr. Swayne, N. W. corner of Eighth and Race streets Philadelphia ; all others are " flectitious and counterfeit."

SWAYNE'S CELEBRATED VERMIFUGE. "A safe and effectual remedy for . Worms, Dyspepsis, Cholera Morbus, sickly, or Dyspephic children or soults, and the most useful Family Medicino ever offered to the Public."

READ THIS BOWE CERTIFICATE.

PHILADELPHIA, March 20, 1849. Da. Swayne-Dear Sir-Having made use of vatious nauseous Vermifuge. Mcdicines, which had been bighly applauded by their proprietors, without the slightest good effect, and baving heard, my neighbors speaking in the highest terms of your Worm Medicines its delightful taste and wonderful effect, although | lelt somewhat/discouraged from the result of the arti cles I had forced upon my already emacisted, sickly, dyspeptic looking child, whose delicate and almost worn out frame the Worms had already begun to make their ravages; I concluded to make trial of your valuable Vermifuge, which, to our great joy, the Worms had to let go their deally and ard strong holds upon the virals. Such was the effect of Dr. Swoyne's Ver-mifuge on my child which is now perfectly healthy, assuming all the color of the ross, with all the mirth-

he name is spelt correctly, SWAYNE. **CLEANSE AND PURIFY!**

Fract of Tar Vells.

trated, being confined to my bed must of the time .-Two of the most emment physicians of this city at tended me, and after exhausting all their skill pro nounced my case incurable. Indeed, one said lungs were almost gone, and I could not possibly re cover. At this stage of my disease, I was prevailed upon to try Dr. Schenck's Pubmonie Syrup, and before I had taken half a dozen bottles, was so far recovered as to be to go about the house. It seemed to strengthen my whole system-it loosened the cough and stopped the bleeding-my bowels became regular, and every thing I ate, seened to digest easily and neurish my whole system. Indeed, such was the rapid pro gress of my health and so sudden the change, that I secome too sanguine of a speedy cure, and abandon ed the use of the medicine before the disease was thoroughly eradicated, which resulted in another attack of bleeding at the lungs last tall, accompanied by a distreasing cough. I again commenced taking the Pul-monic Syrup, and sent for Dr. Schenck who, upon a careful examination, advised me to continue using it. Before I had taken four bottles, an abscess formed in my side, which gathered and broke, discharging, as near as I can judge, a pint of very disagreeable yellow matter. This seemed to cleanse and purify my whole system, From this time I begau to get better, and am happy to say entirely recovered. I am sure at this time I enjoy better health than I have for the last ten years. Since I commenced taking the Pulmonic Syr-up, I have never tailed to recommend it wherever I went, that others, as well as myself, might be saved saved from that awful disease; for I feel it a duty I owe to the afflicted to publish it to the world. Permit me to mention a few cases which have come under my immediate observation. Being on a visit to Camden,

N. J., last summer, I saw a child, evidently in the last stage of howel consumption. The mother informed me that the physicians had given the child up as incurable. I told her what benefit I had received from the use of Schenck's Pulmonic Syrup, and induced her to procure a bottle. I heard nothing more from the little sufferer inntil about three month sher; being in the market, my attention was drawn to a lady who observed me very attentively. She finally approached me, and asked if I was not the lady who recommended Schenck's Pulmonic Syrup to her dying child last summer in Canden. I replied that I was. She said that her child had entirely recovered, and was uncommonly bealthy. Her name is Mrs. Wilson, and now resides in Bridesburg. Another lady I would mention in particular, who had a scrofulous affection. Her face and neck presented one continued sore, and one of her eyes was veriously affected with it. She had become

greatly emaciated, and to all appearances past neovery. I induced her to try Schnök's Pulmonre Syrup, which she did, and is now perfectly cured. Another lady, Mrs. McMullen, whose residence I will give on appli-cation, was evidently in the last stage of Consumption, I prevailed upon her to try the Pulmonic Syrur. In a very short time she was entirely recovered, and now enjoys excellent health, having become exceedingly fieshy These are three cases within my knowledge, which I know were cured by Schenck's Pulmonic Symp, All who doubt this statement, and will take the tr ble to call on me at my residence Parrish street five doors above tenth north side, I think I will be able to satis-Sectorily convince them by own case, and others that I know have been cured by this Syrup. Since my cure, there have been so many to see me to know what I took, that I have had a very good opportunity of knowing a great many that have taken it, and have been greatly benefitted thereby, and I think if persons sufficied with Consumption or Liver Complaint, would send for Dr. Schenck, and let him carefully examin their lungs, and if he says he can cure them, follow the

actions for soft and officery as that is the analytic with the tender Therpred superiords of fitts FURTIES over SARSARSHLAS and all other similar modeliner, may in some measure be understood from the following facts: FIRT-because it act as guarantee, as pervises of the modelineing, the PURE Exercise of

Cherry and Sassafras Barks,

more strangly, more powerfally concentrated, and larger quintities of ouch of these purplers in each bottle of it than can be found in any bottle of medicing, called Extract of Saraparrilla : But, Steconty v-because Thile Furtier also pussess the med-ical chicag and heating virtues of several other

Roots, Barks, and Vegetables, Lioots, Liarus, and Vegetables, the Positrum, properties of which are preaily surrains to Saras-parile, and when these are compounded with Sarasparile, Yelow Dork, Cherry, and Sasafras, they nake the medicinethe most create and active Parifier of the Bland in the world. So true is thus, that to have every desired sedical Cfect the Dest is

Only One Tablespecului, three times a Day. But it an one with Extract of Sursoparilla, for in consequence of its moleculos (in large bottler) being so much weakened and reduced the Dose of Surseparille has to be Twee, Theree, or Maye any method effect; and as a buille of Sursaparilla only boils stripfour geonofies, therefore, so many spoolful at a dose, and so many due a day, will use up a buille of it is

Four, Five, or Six Days,

Four, Five, or Six Days, which show that a bettle of Brenst's Parifler, will last from Tweive to Sixteen Days looper than a bottle of Sarapaulia; and if its daily medical efficacy (in saudi does,) be as PERIFYING and HEALING as the daily (large does) of Saraparilla, then it Favyes that Out bottle of this PURIFIES is worth Three, How, or Five Heasmore than's bottle of Saraparilla. The Heave comparison does not yet show the great difference in relaw between the medical effecty of Barar's Pusifies and Sara-Fanitic. This will appear by the certificate of cures in Breaf's Promphiet, showing that

ONE BOTTLE OF BRANT'S PURIFIER has more efficacy, and cures more impure blood diment, than TEN Battles of Saraaparilla.

f, then, ONE BOTTLE of PURIFIER sells for ONE DOLLAR One butte of Saraoparilla should sell for Ten Cents.

CANCEROUS SCROFULA.

CANCERCOUS SICROFULLA. Mr. J. B. HASERE of Bone, Oneida Co., N. Y., who was evered of Scrudule in 1846, every to the focks as related helow, in an action in the RUPRENE COURT is the City of New York, on the 25th of De-center, 1849, under the following circumstances --A person in the City of New York had manufactured and vended a spurious article of medicine, calling it Banswi's INDAN MEDI-cine, in *initiations of the ginning socialized*. He was prosecuted to obtain damage a, in the Supreme Court of the City of New York; and the case was referred by the Court to J. S. Bosworn, Eq., b) Liberty surret, an eminent Lawyer, as Refore to the the test-mony. The defendant pleaded in *mitigations of damages*, that the Proprietors of Brand's Medicine had in some some published ralass fractments of overs, and thus had committed is fraid on the public, and, therefore, was not emitted to damages. The case of Mr. Has-tia was societed as a science for damages, the starts in regard to the Pact's as published, and Mitheatiany Mosz rank Suprators the publication.

Learn to Milk Early.

Iure.

The art of milking well is not taught in a hurry. It requires long practice to milk properly, and therefore all the young people on a farm ought to be shown how the labor should be done. It is quite important that this branch of the dairy should be particularly attended to, for a good milker obtains at least a quarter more from the same cow than a poor milker.

The first lesson to be taught to young people, is gentleness and kindness to the cows. They never need be treated harshly, in case the business is properly commenced. Cows that have been caresied and uniformly well treated, are fond of hav ing the milk drawn from the udder at the regular time of milking, for it gives them reliet from the distension of the milk ductse -

Let young people be put to milking the farrow cows first, or such as are to be soon dried, and then the loss from bad milking will be less injurious .---The hand should extend to the extremity of the teat, for the milk is then drawn easier.

Young people should be taught to milk as fast as possible. More milk is always obtained by a rapid milker than by a slow one. They should there fore be taught to think of nothing else while milk. ing, and no conversation must be permitted in the milk yard. They should sit up close to the cow and rest the left arm gently against her shauk .--Then if she raises her foot, as she sometimes will, merely to change position, she will not be likely to put it into the milk puil.

In case of her disposition to kick, or rather to raise her foot on account of pain occasioned by the screness of the tests, the nearer the milker site against her leg the less lisk he will run of being inipred.

Cows may be taught to give down their milk at once-and they may be taught to hold it a long usual. Towands, Sept. 4, 1850. while and to be stripped indefinitely. Very Strange but frue.

day to save a sixpence in the price of an article, will often throw away shillings in their neglectful or wastelul use of it.—Coleman's European Agriculs connected with it but a little Alcohol to preserve it and yet it acts with great certainty in removing pain and all local inflamation, curing all sores, burns, brui-acs and lameness, rapidly. Piles, bowel complaints cholers-morbus, hemorrhage, car ache, touth sche, sore eyes, and all cervous affections. It is white as water

and as harmless, and it is called "Pond's Pain Destroyer and Healing Extract." None is genuine except " Pond's Extract" is blown in the bottle. Mr. Pond first introduced this medicine to the public and has expended a vast deal of time and money in bringing it to a high state of perfection, and we now warrant every bottle to give satisfaction.

A man by the name of Spencer has put forth an article called "The Coyle Extract" which claims to be from the Witch-bazel. If from thas shrub, im name s a perfect deception, and it is a very imperfect article ; be not decrived, get a pamphlet and see.

MYSTERIOUS KNOCKINGS IN TOWANTA!

Clock. Watch, and Jewelry Store M. WARNER takes this method of informing A. M. WARNER takes this method of animation of a state of Watches he has purchased of J. P. Bull, his stock of Watches, Checks and Jewelry, and has commenced the above business in all of its various branches at the old stand f the latter, on Main street, two doors south of Brick

Row. His reputation as a watch repairer is so well established in this community, that it is hardly necesestablished in the community, that it is hardly neces-eary to say a word on that point. With his long ex-perience and great advantages for acquiring a thorough knowledge of the business, he has confidence in saying to the public, bring on your watches and clocks, I will do them justice.

All goods sold, or Repaning done, warranted as I ecommend, or the money refunded A good assortment of Clocks, Watches and Jewelry

kept constantly on hand. My motto shall be-quick sales, small profits, cash and no credit given. Credit need not be asked

for-as I am bound not to make its acquaintance. Towanda, July 12, 1850. A. M. WARNER.

L. B. HYATT, to her, and the harder he presses his left arm SURGEON DENTIST. Is permanently located at Troy, and will continue to I make professional visits at Towanda, where he will be found at the Ward House and also continue to vi-sit Canton, Monroeton, Burlington and Smithfield as
