The richness of the milk of cows in butter de-pends on two thing- the breed being the same-the todder, and whether the cow is fresh or an old milker. The milk of fresh milker, as Kreyssig and Schweitzer observe, is thinner than that of an old , milker succording to Lampadius the milk of the first month after calving containing 1.32 of its weight in butter; in four months, 124. If the cow the jail of said Court, or who are, or shall be bound he milked three times a day it is thinner than if she be milked only twice? The proportion of butter in milk depends greatly on the fodder, says. Schweitzer; the poorest is straw and slop fidder, the richest clover, roots, &c.; and in general average the milk is richest in the autumn -Jeffection Ga-

THE PRODUCT OF ONE Cow - We have received from John Reed of Middletown Butler co. O. a statement in regard to the profits which he realizes trom one cow. He has a Durham short-hone five years old cow, and from her he has received fiftyfive pounds of nilk per dag. The milk is of the tichest kind, and the butter made by Mr. R."from the product of this cow is of the very best quality, and would commend itself to the taste of any epicure.

zette.

The probable result to Mr R. from having one good cow will doubless stimulate him; as it should to secure the best of stock, and attend to them with thefgreatest care and after the most approved manner. A few good cows can fare better than a dozen indifferent ones They are attended with no more, trouble in keeping, and pay much more in profit.

We hope soon to see all our farmers giving more especial attention to the Duiry, There is no branch of business, that pays better, and those who can show rich milk and compact and well made butter are sought after with great avidity, and can secure to themselvies a reasonable profit.-Cin. Gaz.

gersal, Elmira, Chemung county, N. Y., General Ag't, Very Strange but true. A Gentleman of Utica, N. Y., has obtained from the Witch-bazel, a simple remedy, which lays a more just claim to the name of " family cure all" than any Medicine we have ever before knowr. Nothing s connected with it but a little Alcohol to preserve it, and yet it acts with great certainty in removing pain and all local inflamation, curing all sores, burns, bruiare and lameness, rapidly. Piles, bowel complaints, cholera-morbus, hemorrhage, ear ache, tooth-ache, sore eyes, and all nervous affections. It is white as water and as harmless, and it is called "Pond's Pain Destroyer and Healing Extract."

None is genuine except " Pond's Extract" is blown in the bottle. Mr. Pond first introduced this medicine to the public and has expended a vast deal of time and money in bringing it to a high state of perfection, and we now warrant overy bottle to give satisfaction.

A man by the name of Spencer has put forth an article called "The Coyle Extract" which claims to be from the Witch-hazel. If from that shrub, its name a a perfect deception, and it is a 'very imperfect artibe not deceived, get a pamphlet and acc.
