Agricultural.

The Cold Summer of 1816.

Persons are in the habit of speaking of the Summer of 1816, as the coldest ever known, throughout America and Europe. Having in our possession some facts relative to this subject, we propose to give them, in order to revive the recollections of such, among us, as remember the year without a summer,—also to furnish correct information to such as feel any interest in matters of this kind.—We shall, therefore, give a summary of each of the months of the year 1816, extracted in part from "Pierce on the Weather."

January was mild—so much so, as to render fires almost needless in sitting rooms. December, the month immediately preceding this, was very cold.

February was not very cold, with the exception of a few days, it was mild like its predecessor.

March was cold and boisterous, the first half of it—the remainder was mild. A great freshet of the Ohio and Kentucky rivers, that caused great loss of property.

April began warm and grew colder as the month advanced, and ended with snow and ice, with a temperature more like winter than spring.

May, like the one just ended, was more remarkable for frowns than smiles. Buds and fruits were frozen—ice formed half an inch in thickness—corn killed, and the fields again and again replanted, until deemed too late.

June, the coldest ever known in this latitude.—Frost and ice, and snow were common. Almost every green herb was killed. Fruit nearly all destroyed. Snow fell to the depth of ten inches in Vermont, several inches in Maine, and it fell to the depth of three inches in the interior of this State; it fell also in Massachusetts.

July was accompanied by frost and ice. On the morning after the fourth, the ice formed of the thickness of common window-glass, throughout New England, New York, and some parts of Pennsylvania. Indian corn nearly all killed; some favorably situated fields escaped. This was true of some of the hill farms in Massachusetts.

August, was more cheerless, if possible than the summer months already passed. Ice was formed half an inch in thickness. Indian corn was so frozen, that it was nearly all cut down and dried for fodder. Almost every green thing was destroyed, both in this country and in Europe. Papers received from England, said,—"It will ever be remembered by the present generation that the year 1816 was a year in which there was no summer." Very little corn in the New England and Middle States ripened. Farmers supplied themselves from the corn produced in 1815 for seed in the spring of 1817. It sold from four to five dollars a bushel.

September furnished about two weeks of the mildest weather of the season. Soon after the middle it became very cold and frosty—ice forming near ter of an inch in thickness.

October produced more than its usual share of cold weather; frost and ice common.

November was cold and blustering. Snow fell so as to make sleighing.

December was mild and comfortable.

We have, thus given a brief summary of the "Cold Summer of 1816," as it was called, in order to distinguish it from the cold seasons. The winter was mild. Frost and ice were were common in every month of the year. Very little vegetation matured in the Eastern and Middle States. The sun's rays seemed to be destitute of heat throughout the summer; all nature was clad in a sable hue, and man exhibited no little anxiety concerning the future of this life.—*Rochester American.*

Value of Bones.—It is sometimes said that pasturing invariably improves the soil. This is not true, though it frequently does partially restore it, after severe cropping, to the extent at least, of enabling it to bear better crops than the last taken from it. But that one or more of its fertilizing ingredients may be abstracted even to the extent of a considerable degree of impoverishment, is conclusively shown in the extensive grazing fields of Cheshire, England.

This is a favorite dairy region, which has given an enviable character to the cheese that bears its name. It has, for hundreds of years, been devoted to the pasturage of cows, whose milk has been converted into cheese, and sent to a distant market.—Few persons would suspect, that the daily removal of those portions of the soil, convertible into milk, must be felt in the soil, even after the lapse of centuries. Yet, the phosphate of lime, of which milk contains considerable proportions, is abstracted in such quantities, that the productiveness of those rich feeding grounds has been materially lessened.

The comparatively recent application of bones as a manure, has been made on some of these fields, and with the most astonishing success. Professor Johnston says that pastures, which before the application, rented for 5s. per acre, have since paid 50s., and left the tenant ample remuneration for his labor. It is thus that the oft-derided discoveries of science, so richly repay their advocates.—*American Agriculturist.*

Temperature for Churning.—Experiments have shown that for churning cream, the temperature should be from 50 to 55 degrees. The thermometer churn, sold by Emery & Co., of Honesdale, is made double, leaving the space of inch or more between the parts, for the admission of cold or hot water, as may be required to bring the cream to the proper temperature.

To Boil Hominy.—To one quart of hominy, put two quarts of cold water, and a tablespoonful of salt; boil until the water is entirely absorbed. Take it from the fire, cover the pot closely, and set it on the hot ashes for fifteen or twenty minutes to soak. Serve it in a deep covered dish, with butter cut into small pieces, on the top. Those who like cream with it, may add half a pint while on the ashes.—It is whiter and better tasted when boiled in a pot lined with porcelain, or in an earthen pipkin.

To Keep a Stove Bright.—Make a weak alum water, and mix your "British Lustre" with it; put two spoonfuls to a gill of alum water; let the stove be cold; brush the mixture, then take a dry brush and rub the stove till it is perfectly dry. Should any part before polishing become so dry as to look gray, moisten it with a wet brush, and proceed as before. By two applications a year it can be kept as bright as a coach body.

☞ Salt your cattle often after turning them to grass. The change from dry feed to green, succulent matter, demands this. Ashes mixed with salt should be given to sheep—charcoal and salt to swine.—*Sweet Home Journal.*

Agricultural Implements, &c.

Agricultural, Stove, and Tin Store, AT ATHENS, PA.

WHEELER'S & ALSO EMERY & CO'S NEW-YORK STATE AGRICULTURAL SOCIETY'S PREMIUM

Rail Road Horse Power & Tresher,

With the Latest and Important Improvements, for which Patent is secured.

THE subscriber takes this method to inform the Farmers of Bradford and the adjoining counties, that he is agent for, and has for sale, the above celbrated and unequalled Horse Power and Threshing Machines, which he is prepared to furnish on the same terms as by the manufacturer, with the addition of the actual cost of transportation, contracted for at the lowest and best rates.

The subscriber has sold a number of the above machines in this, and the adjoining counties of Chemung and Tioga, N. Y., and all without exception have given the very best satisfaction, and where they are known, all farmers give them the preference, on account of economy in threshing, being operated with much less expense, and cracking and wasting much less grain than any other machine in use.

The Two-Horse Power Thresher and Separator is capable, with three or four men, of threshing from 150 to 200 bushels of wheat or rye, or double that quantity of oats, per day.

PRICES.

The prices for Emery & Co.'s one

	Horse Power,	$85 00
do	Thresher and Separator,	35 00
do	Bands, wrench, oiler and extra pieces,	5 00—$125 00
do	Two-horse Power,	$110 00
do	Tresher and Separator,	35 00
do	Bands, oiler, wrench, &c.,	5 00—$150 00

Also, Wheeler's one-horse power, Thresher, and Separator, complete, (improved this season) $120 00

Wheeler's two-horse Power, Thresher and Separator, complete, 145 00

Price of Emery's Tresher and Cleaner, with bands, wrenches, &c., 75 00

do Saw Mill, complete for use, 35 00

Price of Grant's Fan Mills, adapted for hand or power, from 22 00 to 25 00

The subscriber will also the coming season be prepared to furnish to order

EMERY & Co.'s NEW

THRESHER AND CLEANER.

Emery & Co. for nearly two years past have been experimenting to perfect a cleaner, to be operated with their Power for public and field threshing; and after much time and expense have succeeded to their entire satisfaction, and are now prepared to furnish a Self-cleaner, combined with all the advantages of their overshot cylinder, and at the same time requiring less force to operate its rotary motion than is required by the vibrating separator. It has been thoroughly tested during the last harvest, and some of them have been used the past season for threshing in the best grain growing sections of the state of New York with the best success—threshing months together an equal amount and at less expense, than the common threshers with the vibrating separators.

The Cleaner has all the advantages of a good fanning mill, cleaning the grain fit for market, wasting none. The additional cost being but little more than a fanning mill, or about *thirty dollars*—making the whole Thresher and Cleaner cost $75 to the Farmer, and with Emery & Co.'s two-horse power, $185 00.

The Cleaner can be detached, and the Thresher used alone when desired. The new Thresher and Cleaner are destined to take the place of the old, expensive and cumbrous thresher and cleaner now in use.

Farmers and others wishing to procure any of the above-mentioned Horse Powers and Threshers, will save trouble, risk and expense, by purchasing them of the subscriber.

☞ On account of the large demand for the above machines, and the difficulty of immediately filling orders for them, persons wishing to purchase machines should give me timely notice as to what kind and at what time they wish to procure them.

Farmers wishing to do their threshing immediately after harvest, should procure their machines as early as the first of July. Also for sale

A GENERAL ASSORTMENT OF IMPROVED

AGRICULTURAL & HORTICULTURAL IMPLEMENTS,

At manufacturer's retail prices, such as

CORN SHELLERS, HAY & STRAW CUTTERS, CULTIVATORS, CORNPLANTERS, *STUBBLE, SWARD, SUB SOIL & other PLOWS,* DOG POWERS FOR CHURNS, KENDALL'S CHURNS, GRANT'S GRAIN CRADLES, *Revolving Horse Rakes, Hay, Straw and Manure Forks, &c. &c. Also,*

Cast Iron and Wood Cistern and Well Pumps,

LEAD PIPE of all sizes, in large or small quantities, cheap for cash.

R. M. WELLES will, the coming season, be prepared to furnish J. T. Grant & Co's celebrated patent

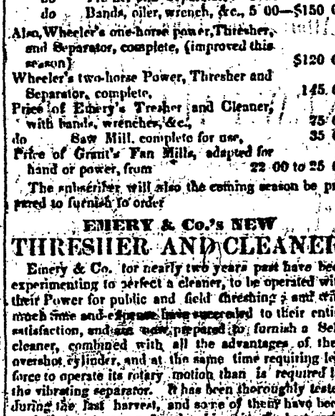
Premium Grain Cradle,

wholesale and retail. The cradle will be furnished with Dunn's celebrated Scythe, the best made in the Union and warranted. Orders respectfully solicited rom town and country merchants.

Also for sale, a large and well selected assortment of

COOK, PARLOR & OTHER STOVES,

VARIOUS BEAUTIFUL PATTERNS, SIZES, PRICES, &C.



My stock of Stoves, and prices, will compare favorably with those of any Stove Store in any of the large neighboring towns.

Athens, Dec 28, 1850. J. E. CANFIELD.

THE UNITED STATES' LIFE INSURANCE, ANNUITY AND TRUST COMPANY,

Charter Perpetual...Cash system...Capital $250,000

Office No. 29, Merchants' Exchange.

ORGANIZED upon the "mixed principle." Stock and Mutual, which combined features offer to insured members double the usual security. The Cash system of payments has also been adopted, thus avoiding the heavy drawbacks created by unpaid premium notes. The table rates of premium, upon which its policies are being issued, is the only scale experience has proven should be adopted, as affording requisite security to be insured, and an undoubted guarantee for the perpetuity of such institutions. An experimental table may be found worthless, at the very instant a policy should possess its greatest value. Life Insurance, very properly, is arresting the attention of the world. The public however, in their commendable willingness to embrace and employ its wise and salutary provisions, should make ultimate security the primary and most important object, which can only be attained by so adjusting the premiums as to anticipate unexpected losses and fluctuations of every kind. It is the purpose of this company annually to credit, upon the polices of holders and books of the Company, such an amount of profits as shall not affect the stability, or impair the sacredness of its contracts. Premiums may, at the option of the insured, be paid annually, semi-annually, or quarterly, in advance. All necessary information, together with blanks, pamphlets, &c., may be obtained gratis, at the office of J. E. Canfield, Athens, Pa.

DIRECTORS.

RESPECTFULLY inform the public that they will continue the business at their old stand, north side of the Public square, and will keep on hand, and manufacture to order, every variety of SADDLES, HARNESS, TRUNKS, VALICES, &c., of the best materials and of workmanship, not to be surpassed. By strict attention to business, and promptness in fulfilling engagements, they hope to continue the liberal patronage they have heretofore enjoyed.

Carriage Trimming will be done on short notice, in the neatest manner.

All kinds of Grain, Produce, Hides, Sheep Pelts, will be taken in exchange for work.

MYSTERIOUS KNOCKINGS IN TOWANDA!

Clock, Watch, and Jewelry Store!

A. M. WARNER takes this method of informing his old customers and the public generally, that he has purchased of J. P. Bull, his stock of Watches, Clocks and Jewelry, and has commenced the above business in all of its various branches at the old stand of the latter, on Main street, two doors south of Brick Row. His reputation as a watch repairer is so well established in this community, that it is hardly necessary to say a word on that point. With his long experience and great advantages for acquiring a thorough knowledge of the business, he has confidence in saying to the public, bring on your watches and clocks, I will do them justice.

All goods sold, or Repairing done, warranted as I recommend, or the money refunded.

A good assortment of Clocks, Watches and Jewelry kept constantly on hand.

My motto shall be—quick sales, small profits, cash down, and no credit given. Credit need not be asked for—as I am bound not to make its acquaintance.

Towanda, July 12, 1850. A. M. WARNER.

CHARLES K. LADD, M. D.

PHYSICIAN AND SURGEON, Office in the "Union Block," up stairs; North side of the Public Square, over Elwell's Law Office. Entrance between Elwell's and Adams' law offices; where he may always be found, when not professionally engaged.

Towanda, Ja'y. 12, 1850.

J. M'INTOSH, DENTIST,

HAS removed to a few doors below Bridge street, on the East side of Main-st. in the building formerly occupied by J. D. Montanye Esq.

All operations amounting to $50, or over, one half to be paid down, the remainder in three months, if the operation proves unsatisfactory, the money paid will be refunded. A note of hand however must secure the payment of the half left unpaid, with a proviso.

DRS. HUSTON & PORTER,

PHYSICIANS AND SURGEONS, office, south store in the Ward House where they may be found ready to attend to calls of their profession.

LEATHER—Sole and Upper Leather; also Kip and Calf skins, for sale by m30 K. & CO.

LARGE assortment of Cloths, Cassimeres and Satinetts, also Calico and other Dry Goods so cheap that dollars compete at PHINNEY'S.

Medical.

Afflicted do not Despair.

Another fellow being rescued from Death by Schenck's Pulmonic Syrup.

The following case is one of the greatest triumphs of medicine over disease ever published in medical history. *Read it!*

Prompted by no other than the feeling of benevolence, and for the benefit of my afflicted fellow beings, I desire to make known a short description of my disease, and the unexpected cure obtained from SCHENCK'S PULMONIC SYRUP. About three years ago I was afflicted wit a violent cold, which settled on my breast and side, and every few days would raise considerable blood; my cough was tight and distressing. Every day I had violent fever attending chills, and profuse sweats at night, with great difficulty of breathing and great loss of appetite; my system was entirely prostrated, being confined to my bed most of the time. Two of the most eminent physicians of this city attended me, and after exhausting all their skill, pronounced my case incurable—indeed, one said my lungs were almost gone, and I could not possibly recover. At this stage of my disease, I was prevailed upon to try *Dr. Schenck's Pulmonic Syrup*, and before I had taken half a dozen bottles, was so far recovered as to be to go about the house. It seemed to strengthen my whole system—it loosened the cough and stopped the bleeding—my bowels became regular, and every thing I ate, seemed to digest easily and nourish my whole system. Indeed, such was the rapid progress of my health and so sudden the change, that I became too sanguine of a speedy cure, and abandoned the use of the medicine before the disease was thoroughly eradicated, which resulted in another attack of bleeding at the lungs last fall, accompanied by a distressing cough. I again commenced taking the Pulmonic Syrup, and sent for Dr. Schenck who, upon a careful examination, advised me to continue using it. Before I had taken four bottles, an abscess formed in my side, which gathered and broke, discharging, as near as I can judge, a pint of very disagreeable yellow matter. This seemed to cleanse and purify my whole system. From this time I began to get better, and am happy to say entirely recovered. I am sure at this time I enjoy better health than I have for the last ten years. Since I commenced taking the Pulmonic Syrup, I have never failed to recommend it wherever I went, that others, as well as myself, might be saved saved from that awful disease; for I feel it a duty I owe to the afflicted to publish it to the world. Permit me to mention a few cases which have come under my immediate observation. Being on a visit to Camden, N. J., last summer, I saw a child, evidently in the last stage of bowel consumption. The mother informed me that the physicians had given the child up as incurable. I told her what benefit I had received from the use of Schenck's Pulmonic Syrup, and induced her to procure a bottle. I heard nothing more from the little sufferer until about three month after; being in the market, my attention was drawn to a lady who observed me very attentively. She finally approached me, and asked if I was not the lady who recommended Schenck's Pulmonic Syrup to her dying child last summer in Camden. I replied that I was. She said that *her child had entirely recovered*, and was uncommonly healthy. Her name is Mrs. Wilson, and now resides in Bridesburg. Another lady I would mention in particular, who had a scrofulous affection. Her face and neck presented one continued sore, and one of her eyes was seriously affected with it. She had become greatly emaciated, and to all appearances past recovery. I induced her to try Schenck's Pulmonic Syrup, which she did, and is now perfectly cured. Another lady, Mrs. McMullen, whose residence I will give on application, was evidently in the last stage of Consumption, I prevailed upon her to try the Pulmonic Syrup. In a very short time she was entirely recovered, and now enjoys excellent health, having become exceedingly fleshy. These are three cases within my knowledge, which I know were cured by Schenck's Pulmonic Syrup. All who doubt this statement, and will take the trouble to call on me at my residence Parrish street five doors above tenth north side, I think I will be able to satisfactorily convince them by own case, and others that I know have been cured by this Syrup. Since my cure, there have been so many to see me to know what I took, that I have had a very good opportunity of knowing a great many that have taken it, and have been greatly benefitted thereby, and I think if persons afflicted with Consumption or Liver Complaint, would send for Dr. Schenck, and let him carefully examine their lungs, and if he says he can cure them, follow the directions, and prevent taking cold, they will rapidly recover.

GULIELMA L. LEIBERT,

Philadelphia, May 29, 1849.

J. H. Schenck—*Dear Sir*—I have known Mrs. Leibert for several years, as a member of my church, and have all confidence in her statement, and am rejoiced to find her again restored to health. Any thing more, in addition to her statement, is needless.

Yours, truly, THOS. L. JANEWAY,

Pastor of the North Presbyterian Church.

Philadelphia, June 20, 1849. 6th st. above Green.

Prepared and sold by J. H. SCHENCK, at his Laboratory S. E. corner Coates & Marshall sts., and by the following Agents in Bradford County.

Geo. A. Perkins, Athens; D. Bailey, Leraysville; T. Humphrey, Orwell; Maynard & Woodburn, Rome; J. J. Warford, Monroeton; D. D. Parkhurst, Le Roy; C. E. Rathbone, Canton; Kingsley & Vosburg, Troy, and by MIX & MASON, Towanda. Price, $1 per bottle or $5 per half dozen.

The Celebrated Graefenberg Vegetable Pills

were introduced into the U. S. in the year 1846. Their extraordinary virtues, and superiority over all other PILLS known in this country, has established them as *the standard Medicine of the day.*

For sale, together with the other valuable preparations of the Graefenberg Co., by Huston & Porter, & H. Mix in Towanda, and by agents appointed in each town in the county.

Also, for sale, the Graefenberg Manual of Health, a complete HAND BOOK for Families, containing information relative to the treatment of almost every form of disease; 300 pages—price, 50 Cents.

N. B. A Family Newspaper will be given, *free of charge*, for one year, to all who purchase Graefenberg Medicines.

All communications must be addressed to T. C. Ingersol, Elmira, Chemung county, N. Y., General Ag't.

Very Strange but true.

A Gentleman of Utica, N. Y., has obtained from the Witch-hazel, a simple remedy, which lays a more just claim to the name of "family cure all" than any Medicine we have ever before known. Nothing is connected with it but a little Alcohol to preserve it, and yet it acts with great certainty in removing pain and all local inflamation, curing all sores, burns, bruises and lameness, rapidly. Piles, bowel complaints, cholera-morbus, hemorrhage, ear ache, tooth-ache, sore eyes, and all nervous affections. It is white as water and as harmless, and it is called

"Pond's Pain Destroyer and Healing Extract."

None is genuine except "Pond's Extract," is blown in the bottle. Mr. Pond first introduced this medicine to the public and has expended a vast deal of time and money in bringing it to a high state of perfection, and we now warrant every bottle to give satisfaction.

A man by the name of Spencer has put forth an article called "The Coyle Extract" which claims to be from the Witch-hazel. If from this shrub, its name is a perfect deception, and it is a very imperfect article; be not deceived! get a pamphlet and see.

For sale at Mantanye's & Co's Towanda, S. S. Hinman Monroeton, Parkhurst & Lamb LeRoy, Horace Willey Franklin. June 5th 1850.

SURVEYING AND MAPPING.

HAVING resumed the business of SURVEYING, all work entrusted to my care will be done with accuracy and despatch. Notice left at the "Ward House" will ensure attention.

May 21, 1850. JOS. CAIRN SIMPSON.

Refer to—G. P. Hoyt,	Michael Meyers,
C. L. Ward,	J. S. Hyde.

FARMERS can find CIDER BARRELS, to calling soon at TIFFANY'S.

Go GUNSMITHING!

HAVING located in Towanda, his services may be obtained by addressing a line through the Post Office, or by calling at the office of Ulysses Mercur, Esq., where he will be found, or where a written application may be left. Nov. 1, 1850.

BOOT & SHOE MANUFACTORY.

JOHN W. WILCOX, has removed his establishment to the shop between Kingsbery's and Bartlett's stores, and where he still solicits a share of public patronage. He intends, by a careful selection of stock, and by attention to the interests of his customers to make as neat and durable work as can be manufactured in this part of the country.

He will keep constantly on hand, and manufacture to order, *Morocco, Calf and Coarse Boots and Shoes; Ladies' Gaiters, Shoes and Slips; Children's do.; Gent's Gaiters and Pumps, &c.*

☞ Country Produce, of most descriptions, taken in payment for work, at the market price.

Towanda, April 26, 1850.

COMMERCIAL WORKS.

NEW ESTABLISHMENT.

THE subscribers have commenced the FOUNDRY business at the *old stand* formerly occupied as a Chair and Bedstead Factory in the Borough of Towanda, where we will hold ourselves in readiness to attend to the wants of any, and all persons who may favor us with a call. We hope by strict attention to business to merit a share of Public patronage.

We are fitting up a MACHINE SHOP connected with the Furnace, where we hope to be able to do any and all kinds of *Finishing and fitting up &c.* We will endeavor at all times to keep a good assortment of work on hand so that customers may be accommodated on the shortest notice.

HAVING taken pains to secure the services of experienced workmen from the state of N. Y., we flatter ourselves we shall be able to turn off work in a workmanlike manner and as good as can be done in any other establishment.

We shall also be prepared for the manufacture of stoves by the quantity, and will keep constantly on hand a few select patterns for retail.

The subscribers invite all persons who may be in want of any thing in our line to give us a call and we guarantee they will not go away dissatisfied.

Saw Mill Rods or Parallel slides, Mill cranks, guidgeons &c, kept constantly on hand.

Also plows of the most approved patterns and Plow Points by the piece or quantity to suit purchasers, as low as can be procured at any other establishment.

Cultivators of the most approved patterns, also a superior article of Corn Plow, for sale by

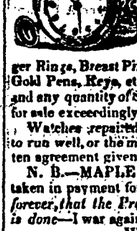
ENOS TOMPKINS,
N. C. TOMPKINS,
GEO. W. POTTER,

Towanda June 28th, 1850.

☞ Old castings taken in exchange for work.

Removed to B. Kingsbery's Block!

W. A. Chamberlin,



HAS just returned from the city of New York with a large supply of Watches, Jewelry and Silver ware, comprising in part, the following articles:—Lever, L'Epine and Plain Watches, with a complete assortment of Gold Jewelry, such as Ear Rings, Finger Rings, Breast Pins, Bracelets, Lockets, Gold chains, Gold Pens, Keys, etc. Also, all sorts of Silverware, and any quantity of Steel Beads—all of which he offers for sale exceedingly cheap for CASH.

Watches repaired on short notice, and *warranted* to run well, or the money will be refunded, and a written agreement given to that effect if required.

N. B.—MAPLE SUGAR, and Country Produce taken in payment for work; and also, *learn now, and forever, that the Produce must be paid when the work is done*—I war against credit in all its forms.

W. A. CHAMBERLIN, Agent.

Towanda, April 23, 1850.

CHAIRS AND BEDSTEADS.

THE subscriber has removed to his new shop, a few rods above his former location and on the opposite side of the street, where he continues to Manufacture and keep on hand, all kinds of cane and wood seat CHAIRS; and SETTEES of various kinds, & BEDSTEADS of every description, which I will sell low for cash or Produce, or Pine or Cherry Lumber, or clear plank, will be received for work. TURNING done to order in the neatest manner. Also,

CABINET WORK,

make and kept on hand, or made to order, in the best manner.

JAMES MAKINSON.

Towanda, March 9, 1849.

SPORTSMEN, ATTEND!

HAVING relinquished business in Towanda, the subscriber has left the work he had on hand with John E. Geiger, at whose shop may be found the guns &c., which were remaining with him.

He has also left his notes and accounts with Mr. Geiger, and gives this timely notice to all indebted that immediate payment must be made, or they will be subjected to cost. He trusts that this notice will be sufficient, without resort to the other disagreeable alternative. JOHN TROUT.

Towanda, November 8, 1850.

LACEYVILLE HOTEL!

THE SUBSCRIBER, having now completed his arrangements for the accommodation of the Traveling Public, feels warranted in soliciting his share of Public Patronage. His Table shall be furnished with the best the market affords. His Stabling is Large and Warm. His Bar shall be filled with as good Liquor as are to be found in the country.

BESIDES, for the accommodation of many, the subscriber is manufacturing *Boots, Shoes Saddles, Harnesses, Trunks and Valises, &c., &c.* And keeps on hand a good assortment of PATENT MEDICINES, for all of which his patrons will be asked *only a moderate price.*

For former patronage and favors the public will please accept the sincere thanks of T. D. SPRING.

Laceyville, Sept., 13, 1850.

Miscellaneous.

H. M. MOORE & CO'S RAIL ROAD FORWARDING LINE,

From Waverly, for 1850.

(EVERY DAY IN THE WEEK, SUNDAYS EXCEPTED.)

H. M. MOORE & Co. still continue their regular Forwarding Line from their Store House near the Depot, in Waverly, where PRODUCE of all kinds will be received and forwarded by the New York & Erie Railroad, direct to New York—to Capt. I. W. Thompson, who will make sale of the same, and make returns every two weeks, (in current funds) for the Produce sent.

Capt. Thompson, takes this opportunity of returning thanks for past liberal patronage, and hopes, by strict attention to the interests of his customers, to merit a share for the future.

Liberal cash advances made on Produce at all times, if required.

H. M. MOORE & Co.
I. W. THOMPSON.

H. M. MOORE & Co. are receiving daily from New York, a large and well assorted stock of Dry Goods, Groceries, Hardware, Crockery, Boots, Shoes, Pork, Flour, Fish, Nails, Butter, Cattle, and T. I. Salt, Glover and Timothy Seed, &c. &c., which will be sold as cheap for cash or country produce, as at any place in Western New York.

Waverly Aug. 1 1850. H. M. MOORE & Co.
