After a prolonged struggle between the people and the cotton spinners of Massachusetts, says the Evening Post, the former have triumphed. Charles Summer, the candidate of the free-soil and democratic party, for the vacant seat in the United States candidate of the manufacturing and pro-slavery interest, has been deleated. We scarcely know which of these results furnishes most occasion for rejoicing, for we deem both highly auspicious events in the present state of the country.

In the triumph of Mr. Sumner, we specially rejoice, for it shows that political honors in this country are not necessarily the reward of conning or servility, that a man may be honest, accomplished, unhacknied in the practices of professional politicians, and yet aspire to the highest honors of the republio.

Mr. Sumner's election also demonstrates, that in Massachusetts, at least, the tyranny of great names g has passed away, and that among the people, even gigantic talents, when allied with gigantic vices cannol long prevail.

His election likewise adds one to the small band of inflexibles in the United States Senate, who cannot be made to yield one inch of principle in defence or toleration of slavery.

In politics, Mr. Sumner is a doctrinaire. He is "well known to be opposed to all class or special legislation, and to be a firm champion of state rights He has never held any close connexion with either of the great political parties of the country, though, till within the last few years, he has been classed with the whigs. We have classed him with the democrats, because that, on all the issues which have been made between him and his opponents in the Legislature, he has occupied a democratic position, and we have no doubt that all his sympathies and convictions will lead him to maintain that po-

Tullmadge, Thompson, Brown, Rakielewitz, and Walsh were busily engaged in the arrangement of plans to affect the arrests of alleged ringleaders of the Cuban expedition, the facts of which we have previously alluded to; but in order to obtain the correct information as to whom the parties were, said to be engaged in this enterprise, it was found expedient to adopt a method by which it could be as-certained with certainty, and in order to effect that object, Deputy Rakielewitz disguised himself as one of the emigrant Germans, and proceeded to South Amboy, and there mingled among the men who were congregated in that vicinity ready for the embarkation. On conversing in German with these men, the officer soon ascertained the names of cer tain persons in New York, who were said to be leading parties in the contemplated invasion.
