

Two Weeks Later from California.

Arrival of the Steamship Alabama at New Orleans. A Tremendous Fire—San Francisco in Ashes—The Hotel and Custom House Burned—Shipping Destroyed—Millions of Property Destroyed.

New Orleans, June 13.—The Steamship Alabama has arrived at this port from Chicago, with California news two weeks later than previous arrivals.

She brings the lamentable and astonishing intelligence that the City of San Francisco has been almost entirely destroyed by one of the most disastrous conflagrations ever known on this or any other continent.

The particulars of this terrible disaster are too long to be transmitted by telegraph immediately, and the facts must be very briefly stated.

The news comes by way of Alameda. Property to the amount of fifteen millions of dollars is believed to have been destroyed.

The fire, which was burning at the wharves, was first discovered in Clay street, and ran through the city blocks, quickly spreading to other parts of the city—a greater part of which now lies in a heap of ruins. Hunter, George, Maine, Centre and El Dorado streets are completely gutted.

The utmost consternation prevailed during the time, and thousands were turned out of houses and homes, having lost their all.

Measures were about being adopted to relieve the distress of the sufferers. It is feared a number of lives have been lost. Business was entirely lost sight of.

San Francisco presents a sorrowful and heart-breaking picture.

The means of arresting the flames, in possession of the authorities proved of little avail before the tremendous spread of the flames, and so extensive was the field of labor of the fire department, that little effect was produced by their efforts.

The consternation of the inhabitants was very great, and of course everything was in confusion. The number of persons rendered homeless by this calamity is beyond calculation at present.

The news from the mines continues to be of a cheering character.

New discoveries were daily being made, and the prospects of the miners were highly favorable.

The quartz crushing machines were reaping a rich reward, in some instances, the average per man was from \$20 to \$50 per day.

Lynch law is still in force, and several new examples have been made.

INSANITY FROM THWARTED LOVE.—A young man named Gregory, who was sent up on the steamer Buckeye, from the South, to enter a novitiate for the priesthood, at Bardonia, gave evident symptoms of derangement on the passage up, which caused him to be put in restraint. Yesterday, as the boat was coming through the canal, he was released, and very soon after made a violent assault on the steward of the boat, knocking him down and assaulting others. He was instantly taken in hand and confined again.

We learn that he had been intended by his father for the life of a clergyman, for the priesthood, but had become violently enamored of, and attached to a young lady, who returned his passion.

Paternal authority intervened, and the "courtship" was interrupted by his being sent from home, to enter upon his religious exercises. The stroke was too much for his ardent and too susceptible heart, and his brain maddened to such a degree as to overflow his reason and render him a furious maniac.

We understand that he brought letters to a respectable house in this city, in which the captain would apply to take care of him; otherwise, to obtain a permit for him at the Marine Hospital, till he is restored to reason or is attended to by his friends.

THE CHOLERA.—The Western papers bring accounts of extensive ravages by cholera on board of the steamboats, especially from New Orleans.

There was 12 deaths on board of the steamer Fido of the West, on her trip from New Orleans and six in a dying condition were taken to the hospital at St. Louis.

The steamer Grand Turk, from New Orleans, with a large number of emigrants on board, for St. Louis, lost 23 or 30 of her passengers by the cholera before she reached Cairo. Seventeen had died before the boat reached Napoleon, and the disease was then raging terribly on board.

The cholera at Paducah is on the increase, and again fatal in its attacks.

The St. Louis Democrat, of Tuesday of last week, says:

For the week ending yesterday, the City Register reports 85 deaths, of which 24 were from cholera. The cholera cases were most recently arrived emigrants, independent of which, however, the registers show an increase over last week's report.

Capt. Wm Rogers, of the steamer Archer, died at St. Louis on Tuesday, after a severe attack of the cholera, which last only about eight hours.

Four deaths of cholera occurred at Cairo on Tuesday, of the number were Mrs. Ashlain, and Mr. Abbott, of the wharf-boat.

At Jersey City, Kentucky, there have been 15 cholera deaths.

RAILROAD CELEBRATION.—The people of Chillicothe and vicinity have had a great celebration on the occasion of commencing the work on the Cincinnati and Belvoir Railroad. From the representations of the President of the company, the prospects of this work are encouraging. Subscriptions of individuals and companies through which the road passes have been pledged or promised to the extent of more than half the cost of the whole work, and the remainder it is reasonably expected can be carried forward on the bonds of the company.

This is the road which in connection with the North Western Virginia Railroad from Parkersburg and the Baltimore and Ohio Railroad thence, are to form the best line of railroad from Baltimore to St. Louis.

Convicted and Fined for Passing Stolen Notes.

A man named Peiffer was tried before the Mayor of Allegheny and convicted, on the testimony of another named Hartmeyer, of passing small notes, contrary to the law of Pennsylvania. Hartmeyer asked Peiffer to give him change for a ten dollar gold piece, but the latter said that he could not do it without giving and took them; but afterwards brought a suit. Mayor Fleming fined the defendant an one hundred dollars. Hartmeyer, it is said, brought the suit to gratify a feeling of personal pique, but the other person should not be granted a favor which involved an act contrary to the statutes.

A DUEL BETWEEN TWO MEMBERS OF CONGRESS. We learn from Vicksburg, Miss., that on the 15th inst. a duel came off between Gen. Fremont, the Whig candidate for Congress, and Gen. Smith, of Jackson, the Democratic candidate. Smith was wounded in the shoulder at the fifth round. The cause of the duel was, that Smith wrote a letter to Fremont, in which he published, stating that Fremont was a coward and a liar. The affair has caused great excitement.
