We say it was the groundwork because there was the starting of the institution, and there was where the Judge interposed, raising a voice sovereign to the law, and by the most unheard of calculating and designing intrigues, the arted the purposes of the Legislatore in granting the Act of Incorporation, trampled upon law and honesty, outraged the confidence of a confiding public; and with the law of incorporation in one hand, the "Current Bank Note" Resolution, Towanda noney, and Stock Notes in the other, launched his bark and staked his reputation as a Bank Financier. In this paper will be found the call for the usual September County Convention and the list of Committees of Vigilance appointed by the Democratic Standing Committee. The importance of the approaching election should make the Committees more than usually careful in discharging their daties.
