BURNING OF THE RED RIVER RAFT -The Caddo Lt. Gizdle states that Col Guett has been trying the experiment of destroying the raft by fire. He was at the raft on the 9th mat, and commenced firing it. It burned beyondthis expectations, when he was compelled to desist on account of rain. He states that all that part of the raft but that immediastates that an independent in this manner removately in the channel, can be in this manner removal, and thinks that the burning of timber to the valet's edge, at this low stage of the river, will enahie boats when the river is in boating order, to pass with case and safety. He recommends that a meetand of the current of Shreveport be called, for the purpose of examining the Raft, and testing the pracheal nightly of his experiments. The editor of the Gazette expresses himself favorable to the project, and considers it an important step towards the removal of the raft.
