

President's Message.

(FROM FIRST PAGE.)

message to Congress, a very cheap instrument of immense national benefit.

Regarding the act of Congress approved 28th September, 1850, granting bounty lands to persons who had been engaged in the military service of the country as a great measure of national justice and magnanimity, an anxious desire has been felt by the officers entrusted with its immediate execution, to give prompt effect to its provisions.

The large concessions to our Indian population consequent upon the acquisition of New Mexico and California, and the extension of our settlements into Utah and Oregon, have given increased interest and importance to our relations with the aboriginal race.

No material change has taken place, within the last year, in the condition and prospects of the Indian tribes of the western Territory and west of the Mississippi river.

Along the Mexican frontier, and in California, and Oregon, there have been occasional manifestations of antipathy feeling, and some questions of territory and jurisdiction have arisen.

The joint commission appointed by the Guadalupe Hidalgo law has been actively engaged in running and marking the boundary line between the United States and Mexico.

The initial point on the Rio Grande has also been fixed by the commissioners at latitude 32 deg. 22 min. and at the base of the highest mountain in the survey of the line had been made there westward about one hundred and fifty miles to the neighborhood of the copper mines.

Miscellaneous.
