Oh. Thou to whom our thoughts we faile, Throughout the ever-changing year, Teach us to fully sing thy praise. And bow to thee with love and fear.

The pature die in icy death. All hidden 'neath the wintery snow, We know that thy reviving breath, Will can e her streams again to flow

Omniscient source of every good, Inali thy ways we're ever blest;-They constant goodness stands confest.

Thy mercies, Lord, are ever sure :--And when we view the snow clad plain, Our hopes on Thre we rest secure; Thou will the summer bring again.

## Raising Turn!ps.

Although out of season, I take occasion to fu nisl you with the result of some experiments on the will commence with that much neglected branch, the taising of turnips; though in England, I suppose, the potato excepted, there is no root more cultivated, or any held in higher estimation for feeding stock. As I said, though out of season now for sowing. I have had such good results for three years ling of these fascinating tales. I thought it right, if any benefit may occur to others, from my success, that the manner or planting should am sure, furnish me the means.

the ground, having been well manufed in the spring is in a good state for the fall crop. I take my plough and break the earth to the depth of six of seven inches, and harrow well, pulserizing the soil thoroughly, and then with one horse and small thoroughly, and then with one noise and one plough I throw two furrows together terming ridges For any two " " one two about three feet apart, and those ridges are again | For any three gone over with a common hoe, and chopped into For all four of the Reviews " two Lills or holes about ten inches apart, and into them | For Blacks od & 3 Rev's " three I put a table-pointful of ashes and plaster, in the For Blackw'd & four Rev's" three latter, mixed thoroughly and applied by a large exceed two in one place, or the thining, when they come up, will be troublesome. In adopting this mede of planting in hills great care should be taken to have the seed of the same years growth, or they will not come up well. They should not be cove. ed over an inch in depth, even in a diy time, or they will not come up to any certainty. If they do well, they will appear above ground in five or six days, if not over dry, as was the case the past sumhoeing and thining, and after that, a good working will please order as many different works for pre-with the common hoe-harrow, with the two side teeth taken out, feaving only three middle ones, and that is all the farming they require; and I do not dig them until very late, as they will continue above prices will be allowed to Clubs ordering four to grow until hard frost or snow.

I last year had them to weigh seven pounds, one Review will be sent to one address for \$9; four from the White Durch variety, and yielded tour or copies of the four Reviews and Blackwood for \$30; five hundred bushels per acre. The great advantage in this plan is, that they require less thining allowance is made to Clubs, nor will premiums in less seed and grow of an enormous size, covering any case be furnished, unless the subscription mo the whole earth with their immense foliage which ney is paid in full to the Publishers without reis excellent forage for milch cows J. D. S.

## Ontons.

highly were they esteemed in ancient times, that the chosen people of God, when on their way to Over 500 and " 1500 miles, 9 cents per quarter the promised land, murmured at God's previdence Over 1500 and " 2500 " 24 " " and sighed for the leeks and onions of Egypt again. There are three varieties of onions cultivated, the over 500 and 1500 to 8 to 1500 and 2500 to 15 to 2500 but is not as easily kept through the season as the heretofore, to receiving the works by mail, and thus other two, being more inclined to rot. These are ensuring their speedy, safe, and regular delivery. all made from seed. They may be planted in the fall, or in January, Febuary, or March. I perfer always addressed, post-paid, to the Publishers, LEONARD SCOTT & CO., February to any other mouth for putting in the seed. but I have made fine bulbs, by planting as late as April. There is no garden-seed planted, that is more sure of coming to perfection in this climate. than the onion, if it is properly planted. The soil of Yale College, New Haven, complete in 2 vols. must be highly enriched with well decomposed royal octavo, containing 1600 pages, 14 steel and, manure. It is well to soak the seed twenty four 600 wood engravings. Price, in muslin binding hours before planting. Plant in dr lls, fourteen inches apart in the drill. Cover the seed about half an inch. and oress the earth and soil upon them. It the seed come up well, thin out every one. The onion bed must be kept free from grass, and weed, and frequently stirred with the hoe. A top dress- and Paine streets, nearly opposite Edward Overton's. ing of ashes will be highly beneficial in the earlier Towards, where he will keep on hand or manufacture stages of their growth. Sait is also an excellent to order, Flag-seated, Cottage, Windsor, Fancy, Cane manure for onions. The bulb will be fit for the table in July or August, and from their la'e maturity can be kept through the winter. For an early crop at low prices of onions, plant the set or button. These may be Flag-seated Chairs, on reasonable terms, Whitemood and Co put in the ground any time from October to March. Plant them in drills, like the seed, but put them bertaken in payment for work. two is ches farther apart in the drill: Onion sets | He trusts that his iong acquaintaince in the drill: Onion sets | and the durability of his work as tested by many years and the durability of his work as tested by many years planted in January or February will make fine bulbs experience, will secure him a share of public patronfor the table in May or June. The button will make | age. Towards, March 1, 1851. a great quantity of bulbs, but they are not as delicate or as solid as the seed or set. Buttons planted in BOOTS & SHOES! the fall in good ground, will make the buttons again. In planting the small onions set or button, do not cover them deep. Just cover the bulb: the finest bul's are made above the ground.

Sr. Charles Indian Bread. - Receipts for making m

them one pin of sour milk or buttermilk and one welking shoes, buskins, &c. Misses' gaiters and shoes, pint of fine Indian meal, melt one table-spoonful of butter and add to the mixture, dissolve one table. fancy gaiters, boots and shoes, of all kinds. spoonful of so to or saleratus, &c., in a small portion of the mick add to the mixture the last thing, beef care, and he believes he can offer superior articles at very hard and bake in a pun in a quick oven.

Alimelianeons.

This is no Quadlery! ORRICK'S VERMIFUGE

Or Worm Destroyer. This Medicine confume no Mercury, nor any other Mineral substance. It is purely Vegetable.

This remedy for women is one of the most extraordinary, ever used. It effectually endicates worms of all aorts from children and adults. Thousands perish by worms without the real ca

being known. Some other reason is assigned for the sickness, until too late to cure the real cause. What immense responsibility tests upon the parent who does not know, and the doctor who does not undestand, the complaint which is destroying those precious flowers of life-children.

cious fluwers of life—children.

What should be done.

The answer is plain. Give the Vermitogs, which will be sure to do good if they have, no worms, and if they, have, it will destroy, and eradicate them with a certainty and precision fruly material in it. Mercury is the basis of most worm remedies; and the remedy is sometimes worse than the disease. So never use losgoness but say monthly Reserve will be sometimes.

riges, but rely upon this. Every person will be can inced on one trial that it is the most perfect cun ever invented.

The immense sale that this Vermitage has, is a sure test of its value and the estimation in which it is held by families. It would be quite too expensive to pubsh the volumes of certificates that have been given for this article, and the users of it are requested spread the name to a persons whom they think will he henefitted by it. Speak of it in all families, and you will do your du

hation of all good men, and will receive your reward n heaven. We call on all good citizens to make known the el lects of this wonderful remedy.

Remember, and ask for Orrick's Vermifuge.

ly to your follow creatures, and feel assured of the sp-

Startling Pacts. Hundreds of children and adults are lost yearly with orms, when some other cause has been supposed to

be the true one. It is admitted by all doctors that scarce a man, we man, or child exists, but what sconer or later see troubled with worms, and to hundreds of cases, sad to relate, a supposed fever, scattatina, cold, or some other relate, a supposed fever, scattatina, cold, or some other siling carries off the flower of the human family— while in truth they die of wooms! and these could have been eradicated in a day, by the use of one bottle of ORRICK'S VERMIPUGE.

How sickening the thought that these things should be-and whe can ever forgive themselves for not try-ing this WORM EXTERMINATOR, when they num that even if the case was not worms, this remedy could not by any possibility do hurt-hut always good as a purgative, let the cires-e he what it may. How important then to use it, and who will dare take the responsibility to do without it? Let all parents ask themselves this question in truth and sober-
