Proper Size for Zarms.

No error is more universal than for Tyros in farm ing operations to suppose, that the business of farmadditions. Nor is this error confined to the painitualed only-for many farmers cominue to plod on trusting simply to the waste materials of the farm for mar ures, and raising small crops at full expenditure for labor, and no expenditure for manure,] and much less amount of labor as compared with farms of too great size, and insufficient cash capital this recovery was produced by Schenck's Pulmonic for their proper management. Current cash means Syrup. equal to Twenty-live dollars per acre for the amount of land in use, is absolutely necessary for ticular, success, and even this sum is the very smallest amount that can be used with profit. With such un amount the farmer may buy his fertilizing materials at proper seasons of the year, have them in every acre of his farm in condition to produce a maximum amount of profit. When labor is misapsuppose a similar acre, to which thirty dollars worth emanure applied, and the next year in the successon of crops, the ratio of profit will be materially increased in fayor of the more highly manured land With many of the heavier crops the labor constigrop can be increased by the application of manure without material extra labor, such excess of crop is the humble instruments of relief and cure to others who at much less cost and yields much larger profit.

Roors of Takes -People are not generally aware of the rapid extension of roots of trees. We sometimes hear farmers say that apple tree roots extend as far from the trunk as the limbs do. Last week we ploughed a few farrows in the road side under apple tires that had been set but five years, and we found roots plenty at the distance of ten feet from the tranks of the trees, and these roots | No. 8 Statest Boston; H. - 22 Medicalist

Another Resoure by: SCHENCE'S FULMONIC SYRUP.

was on the verge of the grave, and so far gone tha my family and friends haddost all hopes af my re covery; and when in this situation, having been recured by the use of Schenck's Pulmonic Syrup. Edesire to testify, with grateful emotion to Dr. Schenck, the unspeakable benefit I have received from the us of his invaluable, medicine.

Early fast fall, I contracted a violent cold, and consequence of which I had chills, alternated with fever, pains in my right breast and shoulder blade, with a bad cough, and no expectoration. I kept getting worse until I took my bed, and had the attendance o my family physician. I was under his care about four weeks, and at the expiration of that time was reduced so low that despair took hold of myself and friends, and even my physician abandoned me and gave me up to die with the hesty consumption. My appetite was gone, my bowels very irregular, fever and sweats, pain in my breast and shoulder, attended with distressing cough, which was very tight t my flesh had nearly all gone, and was so weak that I could scarcely raise my head from the pillow, and was truly an object of pity to behold. My friends had been sent for to see me die, and my sick had was surrounded by

kind and sympathizing neighbors, who had some to witness my departure from this world.

When all rays of hope had fled of my recovery, a neighbor, Mr. David Conrad, proposed to try Schenck's Pulmonic Syrup, with a view of Tossening my cough and relieving me of the tongh phlygmy and as a means of affording temporary telief, remarking at the time "that I was too far gone for the Syrup to be of any permanent benefit." My wife, anxious for the relief of my intense sufferings, procured some of the Pul-monic Syrup. I found it afforded me relief, and coutinued using it. I could feel its healing influence

upon my lungs. I continue to improve under its use, and my friends were much gratified to witness my unexpected tinprovement; many of my neighbors came to look at me s one raised from the dead.

My cough now became loose, and I felt something break, w en I had the pain in my breast, and I discharged large quantities of yellow matter. I have for weeks discharged and raised a spit box full of matter every day, with hard lumps like grains of something. My bowels now became regular and natural, and my appetite was so far improved, that I could scarcely refrain from eating too much. My strength improved, and I regaine I my flesh.

I continued to improve in every respect soon after commenced using the Syrup, and the improvement continued until I was restored to my health. I have passed through the inclement weather of the latter part of winter and the spring, and feel as well now as ever I feit in my life, and I am this day a living testimony of the great efficacy of Schenck's Pulmonic Syrup in curing pulmonary diseases.

Lest this statement be thought too highly colored by some people, I subjoin certificates of assumber of the inhabitants of Tacony, who saw me at different times during my disause, and never expected to see me restored. I also append the certificate of the brothers of Mystic Lodge, No. 270, I. O. of O. F., who kindly vatched over me, and fully believed they would consign my remains to the tomb; but, thanks to Dr. Schenck for his invaluable Pulmonic Syrup, my life ing may be pursued without means, and that first has been spared, and I am permitted to make the forecrops may be obtained from the soil without any going statement for the benefit of suffering mankind, I lest e at Tucony, and am well known by most of the people there, and will be gratified to have any person call upon me and learn more particulars of the person call upon me and learn more particulars of the person call upon me and learn more particulars of the person call upon me and learn more particulars of the person call upon the per June 24th, 1851.

The subscribers, members of the Mystic I od je, No 270, I.O. of O. P. of Holmesburg, Pa. do hereby certry that we know John C. Green, (and is a member the increased amount of crop. For these reasons in good standing in No. 270 I. O. of O. F.) who was many farmers last of spacess, and they are generally dangerously ill with 2 low Pulmonary Consumption constrained to follow this practice, from having last wint, r, so that they give him up to die; that he

This is no Quackery! ORRICKIS VERMIF.UGE Wat 18 | Or Worm Destroyers This Medicine contains no Mercury, nor any other Mineral substance It is purely Vegetable.

Alledital (f)

This remedy for worms is one of the niest extraordinary, ever used. It effectually eradicates worms o all sorts from children and adults. Thousands perish by worms without the real cause icing known. Some other reason is assigned for the

sickness, until too late to core the real couse. What immense responsibility resta upon the parent who does not know, and the doctor who does not ur-lightened, the complaint which is destroying those preclous flowers of life—children. What should be done? The answer is plain. Give the Vermifuge, which

will be sure to do good if they bave, no worms, and if

they have, it will destroy and eradicate them with certainty and precision (ruty associating.

There is no accounty or mineral in it. Mercury
the basis of most worm semedies; and the remedy sometimes worse than the disease. So never use lozenges, but rely upon this. Every person will be convinced on one trial that it, is the most perfect cure

The immense sale that this Vermifuge hat, is a gard test of its salue and the estimation in which it is held by families. It would be quite too expensive to publish the volumes of certificates that have been given for this article, and the users of it are requested to spread the name to a persons whom they think will

Speak of it in all families, and you will do your duty to your follow creatures, and feel assured of the apation of all good men, and will receive your seward in heaven.

We call on all good citizens to make known the ef fects of this wonderful, remedy.

Remember, and ask for Orrick's Vermifuge.

Startling Facts. Hundreds of children and adults are lost yearly with rms, when some other cause has been supposed to on delivery.

e the true one. It is admitted by all doctors that scarce a man, woman, or child exists, but what sooner or later are troubled with worms, and in hundreds of cases, sad to while in truth they die of worms! and these could have been eradicated in a day, by the use of one buttle of ORRICK'S VERMIFUGE.

How sickening the thought that these things should be-and who can ever forgive themselves for not try-ing this WORM EXTLEMINATOR, when they know that even if the case was not worms, this remerents ask themselves this question in truth and sober-

neer.
