Vork on, and win the billion work is unenjoyed!

The nupplest are the best employed. Work moves and moulds the mightiest Lirth, And grasps the dustine of the earth.

Work some the seed; Even the rock may yield its flower; No lot so hard but haman power, Exerted to one end and aim, May conquer Fate and capture Fame!

In Nature's centre lives the fire That slow, though true, doth yetaspire; Through fathoms deep of mould and clay. Lispins the rocks that bar its way. Press ou !.

Press onward still:

If Nature, then, Lav time beneath her weight of earth, Then would her hidden fire know birth : Thus man, through granite fate, must find The path—the upward path— f mind.
Work on!

Pause not in fear ; Preach no desponding servile view-Whate'er thou will'st, the will may do. Strengthen each manly nerve to bend Truth's bow, and bid its shaft a-cend! Tuil on.

Be firm of heart; By fusion of unnumbered years, A continent in vastness rears; A drop, 'tie said, through flint will wear; Toil on, and Nature's conquest share!

Within thyself Bright morn, and noon, and night succeeds Power, feelings, passion, thought and deed, Harmonious beauty prompts thy breast— Things angels love, and God hath blest; Work on !

Work on and win. Shall light from Nature's d.pth arise, And thou, whose mind can grasp the skies, Bit down with Fate, and sady rail! No! Onward !- Let the truth prevail !

Action and re-action in Farming.

Never keep animals on short allowance. If you starve them, they will surely stated you.

Although in draining land thoroughly your purse may be drained, yet the full crops that follow wil soon fill it again. Always give the soil the first meal. If this

well fed with manure, it will fred allelse; plants, animals and men. Heavy carrot crops for cutile, will soon return

carate of gold. Fences operate in two ways-if good they are a

defense, if poor an offence. Many a farmer by too sparingly seeding his new meadows, has to seed his whole farm.

Every farmer should see daily every animal he has, and inspect its condition. Weekly visits, as with some, soon result in weakly animals. The man who provides well shellered cotes, for his sheep in winter will soon find plenty of coats for

his own back. A good housewife should be a person of " one i lea," but should be equally familiar with the flou barrel; and though her tesson should be to lesser expenses, yet the scent of a rose sould not be less *alued than the cent in the till. She will doubtless prefer a yard of shribbery to a yard of satin,-If her husband is a skillful sower of grain, she is equally skillful a sewer of garments; he keeps his hoes bright by use; she keeps the hose of the

family in order. "Manure is money," and " short paper," is like a short plant; a note at bank matures by falling due -but they will be found in both cases shorter than wanted, "unless the fiscal bank and the bank of the earth both receive timely deposit.

To abuse animals by starving them, is as base as the hope of gaining by it is base ess - Albany | the greatest discoverer of this hitherto remediless di Cultivator.

MILHING.

We find in the Maine Farmer, some extracts we claim for them the attention of our readers. If is understood however, in this country, that the women are not as a general practice to perform the operation of milking, it being too laborious and uncleanly, and besides they have enough to do in doors. For our own part we had rather do this work then to see the hands which mould our bread employed in washing the noisome under of a cow And tho'

" Kitty who was the charming girl, That carries the milking pail,"

should loose popularity in this sphere; we trust she will regain it in the excellent performance of those pleasant hourahold duries allowed to her especial

The operation of milking if not well performed in becomes painful to the cow, who not unfrequently brings into action her faculty of retaining her milk at pleasure. When gently performed milking generally gives pleasure to the cow. Many instances are recorded where cows who would not let down a single drop of milk to one dairy maid, would fet it flow in abundance, whenever another approache ed them.

Cows, that are ticklish or akittish should always be treated with the utmost gentleness, if the udder is hard and painful, it should be tenderly fomented. with luke warm water, and sofily rubbed. Such treatment will bring the cow into good temper, and mdace her to yield her milk freely.

Whenever a cow's teats becomes scratched or wounded, so as to produce tout milk, such milk klim işə ya enlişhi v həzimçet hincopa, oğı no Macida but oe grien to he pigs without being carried to he milk house, lest as presence should min the armos phere and grave injurious to the other mi k

Lie well to comb and brush cows, as it promote cleammes. The fact is, where clean milk is an object, the comb and brush together with the thorough washing of the udder are indispensable

Aliscellaneons

Another Rescue by SCHENCIL'S PULMONIC SYRUP I was on the verge of the grave, and so far gone that my family and friends had fost all hopes of my recovery sand when in this situation, having then res-

courd by the use of Schenek's Pulmonic Syrup, I de-nic to testify, with grateful emotion to Dr. Schenck, the unspeakable benefit I have received from the use of his invaluable medicine.

Larly install, I contracted a viblent cold, and in consequence of which I had chills thernard with fe-rer, pains in my right broad and shoulder blade, with a had cough, and no expectoration. I kept getting, with worse until I took my bed, and had the attendance of my family physician. I was under his care about four weeks, and at the expiration of that time was reduced to low that despair took hold of myself and friends and even my physician abandoned me and gave me up to die with the hasty consumption. My appetite was gone, my bowels very irregular, fiver and night-meers, rain in my breast and shoulder, attended with a distressing cough, which was very tight; my fles had nearly all gone, and was so weak that I could scarcely raise my head from the pillow, and was truly an object of pity to behold. My friends had been sent for to see me die, and my sick bed was surrounded by kind and sympathizing neighbors, who had come to

witness my departure from this world.
When all rays of hope had fled of my recovery, neighbor, Mr. David Conrad, proposed to try Schenck's Pulmonic Syrup, with a view of loosening my cough and relieving me of the tough phlegm, and as a means of affording temporary relief, remarking at the time, "that I was too far gone for the Syrup to be of any permanent benefit." My wife, anxious for the relief of my intense sufferings, procured some of the Pall monic Syrup. I found it afforded me relief, and 'con' tinued using it. I could feel its healing influence

upon my lungs.

I continue to improve under its use, and my friend were much gratified to witness my unexpected im-provement; many of my neighbors came to look at me w one raised from the dead.

My cough now became loose, and I felt something break, w en I had the pain in my breast, and I d charged large quantities of yellow matter. I have for weeks discharged and raised a spit box full of matter every day, with hard lumps like grains of something. My bowels now became regular and natural, and my appetite was so far improved, that I could scarcely r frain from eating too much. My strength improved, and I regained my flesh

I continued to improve in every respect soon after I commenced using the Syrup, and the improvement ontinued until I was restored to my health. I have passed through the inclement weather of the latter part of winter and the spring, and feel as well now as ever I felt in my life, and I am this day a living testi-mony of the great efficacy of Schenck's Pulmonic

wony or the great emery of schences a triudine Syrup in curing pulmonary diseases. Lest this statement be thought too lightly colored by some people, I subjoin certificates of a number of the inhabitants of Tacany, who saw mant different times during my disease, and never expected to see me restoral. I also append the certificate of the brothers of Mystic Lodge, No. 270. I. O. of O. F., who kindly watched over me, and fully believed they would consign my remains to the tumb; but, thanks to Dr. Schenck for his invaluable Pulmonic Syrup, my life has been spared, and I um permitted to make the fore-going statement for the benefit of suffering mankind. I reside at Tacony, and am well known by most of the people there, and will be gratified to have any person call upon me and learn more particulars of the virtues of this medicine. JOHN C. GREEN. June 24th, 1851.

The subscribers, members of the Mystic I odge, No. 270, I. O. of O. P. of Holmesburg, Ps. do hereby certify that we know John C. Green, (and is a member in good standing in No. 270 I. O. of O. F.) who was langerously ill with a low Pulmonary Consumption, last wint. r, so that they give him rp to die; that he is now fully testored to perfect health, and they believe his recovery was produced by Schenck's Pulmonic

We believe his certificate is correct in every par HENRY NEFF, P. G. ALFRED ROBINSON, P. G. ABRAHAM ARTHUR, P. G. J. K. OSMAN, N. G. JACOB WATERMAN, JR!

James C. Calver. JOSHUA PHINEMORE.

The undersigned, residents of Tacony, eight miles above Philadelphia, being well acquainted with John C. Green, and the circumstances attending his case, feel impelled by a deep sense of imperative duty, to make universally known to the public his entire recovery from the very last stages of Pulmonary Consumption. So entirely helpless was his condition; having been but a brief period, since in that rapidly sinking and emaciate state, as to ut erly preclude, in the opinion of his physicians and friends, who watched by his bedside, all hopes of even a temporary recovery and restoration to his present robust health. Thus the careful use of your invaluable Specific, the Pulmonic Syrup, makes it our belief, under the circumstances of his previous prostrate, not to say dying condition, one of the most startling results that the whole annals of medi-cal skill of science can produce. It deserves to be im-perishably recorded to your credit, and secure to you, ease, a lasting monument and a world-wide regulation in the healing art, that no time may either diminish or destroy. Having witnessed Mr. Green's distressing struggles and sufferings from a continued cough, superadded to the other symptoms consequent upon, or attending to the last stages of a pulmonary disease

protract his life, much less restore him back again to his former health, we feel it thus our duty to give our unqualified testimony of Mr. Green's perfect recovery by means of the exclusive use of your wonderful Syr up; and we should indeed rejuice if we could be made the humble instruments of relief and cure to others who may be so unfortunate as to be similarly affleted.
