Another Rescue by SCHEMOR'S PULMONIC SYRUP

was on the vergo of the grave, and so far gone that I my family and friends had lost all hopes of my re-covery; and when in this situation, having been re-ened by the use of Schenck's Pulmonic. Syrup, I desine to testify, with grateful emotion to Dr. Schenek, the unspeakable benefit I have received from the use of his invaluable medicine.

Early last fall, f. contracted a violent cold; and in

onsequence of which I had chills, alternated with feer, pains in my right breast and shoulder blade, with to bad cough, and no expectoration. I kept getting worse until I took my bed, and had the attendance of my family physician. I was under his care about four weeks, and at the expiration of that time was reduced so low that despair took hold of myself and friends and even my physician abandoned me and gave me up to die with the heaty consumption. My appetite was gone, my bowels very irregular, fever and nightsweats, pain in my breast and shoulder, attended with distressing cough, which was very tight; my flesh had nearly all gone, and was so weak that I could scarcely raise my head from the pillow, and was truly an object of pity to behold. My friends had been sent for to see me die, and my sick bed was surrounded by kind and sympathizing neighbors, who had come to witness my departure from this world.

When all rays of hope had fied of my recovery, a neighbor, Mr. David Conrad, proposed to try Schenck's Emery's Improved Wide Rack and Pinion Pulmonic Syrup, with a view of loosening my cough and relieving me of the tough phlegm, and as a means 1 horse, of affording temporary relief, remarking at the time, "that I was too far gone for the Syrup to be of any permanent benefit." My wife, anxious for the relief of my intense sufferings, procured some of the Pul-monic Syrup. I found it afforded me relief, and continued using it. I could feel its healing influence upon my lungs.

I continue to improve under its use, and my friends were much gratified to witness my unexpected improvement; many of my neighbors came to look at me es one raised from the dead.

My cough now became luase, and I felt something break, w en I had the pain in my breast, and I discharged large quantities of yellow matter. I have for weeks discharged and raised a spit box full of matter every day, with hard lumps like grains of something. My howels now became regular and natural, and my appetite was so far improved, that I could scarcely refrain from eating too much. My strength improved, and I regained my flesh.

I continued to improve in every respect soon after I commenced using the Syrup, and the improvement continued until I was restored to my health. I have passed through the inclement weather of the latter part of winter and the spring, and feel as well now as ever I felt in my life, and I am this day a living testi-mony of the great efficacy of Schenck's Pulmonic Syrup in curing pulmonary diseases.

Lest this statement be thought too highly colored by

some people, I subjoin certificates of a number of the inhabitants of Tacony, who saw me at different times during my disasse, and never expected to see me restor. ed. I also append the certificate of the brothers of Mystic Lodge, No. 270. I. O. of O. F., who kindly watched over me, and fully believed they would consign my remains to the tomb; but, thanks to Dr. Schenck for his invaluable Pulmonic Syrup, my life has been spared, and I am permitted to make the foregoing statement for the benefit of suffering mankind. I reside at Tacony, and am well known by most of the people there, and will be gratified to have any person call upon me and learn more particulars of the virtues of this medicine. JOHN C. GREEN. June 24th, 1851.

The subscribers, members of the Mystic I odge, No. 270, I. O. of O. F. of Holmesburg, Pa. do hereby certify that we know John U. Green, (and is a member n good standing in No. 270 I. O. of O. F.) who was rously ill with a low Pulmonary Consumption, is now fully restored to perfect health, and they believe his recovery was produced by Schenck's Pulmonic

Lolmesburg, Philadelphia Co., Jone 25, 1851. The undersinged, residents of Tacony, eight miles

above Philadelphia, iring well acquainted with John C. Green, and the circum stances attending his case, feel impelled by a deep sense of imperative duty, to make universally known to the public his entire recovery from the very last stages of Pulmonary Consumption. So entirely helpless was his condu. on, having heretofore, been but a brief period since in that rapidly sink. He has just received from New York a large assor restoration to his present robust health. Thus the careful use of your invaluable Specific, the Pulmonic Syrup, makes it our belief, under the circumstances of his previous prostrate, not to say dying condition, one of the most startling results that the whole annals of medical skill or science can produce. It deserves to be imperishably recorded to your credit, and secure to you, the greatest discoverer of this hitherto remediless dis case, a lasting monument and a world-wide reputation in the healing art, that no time may either diminish or destroy. Having witnessed Mr. Green's distressing struggles and sufferings from a continued cough, superadded to the other symptoms consequent upon, o attending to the last stages of a pulmonary discase and moreover, it being so generally believed by his numerous friends that no human power could relieve, or protract his life, much less restore him back again to his former health, we feel it thus our duty to give our unqualified testimony of Mr. Green's perfect recover by means of the exclusive use of your wonderful Syrup; and we should indeed rejoice if we could be mad the humble instruments of relief and cure to others who

may be so unfortunate as to be similarly afficted. David Conrad, Jesse Duffield, C. Hinckle, Joseph Head, Jr., A. Heath. Jesse Watson, Stephen Lukens, Robert Allyn. Mauhew Toden, James Torbert.
