2. Lanve seen farmers pasture their swine in the highway, without a yoke or a ring in their nose, greatly amoying their neighbors, by turning up the turf before their dwellings, ready to enter the dooryard or garden whenever there is a bar down, or a gate open, or a hole in the lence, forgetting the wanted not usually kept, either will be found here, or

up to briais and weeds, and remain from year to Year encumbered with all manner of trash, thus fulfilling the proverby " I went by the field of the can be relied upon, in all cases, as being genuine. The signiful and vineyard of the man void of understanding, and lo, it was all grown over with thoms, and nettles had covered the face thereof, and the stone wall thereof was broken down."

I have seen farmers who had a tolerable theo-That farming in their hands, but not the first principle in practice, and were like the Scribes and Pairisees, " for they say and do not."

5. Lhave seen farmers who thought it wicked to cultivate a fine garden, shrubbety, ornamental tron flowers, or anything to make their homes pleasant or inviting, not discorning the hand of the Tolu Creator in all the works of nature-but who esteemed it no sin to suffer their children to grow up in idleness, roving about with no taste for anything pertaining to home.

6. I have seen farmers who let their tools remain in the field in all weathers, and during the winter, saving a great deal of time in not carrying them to and from the store-trouses, it is true, but torgetting the old maxim " a penny saved is as good as twopence earned."

1.1.1 have seen farmers who knew enough of farmleg without reading the Cultivator, and could not afford to take it, but who were able to pay for a novel, or some trashy paper of the day.

8. I have seen tarmers, who were very officious in their neighbor's business, and strange as it may weem neglect their own. GEO. CARGILL, Berkshire N. Y.

Borticultural Hints.

To preserve plumtrees from black knots or excrescences, cut them off several times a year cut and keep cutting.

To prevent the cherry crop from being spoiled by the curculio, keep the ground from grass. -The only remedy for the cherry-bird is shooting

-hundreds have thus been driven away by a few fiours lab r, so that not one was seen for a week. The best remedy for bugs on melons and squashes, is a cheap square box covered with guaze or nothing.

To transplant evergreens, one point attended to will result in success-neglected, in failure—this es, removing plenty of earth with the roots. Molching and watering the raspberry on light

aoils will usually double the size of the fruit. Banking round young trees a foot high in au tumn, in an infallible remedy against mice.

Mulching young fruit trees is one of the best operations for this country, but the litter must be semoved early in the autumn, or the mice will play

The Massachusetts Ploughman gives the measprement of four apple trees set five years ago when tertility. Their pro one foot from the ground is fifteen inches each .the stems with potash ley, and keeping the ground

Dandelion, obtains annually from one-fourth of an infant, lather, table, horse and blacking brushes. acre the sum of \$200.

WASH FOR BARNS .- The Horticulturist gives the following as the best for this purpose. Hydraulic cement, 1 peck; treshly stacked lime, 1 peck yellow other (in powder) 4lbs.; the whole to be dissolved in hot warer, and applied with a brush

CATTLE SHEDS .- All cattle should have warm aheds to shelter them for winter's colds and storms chinese vermillion; Spanish brown, American & Eng and keep them warm. If your are not thus provided for, have sheds forthwith erected for their accommunition and comfort. Cattle kept dry and comfortable in winter, can be kept on one-fourth less food, than when exposed to rains, sleets and snows without any covering save the broad Heavens .-There is no mystery in this. When cattle are kept half-frezen, much of their lood is diverted from fatforming into mel, to keep the body warm.

WHITE CUP CAKE -One cup of butter, two cups of sugar, three cups of flour, the white of eight Swayne's medicines, wild cherry. &c.

Brant's Pulmonary Balsam and Extract, etc. eggs, a small tablespoonful of rose water, milk or cream, to make a thick batter. Beat the butter and angar to a cream. Whisk the eggs very light, and add them gradually with the flour, add the rose water and salemutus, and if this should not be quite as thick as a pound cake batter, add a little rich Dr. Keeler's Family medicines. milk or cream. Fill small tins about three parts Hutching's Dyspepsia Dimers. Hoofland's German Bitters, for Dyspepsia and Debility foll with the mixture, and bake them. The yolks Rrown's Essence Jamaica Ginger. of the eggs which are left may be used for a pudding.

To MESO BROKEN EARTHENWARE - Moisten each some with white paint (white lead) press it firmly together and fasten it with a cord. Let it remain in a dry place a month, when it may be used. I have a toreen that if have used for more than a year with various kinds of liquids and meats for the table, which, to all appearance is as sound as east and seam just as delicate; whereas the cement hawked about by pediats makes a dirty loos. ing seam, and will not stand the test of hot water.

Bornen Miss. Take a fresh egg break it in a saucer, and with a three pronged look beat it suntil it is as thick as batter. Have randy half a pint of new milk, sweetened with white ager, stir the ager into the milk, and serve it with a piece of spange take or slice of tosst. It is considered very Higher nourishing food for an invalid Some prefor the rolk and white of the egg beaten separate.

People seliom learn economy till they have livtie to exercise it on.

The receipts of the State Agricultural Fair at Lan-CESIST Wete \$9000.

Another Resembly THE PURISONNE STRUCT was on the verge of the grave, and so far gone that my family and friends had lost all hopes of my re-

my family and friends and lost all hopes of my recovery; and when in this situation, having been tracted by the use of Schenck's Pulmonic Syrup. I desire to staffy, with grafeful emotion to Dr. Schenck, the unspeakable benefit I have received from the use of his lovelumble medicine.

Early last fell, I contracted a violent cold, and in consequence of which I had chills, atterizated with 16-ver, pains in my right breast and shoulder blade, with a had cough, and no expectoration. I kept getting worse until I took my bed, and had the attendance of my family physician. I was under his care about four weeks, and at the expiration of that time, wat radioced so low that despair took hold of myself and friends, and even my physician abandoned me and gave me up to die with the hasty consumption. My appetite was gone, my howels very irregular, fever and hightnesses, pain in my breast and shoulder, attended with was guine in my breat and shoulder, ettended with a distressing cough, which was very tight; my flesh had nearly all gone; and was so weak that I could had nearly all gone, and was so weak that I could screely raise my head from the pillow, and was truly an object of pity to behold. My friends had been sent for to see me die, and my sick bed was carrounded by kind and sympathizing neighbors, who had some to witness my departure from this world.

When all rays of hope had fied of my recovery, a neighbor, Mr. David Contal, proposed to try Schenck's Pulmonic Syrap, with a view of loosening my cough

and relieving me of the tough phiegm, and as a mean of affording temporary relief, remarking at the time, "that I was too fargont for the Symp to be of any permanent benefit." My wife, anxious for the relief of my intense sufferings, procured some of the Pulmonic Symp. I found it afforded me relief, and continued using it. I could feel its healing influence

upon my lungs.

I continue to improve under its use, and my friends were much gratified to witness my unexpected im-provement; many of my neighbors came to look at me

as one raised from the dead.

My cough now became loose, and I felt something break, when I had the pain in my breast, and I discharged large quantities of yellow matter. I have for weeks discharged and raised a spit box full of matter every day, with hard lumps like grains of something My bowels now became regular and natural, and my appetite was so far improved, that I could scarcely re-frain from eating too much. My strength improved, and I regained my flesh.

I continued to improve in every respect soon after I commenced using the Syrup, and the improvement continued until I was restored to my health. I have passed through the inclement weather of the latter part of winter and the spring, and feel as well now as ever I felt in my life, and I am this day a living testi-

mony of the great efficacy of Schenck's Pulmonic Syrup in curing pulmonary diseases. Lest this statement be thought too highly colored by some people, I subjoin certificates of a number of the nhabitants of Tacony, who saw me at different times during my disasse, and never expected to see me restored, I also append the certificate of the brothers of Mystic Lodge, No. 270, I. O. of O. F., who kindly watched over me, and fully believed they would con sign my remains, to the tomb; but, thanks to Dr. Schenck for his invaluable Pulmonic Syrup, my life has been spared, and I am permitted to make the fore going statement for the benefit of suffering mankind. I reside at Tacony, and am well known by most o the people there, and will be gratified to have any person call upon me and learn more particulars of the virtues of this medicine.

JOHN C. GREEN.

The subscribers, members of the Mystic Lodge, No. 270, I. O. of O. F. of Holmesburg, Ps. do hereby certify that we know John C. Green, (and is a member in good standing in No. 270 I. O. of O. F.) who was dangerously ill with a low Pulmonary Consumption, last wint, r, so that they give him rp .o die; 'that he is now fully restored to perfect health, and they believe his recovery was produced by Schenck's Pulmonic

We believe his certificate is correct in every par HENRY NEFF, P. G. ALFRED ROBINSON. P. G. ABRAHAM ARTHUR, P. G.

J. K. OSMAN, N. G. JACOB WATERMAN, JR! JAMES C. CALVER.

JOSHUA PHINEMORE. Holmesburg, Philadelphia Co., June 25, 1951. The undersigned, residents of Tacony, eight miles above Philadelphia, being well acquainted with John . Green, and the dircumstances attending his case feel impelled by a deep sense of imperative duty, to r last starres of tion. So entirely helpless was his condition, having been but a brief period since in that rapidly sinking and emaciate state, as to ut erly preclude, in the opinion of his physicians and friends, who watched by his bedside, all hopes of even a temporary recovery and restoration to his present robust health. Thus the careful use of your invaluable Specific, the Pulmonic Syrup, makes it our belief, under the circumstances of his previous prostrate, not to say dying condition, one of the most startling results that the whole annals of medical skill or science can produce. It deserves to be im-perishably recorded to your credit, and secure to you, the greatest discoverer of this hitherto remediless dis ease, a lasting monument and a world-wide reputation in the healing art, that no time may either diminish o destroy. Having witnessed Mr. Green's distressing struggles and sufferings from a continued cough, su-peradded to the other symptoms consequent upon, or personned to the last stages of a pulmonary disease; and moreover, it being so generally believed by his nu-merous friends that no buman power could relieve, or protract his life, much less restors him back again to his former health, we feel it thus our duty to give our unqualified testimony of Mr. Green's perfect recovery, by means of the exclusive use of your wonderful Syr up; and we should indeed rejoice if we could be made the humble instruments of relief and cure to others who

may be so unfortunate as to be similarly afficted. David Conrad, Jeste Duffleld, C. Hinckle, Joseph Head, Jr., A. Heath, Jesse Watson, Robert Allyn, Stephen Lukens, Matthew Toden, James Torbert,

John Bloomesbury, Allen Vandegrift.
