Advices from Greytown or San Juan, to the 15th this represent that the difficulties between the citic kens of that place and the Transit Company, have ended in the interference of the U. S. sloop-of-war. Crane to protect the property of the Company, and the San Juan authorities have pulled down their lag and surrendered the government of the city to the Capiain of the Cyaire, who would not accept it.

The city government, which is composed of Americans and British, wished to eject the Company from the lands where they had erected their hotel and depot, and the Mayor sent the carpenters to remove the building. Just at this furcture, the Cyane arrived, and drawing up in Iron of the depot, landed marines, sent word that the writ of ejectment should not be executed, and blockeded the ment should not be executed, and blockeded the harbor by retusing to allow boats to pass from the twen to the north side of the bay. This produced in the harbor by the north side of the bay. This produced is great commotion in the town and a multiplication. a great commotion in the town, and a public indig-nation meeting has been held, and a protest adoptedd. The whole cause of the diarnte between the that the latter furnish the emigrants to California that the latter furnish the emigrants to California the engineer; McCormick, the mate; G Hunter with their supplies, and the emigrants have no octor of Cincinnali; and McReynol is casion to enter Greytown at all. But this is a consequence of their own set, for the authorities when first applied to by Mr. Vanderbill's agent for a site for their depot, were refused one on the same side of the bay on which the city is built, but had one assigned them on the Point Arenas-a spit of sand which form a one side of the harbor. They pro casded and erected buildings suited to their purpo ees, as well for building small steamers to ravigate the river San Juan as for the accommodation of the employees of the Company. The growing trade which has since spring up, has induced the authorities of Greytown to wish to transfer the Company to their side of the bay, and for this purpose they called upon the Company to vacate, alleging that it The onlinence they adopted to enforce the design, created great excitement among the employees of the Company, and they applied to Capt. Hollins of the Cyane, for protection. Whether Capt. H is justified or not in interfering with the domestic govemment of San Juan, is a question which must be determined by the facts.

Honnible-On the 15th inst., a malatto gu named Sarah Smith, aged 13 years, in the service of Mr. Pennock, of Upper Oxford, Penn., took his little daughter, Eva Ann, aged five years, into the barn, with the intentior of murdering her. She obtained a rope, and adjusted a noose or slip knot on the end of it, placed it around the neck of her intended victim, and in spite of the cries and entreaties of the little girl for mercy, held her hands until she drew the rope tightly around her neck, silencing her cries by strangulation. After she supposed the child was dead, she took the rope off her neck, carried her out of the barn, and laid her down on her face in the garden. Sarah then went into the house, and asked the Irish girl employed in the family, where Eva Ann, the little girl, was, the child out, and that she should go and bring her back. Sarah then returned to the garden, and called for help to bring Eva in. The Irish girl ran out, and the little Eva was found on the ground almost lifeless, with the marks of the rope round her neck. The child was taken into the house, and with medical assistance, was fortunately restored. The mulatte girl was sent to prison. She confessed the act, and said that she intuded to murder the child; that little Eva had slapped her, and was saucy to her, and for this reason she had attempted this terrible deed.

THE LATE TROUBLE AT HONDURAS -By the brig Helen Jane, from Truxillo, Honduras, Feb. 27th, which arrived at New York on Saturday morning we have the following account of the trouble on the Mosquito Coast:

About four months since the commandant at Traxillo dispatched troops to Limas, on Romain River, to put a stop to the cutting of mahogany ty the English, they refusing to pay the duty enacted by Honduras, on the ground that the place belonged to the Mosquito King, which Honduras always

The English cutters were driven off-the English flag hauled down, and the H mander would proceed to remove them by force He also stated that a claim for damages to the English subjects, in consequence of their having been driven off, would be made. He likewise demanded that English subjects should not hereafter be interfered with. The commandant of Truxillo complied with the demand under protest, and the cope at Limas were removed. The people of Honduras claim Limas as undisputably a part of Honduras, and deny the right of the English to cut the valuable mahogany without paying the usual

Young Ladies' Seminary .- The Winter Term of this Institution, closed on Friday evening last, with the usual weekly exercise in Music, Composition, and Singing—in each of which departments, the young ladies and Misses, composing the School, acquitted themselves in a manner highly creditable to themselves and their Instructors.

About 70 scholars have attended during the term, pursuing the various branches of study, suited to their respective ages and forwardness; and it is a subject of remark and inst commendation that the advantages of the entire School from the juvenile classes, to those pursuing the classical and or-gamental branches, has been of the most gratifying character; in fact, which, together with the excel-tent discipline maintained, and the vigilant watch fulness and careful attention of the accomplished Principal, Mrs. PORTER, over every interest of her pupils, whether boarders or day schollars, will not fail of its proper influence upon the future support and permanency of the Seminary.
The Spring Term will commence on Wednesday

next, the 30th inst.-Owego Gazette.

SUSQUEHANNA DEPOT POLICE REPORTS - John Whalen, discharged engineer on the New York & Brie Railroad, was discovered, a few nights since loosening the eccentrics of one of the engines that was about to start out-the effect of which would bitherto eluded his pursuers.

slung shot. Having a heavy railroad lantern in his highways, irrespective of the title to the soil, to enhand, he struck his assailant over the head with it, and knocked him down. The assailant was bound conduce to them public good." He also decides and knocked him down. The assailant was bound over, in \$500 bail, to appear at the next term of that by the charter the corporations are invested

-Acel McDonald and another man, a pediar, were arrested, of the 21st instant, on a charge of passing counterfeit money; and failing to obtain bail, were lodged in jail, to await their trial at the nezi term —Susquehanna Register.

Suicide FROM Rappings .- Ebenezer Pope, a respectable citizen of Milton, Mass., hung himself in his barn, on Thursday. He leaves a family. Insanity, resulting from the rapping delusions, caused on the 13th inst, in company with Consul, Judge the mounful act. He was one of the selectmen of the town. Sylva Beech, a maiden lady committed siloids by hanging at New Ashlord, Mass, last week. Cause said to have been religious ex.

GOVERNOR OF WASHINGTON TERRITORY.-The Baston Post states that Gov. Stevens, the newly ap-pointed Governor of Washington Territory, is to be put in charge of one of the the three surveying par-fles which will be sent out to explore the several tome for the Pacific Railroad,

Steambeat Explosion.

The Galveston, Texas, News of the 25th plt gives a long account of an explosion on board the steamboat Farmer, about 11 o'clock on the night of the 23d, when she was about ten miles from Galveston, in the bey, on her way from Houston, by which calamity a large number of lives were lost, and many persons were more or less injuried. The fact was announced a f w days ago, the following

particulars are interesting?

The steamers Neptune and Farmer again under took to race last night, coming from Houston to Galveston, About 11 o'clock the Farmer blew up a little west of Pelical Island, in sight of Galves

The number of the killed and wounded has no yet been ascertained. The Neptune was close by when the explosion trok place, and immediately took off the survivors and some of the killed and

wounded. tain Webb, the commander; Caleb Robertson, who kept a coffee-house in Galveston; Wm. Warner, second engineer, C. H. Sterns. Among the wound hori fee of San Juan and the Transit Company is ed are Mr. Dixon: Blakeman, the ma'e; Curtis

> The ladies all escaped unbort. We learn that the Neptune was about an honremployed in taking off the killed and wound. The scene of distress is described as heart rendering in the extreme -The Neptune teturned immediately after discharging her passengers, to renew the search for the missing and has not yet got back.
>
> Mr E. M. Stackpole was slightly wounded. It

is said that he was expostulating with Captain Webb against such reckless exposure of the lives of his passengers, when the boat blerr up, and was getting the passengers o sign a written protest.

Mr. Dixon is not expected to survive, and Mr. Reynolds is very badly, though it is hoped, not fa-tally wounded. We have just seen Mr. Westhrop, the steward of the Farmer, who is very badly wounded, and can hardly be recognized. William Hale, assistant steward, is also badly wounded, one let being broken His recovery is doubtful -Mr. Hunter of Cincinnati. is severely hust. Mr. Barnum, of Maine, has had to have his arm amputated. James Co ton, of Honston, is one of the missing. Mr Geary, formerly connected with the loamal of this city, is also among the missing.

SPRING THE MURDERER FINCE THE TRIAL -WE learn that Arthur Spring, Sr., since his conviction of the diabolical murder of Ellen Lynch, has become entirely prostrated, more from anguish of mind it an pain of body, and it is with difficulty that he can be made to take sufficient food to keep him alive, On Saturday his counsel, Mr. Doran, visited him in prison, and found him laying in a state of exhaustion, upon his bed, and manifesting no disposition to converse. Some stimulating drink had been prepared for him, which he refused to take, until a threat was made to force it down him In conversation with his counsel, he again asserted his innocence, and upon being told that he must restore the gold which he took from the trunk of The Irish girl at once told her that she had taken Bartholomew Lynch, he denied all knowledge o i', but said that his son knew all about it, and forther said if his son would teil where he put the money, so that it could be restored, he would forgive him and allow him to come and see him .-Otherwise he would never forgive him. Mr. Doran vainly attempted to get anything out of him that was satisfactory. It is thought that he feigns himself sick. He will doubtless be in our court to day We learn that the son has made other disclosures touching the wickedness of his father. He says that he went some time since to the fruit store of Mr Moroney, corner of Eighth and Walnut streets. and intended to kill Mrs M, who was alone. He managed to slip unperceived a heavy weight in his pocket, to accomplish his purpose but was true trated in his design by some one coming into the store. This brings him into the neighborhood of the Rink murder, which it is not unlikely he perpetrated .- News.

THE BURNING COAL MOUNTAIN .- That portion of the Broad Mountans, called the 'Fiery Mountains,' from the fact of the Anthracite coal at that point being on fire-which has been burning for the last fifteen years, is situated about five miles from Mi nersville and filteen from Schuylkill Haven. It is now considered a very dangerons experiment to permanently stationed there. The mission of the travel over the mountain, as it is supposed that in British steamer "Devastation," at Troxillo, was to many places the surface is a niere superficial shell demand the immediate withdraw of the troops from the coal having been consumed up to the surface, Limas, with the intimation that if the demand was and hence the least pressure thereon, it is presumnot complied with by 12 o'clock, the English com-manJer would proceed to remove them by force into the fiery chasm below. At the base of the monutain in one place a stream of water almost boiling hot comes out. The surface of the mountain presents a desolate appearance as far as the eye an reach. The mountain is either cracked, burned or broken into numerous and fearful depths by the approach of the fires to the upper strainm; roots and trunks of the lotty trees are charred and blackened, mingling their pyroligneous odor with the sulphurous vapors from the hot caves and crevices around. The calcined bones of birds, reptiles and small quadrupeds, lie here and there, half mixed with mineral ashes, to fill up the blasted view, while amidst the vast scene of desolation may be seen a solitary woul-flower, springing from its perpetual" hot bed," and presenting in the uncongenial atmosphere, a mockery of bloom.

> OUTRAGE.-We team from the Courtland county papers that the barn of Samuel Plumb, Esq., of Homer, was burned on the night of the 12th inst. together with a waggon, cotter, harness and sever al tons of hay, and a private account says also a horse. It was the work of incendiary. "It is generally known throughout the country," says the Democrat, " that the state of feeling in Homer, in licens prosecutions for selling figuor, partakes of a violent and malignant nature, and that Mr Plumb was recently one of the overseers of the poor, and has been of the most active and zealous on the Temperance side." Last summer a large number of beautiful shade trees, belonging to the premises of Mr. Plumb, were girdled, and unerly ruined .-Mr. Noah Hichcock, present overseer, recently had the tails of his liorses sheared. It is to be regretted that the authors of such outrages cannot be arrested and punished in accordance with the enor mity of the crimes committed.

THE BROADWAY RAILROAD -The Superior Court of New York have decided that the injunction prohibiting the grantees to construct the railroad shall be, when the engine was under rapid motion, to be continued, or, in other words, to be made perdisplace the machinery, and throw the cars off the manent—so that this speculation is, for the present track. Efforts were made to arrest him, but he has put an end to. The opinion of Judge Edwards does not question the power of the corporation to authorand clerk in Hall's store, while returning from ize the construction of railways in the city, nor does bis supper, on the evening of the 22d inst., was be deem railroad a nuisance. He thinks that body struck by some person unknown to him, with a have a sufficient jurisdiction over all the public alone shat the properties of the title to the soil to enwith the largest discretion in the exercise of their political powers, but private property stands on a different footing," and cannot be disposed of by them " without any, or for a nominal, considera-

> HEALTH OF HON, W. R. KING. - We learn from a gentleman who came passenger yesterday in the gold, a check for \$600, &c. He was about thirtychooner Midas, from Havana, (says the New Orleans Delta, of March 23,) that he visited Mr. King

The President, by and with the consent of the Senate, has appointed the celebrated Kit Carson to an Indian agency, in and for New Mexico.

Démocratic State Nominations,

CANAL CONMISSIONER THOMAS H. FORSYTH, OF PHILA. Co. AUDITOR GENERAL. EPHRAIM BANKS, OF MIFFLIN, Co. FOR SURVEYOR GENERAL PORTER BRAWLEY, OF CRAWFORD CO.

The Girard Bank.

We find in the Philadelphia Ledger the following emarks in regard to the proposition to re-charter the Girard Bank :- " The bill for extending twenty years the charter of this bank, passed second reading in the Assembly yesterday, and it is the general expectation that it will become a law. A mo tion in opposition to refer the bill to the Judiciary Committee, was voted down. At present the Bank pays into the State Treasury, \$9600 in tax on dividends and capital. The pending proposition is to equire the Bank to pay into the Treasury, immediitely, \$125,000, to be appropriated to the completion et the North Branch Canal. It will be rememcered that \$250,000 of the loan appropriated to the Canal, were taken to remove the Planes on the Portage Road. The interest on the \$125,000 would be equal to \$7500 per annum, or, in twenty years \$150,000. The interest, it will be seen, is annually \$2100 less than the tax now paid, but as it will enable the State to continue to completion the work on the Canal, without borrowing, it has been deemed more advantageous than the tax. The bank, we understand, prefers the tax, but is willing to accept the terms proposed. The Girard is favorably located for business, and to put it out of existence would create as much inconvenience, probably, as the winding up of any other bank in our city. As a proof of the use made of it by the business men in its vicinity, we observe by its last published statement, it held on deposit, \$1,338,964."

The endorsement of the Ledger is worthy of consideration, because there is no paper in the State more radical upon the question of the currency.

We observe that our Representatives-Messrs. BARTON and PASSMORE-have favored this proposition by their votes, and we have no doubt, will be sustained by their constituents. No special reasons can be niged against the re-charter of the Girard Bank, which is as necessary and in as sound a condition as any in the State. The bonus required to be paid, in lieu of the tax, would be of more advantage to the State, if received now, and applied to the completion of the North Branch Canal.

Death in California

JOSEPH T. RICHARDS, late of Montrose, died in San Jose, California, February 23, aged 42 years. Mr. Richards was a prominent and a very able member of the Susquehanna Bar, where he Jone an extensive business, till the decline of his health induced him to seek a more congenial clime in hopes of restoring it.

FIRE IN ELMIRA-LOSS ABOUT \$15,000 .- On the 19th ult., a fire broke out in the clothing store of Mr. Hogan, on Water street, opposite the Brainard House, which destroyed several wooden buildings and contents before it could be arrested. The origin of the fire is unknown. Luce & Dunmars' gro cery and provision store, loss \$1,500, covered by insurance. Quinlan & M'Mahon, loss \$1,500, insured \$1,200. Hubbel & Co.'s cabinet shop, loss covered by insurance. Hogan's clothing store, loss \$2.500, nearly covered by insurance. West's ment market, loss \$700, no insurance. Geo. Richard Firzgerald, loss \$1,200, insured \$1,000.

DEATH OF MRS. CASS.—This most estimable lady, consort of the illustrious Senator from Michigan, died on Thursday, 31st ult., attended to the last moment by the watchful care and loving kind ness of the good and great husband. Mrs. Cass was a native of Virginia, highly educated, yet a of unassuming womanly excellence, the centre of attraction of a large circle of friends, and a ministering angel of benevolence and charity to the poor and afflicted.

MRS. ABIGAIL FILLMORE, the deceased wife of the Ex-President, was a native of Cayuga county, New York, and daughter of the late Rev. Lemuel Powers. She was married to Mr. Filmore in 1826. and leaves a son and daughter; the former about 21, and the latter 19 years of age. In private life. Mrs. F. has always been much esteemed by her acquaintances, for her many virtues and amiable and agreeable disposition. She was about fifty years of age.

SUICIDE OF AN ARMY OFFICER .- John S. Hathaway, Brevet Major of the First Artillery, U. S. A., was found dead on Thursday evening, in his room at the Astor House, New York, having cut his throat with a razor, which was lying beside him. His room door was bolted on the inside, and had to be broken open. On his person was found \$150 in eight years of age, and a native of Contand county,

THE JAPAN EXPEDITION, it is rumored, has been countermanded, but what truth there is in the rumor we know not. It would show the

Setter from Harrisburg.

HARRISBURG, April 5, 1853. A number of philanthropic individuals, principally of Philadelphia, are urging upon the Legislature the appropriation of money for the purpose of establishing a school for the education of idiotic children. Judge Kane delivered a tecture in the House of Representatives on this subject, in which he made known a number of interesting facts. It has always been supposed that idiots were incapable of education; that nature had deprived them of every spark of intellect, and that with the human form they were degraded to a condition of mere Columns (Pa.) REFAIL LUNDER MARKET, March animal instinct. Experiments prove that this is a 28.—Infectior Cull Boards and Grub Plank \$9; Cul form they were degraded to a condition of mere mistaken notion, and that education will elevate the mon \$12 00; second Common 17 00; first Common \$27 50; Pangel; \$35 00; Hemlock Boards diotic above their brutal state, and endow them with a comparative degree of intelligence. Several children were exhibited to the audience who had been raised from this lamentable condition. A few years ago, the Legislature, moved by the disinterested appeals of Miss Dix, established within sight of the Capuol, a State Lunatic Hospital. That institution is now filled with patients, who before received no better treatment than could be procured in a county poor house, which was generally chains. The people have nothing to regret in the appropriation of money for this laudable institution. With like, or even stronger force, do the claims of those worse than insane appeal to the Legislature. The appropriation made by the House of Representatives to \$30,000 The Senate with a cautious spirit has referred the subject to a committee. Some appropriation will cerainly be made.

The public printing has been allotted to A. Boyd Hamilton, at 70 1-16 per cent. below the rate fixed by the act of 1843. Mr Hamilton took the printing at Washington at ruinous prices, so that Congress was compelled to take it out of his hands. The contract which he has just made, will in all proba

bility have a similar issue. A bill of very great importance passed the Senate a few days since, and ought to pass the other branch of the Legislature. It increases the tax on all private bills, so as to exclude a large portion of that character of legislation that now occupies the whole time of the session. Business that the Courts have the power to transact, acts creating, extending and enlarging the powers of corporations, and all other matters, of an entirely private or local nature, is to be deterred from an application to the Legislature, by heavy taxation. This evil has become of such magnitude, that some potent remedy is imperatively demanded. Two-thirds of the railroad and plank road companies chartered, are mere fanciful projects which will never be accomplished. Acts of incorporation are now so easily procured, without the trouble of examination into the probability of success, that every projector considers them as one step taken in the advancement of a favorite scheme The bill would be a salutary reform.

The Senate has passed a Resolution to adjourn finally on the 12th of this month and the House has passed it to second reading, and yet they have fnade scarcely any progress upon the appropriation. bill. If they should agree to adjourn on that day, the appropriation bill could not be sent to the Sen ate until the close of this week, giving that body one or two days for the consideration of the most important measure of the Session, which the House have had before them for months. This would be nothing new in Legislative history. On several occasions this important bill has been sent to the Senate during the last hours of the session, after they had fixed the time of final adjournment, to be hurried through in excitement, when cool judgment was the most demanded. I hardly think that an adjournment will take place until the 19th.

The Resolutions submitting to a vote of the peo ple the question of a prohibitory liquor law, was defeated by a tie vote in the Senate, yesterday, but several Senators repented of their vote, and moved a reconsideration, which was carried and the Resolution passed to third reading to day. Tomorrow they will pass finally. Doubtless the House will concur, so that October next will tell whether a majority of the people of this State are prepared to renounce " grog" on all occasions.

A bill incorporating the Towarda and Franklin Railroad, has passed the Legislature.

The Governor has signed the bill Incorporating the Erie city Bank, with the power to issue notes.

Yours truly, HEALTH OF THE VICE-PRESIDENT -The report that the Vice-President elect has been sworn in seems to be incorrect. The Evening Post, of the 2d inst., says. "We learn from the Hon Z Pratt, who has just returned from Havana, that he was invited by Mr. Sharkey, a week ago last Monday, to go out in a few days to be present at the swearing in of the Vice President," showing that he had not yet been qualified, as was reported.

Mr, Prait also was told that Mr. King's health was quite desperate; that he did not weigh over a hundred pounds, and would not probably live to return, even if he left, as he proposed to, on the let

SALERIES OF U. S. MINISTERS .- The general im pression appears to be that at the late session of Congress, the salaries of the U. S. Ministers to perches to the west line of said lot; thence south many of the Courts of Europe, were increased to \$20,000. This, however, is erroneous. This proposition failed through a disagreement of the two tract in the warrantee of Martin Smith granted by Houses. And yet the Federal press names this contemplated increase of salary as one of the items of " loco-loco" extravagance.

THE CASE OF SPRING.—The Court of Over and Terminer, at Philadelphia, decided on Saturday, after a careful and deliberate examination, that Levi Wood, terre tenants.

Spring is entitled to a new trial as the trial which ALSO—Piece or parcel of land in Granville twp. Spring is entitled to a new trial, as the trial which ended in his conviction was not a trial by a jury

THE Maine Liquor Law has had its stringency increased by the Legislature of that State, and passed by a vote of two to one in both Houses. In Wisconsin a similar law was defeated by one majority, and in Minnesota by the same majority.

The Senate of our State has adopted a reso. lution and amhorized the Governor and Members of the Legislature of Maryland, and the Mayor and
