JUST received a quantity of very superior Olover Seed. Farmers would do well to purchase their seed early. J. KINGSBERY,

Another Rescue by SCHENCE'S PULMONIC SYRUP.

was on the verge of the grave, and so far gone that my family and friends had lost all hopes of my recovery; and when in this situation, having been rescued by the use of Schenck's Pulmonic Syrup, I desite to testify, with grateful emotion to Dr. Schenck; the unspeakable benefit I have received from the use of his invaluable medicine.

Early last fall, I contracted a violent cold, and in

consequence of which I had chills, elternated with fever, pains in my right breast and shoulder blade, with bad cough, and no expectoration. I kept getting worse until I took my bed, and had the attendance of my family physician. I was under his care about four veeks, and at the expiration of that time was reduced so low that despair took hold of myself and friends, and even my physician abandoned me and gave me up to die with the heaty consumption. My appetite was gone, my bowels very irregular, fever and night-sweats, pain in my breast and shoulder, attended with a distressing cough, which was very tight; my flesh had nearly all gone, and was so weak that I could scarcely raise my head from the pillow, and was truly an object of pity to behold. My friends had been sent for to see me die, and my sick hed was surrounded by kind and sympathizing neighbors, who had come to witness my departure from this world.

When all rays of hope had fled of my recovery, a neighbor, Mr. David Conrad, proposed to try Schenck's Pulmonic Syrup, with a view of loosening my cough and relieving me of the tough phicgm, and as a means of affording temporary relief, remarking at the time, "that I was too far gone for the Syrup to be of any permanent benefit." My wife, anxious for the relief of my intense sufferings, procured some of the Pulnonic Syrup. I found it afforded me relief, and continued using it. I could feel its healing influence apon my lungs.

I continue to improve under its use, and my friends were much gratified to witness my unexpected improvement; many of my neighbors came to look at me as one raised from the dead.

My cough now became toose, and I felt something break, wen I had the pain in my breast, and I discharged large quantities of yellow matter. I have for weeks discharged and raised a spit box fullrof matter every day, with hard lumps like grains of something. My bowels now became regular and natural, my appetite was so far improved, that I could scarcely refrain from cating too much. My strength improved,

and I regained my flesh. I continued to improve in every respect soon after I commenced using the Syrup, and the improvement continued until I was restored to by health. I have passed through the inclement weather of the latter part of winter and the spring, and feel as well now as ever I fett in my life, and I am this day a living testi-

mony of the great efficacy of Schenck's Pulmonic Syrup in curing pulmonary diseases. Lest this statement be thought too highly colored by some people, I subjoin certificates of a number of the inhabitants of Tacony, who saw me at different times during my disaase, and never expected to see me restored. I also append the certificate of the brothers of do Mystic Lodge, No. 270, L. O. of O. F., who kindly do watched over me, and fully believed they would consign my remains to the tomb; but, thanks to Dr. Schenck for his invaluable Pulmonic Syrup, my life has been spared, and I am permitted to make the foregoing statement for the benefit of suffering mankind. I reside at Tacony, and am well known by most o the people there, and will be gratified to have any

person call upon me and learn more particulars of the virtues of this medicine.

C. Green, and the circumstances attending his case, feel impelled by a deep sense of imperative duty, to make universally known to the public his entire recovery from the very last stages of Pulmonary Consumpnon. So entirely helpless was his condition, having ion of his physicians and friends, who watched by his bedside, all hopes of even a temporary recovery and restoration to his present robust health. Thus the careful use of your invaluable Specific, the Pulmonic Syr up, makes it our belief, under the circumstances of his previous prostrate, not to say dying condition, one of the most startling results that the whole annals of medical skill or science can produce. It deserves to be imperishably recorded to your credit, and secure to you, the greatest discoverer of this hitherto remediless disease, a lasting monument and a world-wide reputation in the healing art, that no time may either diminish or destroy. Having witnessed Mr. Green's distressing struggles and sufferings from a continued cough, superadded to the other symptoms consequent upon, or attending to the last stages of a pulmonary discuse; and moreover, it being so generally believed by his numerous friends that no human power could relieve, or protract his life, much less restore him back again to his former health, we feet it thus our duty to give our unqualified testimony of Mr. Green's perfect recovery, by means of the exclusive use of your wonderful Syrup; and we should indeed rejoice if we could be made ne humble instruments of relief and cure to others who may be so unfortunate as to be similarly affleted.
